

SEVEN DAYS LATER FROM EUROPE.

The British steamship *Caledonia* arrived at Halifax on Tuesday the 10th inst., bringing one week's later intelligence from Europe.

The information brought by her is highly important, and will no doubt have some effect on our cotton market.

It will be seen that there is every probability of a war between Russia and Turkey. Should it take place, it will produce much commotion in Europe, as Great Britain and France cannot remain silent spectators.

Cotton remains unchanged, so far as regards prices, and the quotations given are the same as per steamer *Caledonia*.

The accounts from the manufacturing districts are still unsatisfactory.

RUSSIA AND TURKEY.

The probability of a war between Russia and Turkey was much discussed in English and French journals.

Turkey has peremptorily refused to surrender Kossuth and the other patriots, and is backed by France and England.

The Russian Ambassador took abrupt leave of Constantinople, and the Minister closed all diplomatic intercourse.

CALCUTTA.

Advices from Calcutta to the 20th August state that commercial affairs were satisfactory.

IRELAND.

The potato rot is rapidly increasing in Ireland.

The Gold Coinage of California, brought to New York by the Californians, makes its appearance, and will soon, no doubt, have a considerable circulation. The *Express* says:

"We have seen several ten dollar pieces coined just as handsomely as ours of the regular mint—and little bars of gold, stamped by the ounce, with its weight and fineness, also appear in the street—'Moffatt & Co.' are the vouchers for the weight and fineness, and their stamp is so much respected in San Francisco, that it passes as well as if it had Uncle Sam's imprint upon it. The Miner's Bank in San Francisco is also putting out their coin."

A NEWSPAPER.—The newspaper is the chronicle of civilization—the common reservoir into which every stream pours its living waters, and at which every man may come to drink. It is the newspaper that gives to liberty its practical life, its constant observation, its perpetual vigilance, its unrelaxing activity. The newspaper informs legislation of public opinion, and informs the people of the acts of legislation. And this is not all; the newspaper teems with practical morality; in its reports of crime and punishment you find a daily warning against temptation; not a case in a police court, not a single trial of a wretched out-cast, or a trembling felon, but does not preach to us the awful lesson how imprudence leads to error, how error conducts to guilt, how guilt reaps its bitter fruits of anguish and degradation. The newspaper is the familiar bond that binds together man and man—no matter what may be the distance of climate or the difference of race.

A WONDER IN CALIFORNIA.—One who has just returned from 'el dorado,' says that a gentleman rather dandily dressed, and having white kid gloves on his hands, appeared a few months since in the streets of San Francisco, and made a prodigious sensation. The white kids were the first that had been seen there, and at once attracted the attention and excited the curiosity of even the busy gold diggers. A crowd soon gathered around the man in gloves, and expressed their determination to dispose of him by raffle as being the greatest curiosity in the country.

FURTHER BY THE NIAGARA.

The European Times publishes reports very unfavorable to the potato crop of Ireland, in which it is said a sudden and rapid decay has taken place.

The commercial advices by this arrival are, in all material particulars the same as those received by the *Caledonia*.

A bountiful harvest has been realised. In trade generally, there has been no improvement.

From Manchester and other large manufacturing districts, the accounts are far from satisfactory.

There has been another arrival from India, bringing Calcutta dates to August 20th, and Bombay to September 1st. The accounts are regarded as altogether satisfactory, in a commercial point of view.

RUSSIA AND TURKEY.

The English and French journals are mainly occupied in discussing the question of the alarming state of affairs existing between Russia and Turkey, and the possibility and even probability of a war breaking out between these two powers. The Roman difficulty, as well as all other matters that had before been considered of paramount importance, seem to be wholly lost sight of in the discussion of this important question.

The last accounts from Constantinople state the Emperor of Russia had made a formal demand for the surrender of Kps

uth, Bcm and other Hungarian patriots, who have sought refuge within the dominions of the Sultan.

The Turkish government, with a manliness which cannot be too highly commended, refused to be bullied into compliance. The Russian agent, finding his threatening tone unavailing, took an abrupt departure from Constantinople. The Minister of the Czar has closed all diplomatic intercourse with the Turkish government. England and France through their representatives, have prevailed with the Sultan and kept him firm in his determination not to surrender the fugitives.

Already in England and France cabinet councils have been held to consider these grave circumstances. Should Russia persist in demanding the surrender of these devoted men' an European war is thought to be inevitable.

The Paris Journal des Debats of Thursday, says we are glad to learn that England and France are most cordially united in their determination to support their Ambassadors in the advice given by them in regard to the extradition of the Hungarian refugees.

SIR JOHN FRANKLIN.—A vessel has arrived at New London, Con., from Davis' Straits, furnishing the intelligence that the Indians had reported Sir John Franklin as being in Prince Regent's Inlet, and that he had been there ice bound for four years, but that all were well.

Another part of the dominions of Austria is now pervaded by a powerful religious excitement. In Bohemia, the cradle of Huss and Tziski, a new reformer has appeared, in the person of the Rev. Pastor Kossuth, the brother of the famous Hungarian, of whose eloquence he possesses a considerable portion.

W. T. HOLLAND offers for sale, his Shop Furniture, and a large and fresh stock of Medicines.

—ALSO—

The Farm on which he now lives, (the Bachelors Retreat place.) I would greatly prefer selling to a good Physician with a large family, it will suit a person of that profession and family better than any other, as the Farm is good, with a comfortable Dwelling House, Kitchen, Barn, Tanyard, and other conveniences common to well improved Farms. There is a good Academy within 1-4 of a mile of the house, and it is decidedly the best stand for a Physician in the up country, and I will do all I can to introduce a man into practice while I remain at this place.

The South Carolinian, and Laurensville Herald, will please give the above four insertions, and forward accounts to this office.

THE OCOONEE STATION FOR SALE.

This place, situated in Pickens District, on the Ocoonee Creek, 12 miles North of Pickens C. H., and immediately on the road leading from the latter place to Clayton, Ga., contains 1000 Acres of fertile Land, which will be disposed of on terms the most advantageous to the purchaser.

As a grain and stock farm, the Ocoonee possesses many peculiar advantages; its fields producing abundant crops of Corn, Wheat, Rye, Oats, and Potatoes, while the hills for miles around are covered during 9 months of the year with coats of the richest grasses.

On the premises there are all the necessary buildings for a well regulated Farm, including a two-story Brick Dwelling.

The narrative of this Station forming as it does, an important chapter in the early history of our State, is well known to every Carolinian, and it is equally celebrated for the purity of its atmosphere, the exuberance of its soil, and for the beauty and romantic wildness of its Scenery.

Persons wishing further particulars will please communicate with
