HOME-COMING AT CLEMSON.

Week of August 27th to 31st to Be a Great Occasion.

Clemson College, July 27—Special: Approximately 1,000 former students and graduates of Clemson College have already replied to their invitations...

President W. M. Riggs is doing everything possible to have invitations reach every one of the six thousand men who have attended Clemson...

The attendance will have to be limited to former students only, because of limited facilities. It will be impossible to take care of even the wives of those who are coming back...

A most enjoyable program is being arranged for the five days of "Home-Coming Week." The details of this will be announced later. Especially attractive features will be prepared for Friday, Saturday and Sunday...

The following list contains the names of all former Clemson men from Oconee county:

- Oconee's Former Students. Ansel, J. E. Knox, Lewis. Ballenger, G. W. Knox, W. B. Backfright, J. E. Lay, J. T. Boggs, W. H. Lewis, D. S. Bowers, G. W. Lowery, R. W. Brennecke, L. A. Lowery, A. J. Rates for "Home Comers."

Not the smallest factor in getting the crowds of old students back to the campus of their alma mater will be the low rates offered by the railroads of the State...

The home coming rates are not based on any rule which could easily be stated. The following examples will, however, enable one to make his calculations...

These rates are from points within South Carolina and from Augusta. Tickets will be on sale August 25 to 30 and will have a final return limit of September 2.

All former Clemson men who have not yet answered the invitations sent to them and who intend coming are requested to notify Dr. Riggs at once if they expect to have accommodations arranged for them...

THE LAW OF THE ROAD.

Sections Bearing on Every-day Points that Should Be Observed.

(Criminal Code, S. C., 1912.)

Section 600. No person shall drive, lead, or, having charge thereof, shall permit any carriage, animal or other thing to travel over any bridge more than ten feet long, now constructed, or hereafter to be constructed by the authority of the Legislature, in a gait faster than a walk, nor shall any person having charge of any carriage, animal or thing cause or permit it to stop on any such bridge, and every person so offending against this provision shall, on conviction thereof before any magistrate of the county, pay a fine not exceeding ten dollars nor less than five dollars.

Section 601. No person shall operate a motor vehicle on a public highway at a rate of speed greater than is reasonable and proper at the time and place, having regard to the traffic and use of the highway, and its condition, or so as to endanger the life, limb or property of any person, or in any event at a greater rate than fifteen miles an hour, subject, however, to the other provisions in Sections 602 to 608, inclusive.

Section 602. Upon approaching a crossing of intersecting public highways, or a bridge, or a sharp curve, or a steep descent, and also in traversing such crossing, bridge, curve or descent, a person operating a motor vehicle shall have it under control, and operate it at a rate of speed no greater than six miles an hour, and in no event greater than is reasonable and proper, having regard to the traffic then on such highway and the safety of the public.

Section 603. Upon approaching a person walking in the roadway of a public highway, or a horse or other draft animal being ridden or driven thereon, a person operating a motor vehicle shall give warning of its approach by signaling with a horn, bell or otherwise not calculated to frighten such animal, and use every reasonable precaution to insure the safety of such person or animal, and, in the case of horses or other draft animals, to prevent frightening the same, and at once reduce the speed at which such vehicle is being operated and hold the same under control, and if such horse or other draft animal appear frightened, to reduce the speed to not more than one-half the speed permitted by Section 602, and bring same to stop if apparently necessary for the safety of such person or animal, having due regard to safety of passengers in such motor vehicle.

Section 604. A person operating a motor vehicle shall, at request or upon signal by putting up the hand, from a person riding or driving a restive horse or horses, or other draft animals, bring such motor vehicle immediately to a stop, if necessary, having due regard for safety of persons, vehicles and animals, and if travelling in opposite direction, remain stationary so long as may be reasonable to allow such horses or animals to pass, and if travelling in the same direction, the person or persons operating the motor vehicle shall not pass any person or persons in charge of an animal or animals, if requested by such person or persons in charge of such animal or animals not to do so, until such person or persons have gotten to a place where they could drive such animal or animals out of the road, or when passage could be safely effected, or when such person or persons without just cause and excuse intentionally obstruct the passage of any motor vehicle: Provided, That in case such horse or animal appear badly frightened, or he is requested to do so, the person operating such motor vehicle shall cause the motor of such vehicle to cease running so long as shall be reasonably necessary to prevent accident and insure the safety of persons, vehicles and animals.

