WHAT WALHALLA WANTS TO KNOW.

The Answer Is Found in the Statement of a Walhalla Resident.

From week to week, from year to year, there have been appearing in these columns statements made by neighbors, which we have all read with great interest, and many of us with great profit. But what we want to know is do they stand the greatest test of all—the test of time? Here is conclusive evidence on this point from a Walhalla man:

R. D. Oelkers, butcher, W. Main St., says: "I had suffered from rheumatic pains ever since I was a boy. My kidneys had always been irregular in action and I had backache. Doan's Kidney Pills, procured from Bell's Drug Store, gave me complete relief."

OVER THREE YEARS AGO Mr. Oelkers said: "I haven't had the slightest sign of kidney trouble since Doan's Kidney Pills cured me. I am now in the best of health."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Oelkers had. Foster-Milburn Co., Mfgs. Buffalo, N. Y.

ONE SECTOR AMERICANIZED.

French General Not Fearful As to Results of Change.

With the American Army in France, Feb. 10.—An American general now commands the sector of the front recently taken over by our troops. When the Americans first entered the sector it was under the command of a French general commanding a certain large unit of the French army. Now we have control.

In turning the sector over to the American general on February 5 the French commander issued a general order in which he expressed complete satisfaction with our troops. The order turning the sector over to the Americans, a copy of which was communicated to our forces, reads:

"On February 5 the commanding general of — American unit takes command of — sector. The commanding general of — French unit takes occasion to express to the American general, the colonels of artillery and all of the American units which have been under his orders, complete satisfaction with the way in which the American troops have acquitted themselves of the mission entrusted to them. Their good will and their ardent desire to excel and the rapidly with which they have adapted themselves to life of the sector have brought them the admiration of all. Gen. — hands over the sector with confidence that it is in good hands, and that the American troops will organize it with method and the tenacity characterizing American genius, and in case of attack will defend it with great valor."

Feeding Cotton Seed Unlawful.

Wm. Elliott, food administrator, has issued the following statement:

"Reports have reached this office that farmers in sections of the State are feeding seed to cattle, and in some instances using seed for fertilizers. Such a policy on the part of any producer is short-sighted when the prevailing price for cotton seed is obtainable and results in an economic loss as well as destroying valuable food for man and beast.

"The food administration would like to see this wasteful practice eliminated. Rule 4 of the special rules of the United States food administration prohibits the use of cotton seed for feed or fertilizers without the written consent of the State food administrator. It is probable that few farmers who are thus practicing this wasteful method realize the loss both to themselves and to their fellow man resulting in the utilization of cotton seed in this manner.

"America is the greatest food storehouse of the world to-day, and we must all practice the strictest kind of economy. There must be no waste of the essential food products. The oil which is extracted from the cotton seed is a food product."

No Idleness for Edison.

New York, Feb. 10.—Thos. A. Edison will be 71 years old to-morrow. There will be no celebration of the event at Menlo Park, N. J., the Edison home, it was said, because the great inventor was too busy on his work for the United States government to spend the day in idleness.
