## Where the Flag Was Born.

The small 2-story house still standing at 239 Arch street, below Third, Philadelpha, has an interesting history. In it the first flag containing thirteen stars and thirteen stripes was made by Mrs. John Ross. the design for the flag was from a drawing made by George Washington with a pencil, and the flag thus designed was adpoted by a resolution of Congress on the 14th day of June 1777. A committee of Congress, accompanied by General Washington, afterward called upon Mrs Ross and engaged her to make a flag from this design. The flag then made is now known the world over as the Star Spangled Banner of the United States. There is a striking resemblance between the design of our flag and the arms of General Washington, and it is believed by many that the American flag was derived from this heraldic design. - Se-