Section 605. Whenever a person operating a motor vehicle shall meet on public highways any other person riding or driving a horse or horses or other draft animal, the person operating such motor vehicle shall reasonably turn the same to the right of the center of such highway, so as to pass without interference. Any person operating a motor vehicle shall, on overtaking and such horse, draft animal or other vehicle, pass on the left side thereof, and the rider or driver of such horse, draft animal or other vehicle shall, as soon as practical, turn to the right, so as to allow free passage on the left. Any person operating a motor

vehicle shall at the intersection of public highways, keep to the right of the intersection on the centers of such highways when turning to the right, and pass to the left of such intersection when turning to the left. Section 606. Every motor vehicle while in use on a public highway shall be provided with good and efficient brakes and also with a suitable bell, horn or other signal, and be so constructed as to exhibit during the period necessary from or after sunset until not necessary before sunrise, a white light visible within a reasonable distance in the direction toward which the vehicle is proceeding, and a red light in reverse direction: Provided, That in case of heavy fog, if necessary, such light shall be displayed in the day time before sunset and after sunrise. (The law makes it a misdemeanor for any person to violate any of Sections 600, 601, 602, 603, 605 and 606.) Section 617. Every person, carriage, animal, or other thing, travelling, or passing on or over any turnpike, road, public highway, causeway or bridge, now constructed, or hereafter to be constructed, laid out or opened according to law, shall keep entirely on the right of the center of the said road, public highway, causeway or bridge, so as not to obstruct the passage of any other person, carriage, animal or thing, on the other side of the center thereof. And every person who shall drive, lead, or, having charge thereof, shall permit any carriage, animal or other thing to travel on such road, public highway, causeway or bridge contrary to this provision, shall, on conviction thereof before any court of competent jurisdiction, pay a fine not exceeding ten dollars nor less than two dollars, or in default of the payment thereof, be imprisoned not more than ten days nor less than one day, and be further liable for all damages occasioned thereby.

Norfolk, Va., July 30.—With impressive ceremony the former battleship Mississippi, of the United States navy, was christened to-day "Kallias" and dedicated by representatives of the Greek government. When the Hellenic colors were raised over the quarter-deck of the Kallias, after the flag had been blessed by Rev. V. Lambriodi, of Washington, the ship's band played the Greek national hymn, which evoked enthusiastic applause. Then the band played the Star Spangled Banner and the applause was equally as enthusiastic. In a patriotic address the Greek minister to the United States, Agamemnon Schliemann, referred to the ship as an agency that has strengthened the royal Greek fleet and "which will help increase the power of our nation and the glory of our flag."

MOUND NOW FOR TREE BORER. Pest Later than Usual, But Action Must Be Taken Now if Effective.

Clemson College, Aug. 3.—Those who have not yet mounded for the peach tree borer should give their immediate attention, provided they intend to mound, according to A. F. Conradi, entomologist of Clemson College. Since this larva kills trees and affects crops of fruit very severely, it is the part of wisdom for every farmer in South Carolina having peach trees to do everything he can to prevent or control the borer. The correct time for mounding in the average season, says Prof. Conradi, is July 1 to July 8, since the worm pupates, beginning July 1, about an inch below the surface, and the moths, or millers, come out in greatest numbers from July 20 to August 22. However, most things are late this season in South Carolina and the general tardiness of the season seems to have affected even the peach tree borer. He has been sluggish in coming out of the tree, but he is hard at it now. Mound all peach trees at once by pulling up the earth around the base to a height of 8 or 10 inches and leave the mound there until October 25. The mound will settle one or two inches, leaving 6 or 7 inches of soil, through which millers cannot burrow when they get ready to come out and lay their eggs. An excellent practice for those who do not mound for the peach tree borer is to paint the trunks of the trees with a tree wash consisting of Quick lime . . . 20 pounds. Whale oil soap . . . 3 pounds. Sulphur . . . 4 pounds. Water . . . 25 gallons. This wash is very inexpensive and can be applied very rapidly. Twenty-five gallons is a sufficient quantity for washing 325 eight-year-old trees. Directions for making the wash will be found in Circular 25 of the South Carolina Experiment Station, which should be in the hands of every farmer. It may be had by applying to Clemson College.

The best plan of all is to paint the tree trunks and then to mound the trees. Constipation Causes Sickness. Don't permit yourself to become constipated, as your system immediately begins to absorb poison from the backed-up waste matter. Use Dr. King's New Life Pills and keep well. There is no better safeguard against illness. Just take one dose to-night. 25c. at your druggist.—Ad.

ANNOUNCEMENT

The Rabun Gap Industrial School will receive applications from bright and ambitious boys and girls, fourteen years of age and upwards, to make up the colony of students for the year beginning on the first Monday in August, 1914.

The Institution is a home, school and farm where country boys and girls work their way by doing such work as a family does at home, with the advantages of trained teachers and improved equipment. Those of limited means and such as want a chance to get an education by their own efforts are the kind the Institution is for. Candidates for admission must be apt to learn, willing to work, and must be of good character and good health.

Application should be made now. The printed form will be furnished on request. For further information address, ANDREW J. RITCHIE, President, RABUN GAP, GA. June 3, 1914. 22-30

NOTICE TO DEBTORS AND CREDITORS.

All persons indebted to the Estate of Henry A. Wilson, deceased, are hereby notified to make payment to the undersigned, and all persons having claims against said Estate will present the same, duly attested, within the time prescribed by law or be barred.
