Death of Capt. T. D. Gerald. The record of death comes upon us thick and fast, and our good citizens are rapidly passing forever away from our midst. On Monday last intelligence reached us of the death of Capt. THOS. D. GERALD, whose residence was near Providence. We make the announcement with regret. Capt. GERALD had been in feeble health for some time.

Sudden Death.

Mr. ROBERT DRAYTON COOPER, Sr., & worthy and valuable citizen, recently of Sumter County, died suddenly, in Darlington, on the 23rd ult. We have learned that so sudden and unexpected was his death, that he literally fell dead, as though a bullet had pierced his heart. He leaves a large number of highly esteemed and respectable relatives, besides his own devoted family circle, and many friends, to mourn his loss.

Death of Mrs. J. T. Cummings. We were much pained, on Monday last, by intelligence of the death of the estimable wife o Mr. JOSEPH T. CUMMINGS, which occurred on Friday last, after a brief but painful illness. Mrs. CUMMINGS, we learn, was the mother of thirteen living children, most of whom are in the tender years of childhood; and, never, probably, was the endearing and devoted relationship of mother more tenderly felt and sacredly lived. The funerel scene is said to have been one deeply touching in character. Our warmest sympathies are extended to the severly afflicted fam'.

Death of Dr. Wm. Post.

We have been greatly pained to learn of the sudden death of Dr. WM. Post, at the residence of his brother in-law, Mn. HERRY L. PINCKNEY, near Statesburg, on Saturday last. But two or three days previous, it was our privilege to receive a friendly call from Dr. Post, and to greet him, in good spirits, at our editorial desk. His manly face, however, bore the traces of disease, and during the brief but pleasant conversation that ensued, he remarked that he suffered from dyspepsia or disease of the heart. He had located, some time after the war, at Baltimore, and was fast building up there a lucrative and influential practice. Ho was the son of DR. Capt. BARDWELL is a gentleman of liberal heart and of intelligence and vigorous enterprise, and, we were pleased to learn, is progressing favorably with the important work before him.

We were pleased also to see, in company with Capt. BARDWELL, Mr. JOSEPH H. DINKINS, who, after several years of arduous and responsible rail road life in Texas, returns to his native home to engage in the same pursuit, being also emto engage in the same pursuit, being also em

A Body and Mind Disease Such a dyspepsia. The stomach and the brain re too intimately allied for the one to suffer are too inimately allied for the one to suffer without the other, so that dyspepsia and despond-ency are inseparable. It may be added, too, the

ency are inseparable. It may be added, too, that irritation of the stomach is almost invariably accompanied by irratition of the temper.

The invigorating and tranquillising operation or Hostetter's Bitters is most powerfully developed in cases of indigestion. The first affect of this agreeable tonic is comforting and encouraging. A mild glow pervades the system, the chronic uncasiness in the region of the stomach is lessened, and the zervous reatlessness which characterizes the disease is abated. This improvement is not transient. It is not exceeded by the return of the old symptoms with superad. the return of the old symptons with superad force, as is always the case when unmedica ded force, as is always the case when unmedicated stimulants are given for the complaint. Each dose seems to impart a permanent accession of healthful invigoration. But this is not all. The aperient and antibilious properties of the preparation are scarcely secondary in importance to its tonic virtues. If there is an overflow of bile the secretion is soon brought within proper limits, and if the bileary organ is inert and torpid it is toned and regulated. The effect upon he discharging organs is equally salutary, and in cases of constipation the cathartic action is just sufficient to produce the desired result gradually and without pain. The Bitters also projust sufficient to produce the desired result grad-ually and without psin. The Bitters also pro-mote healthy evaporation from the surface which is particularly desirable at this season when sud-den spells of raw, unpleasant weather are apt to check the natural perspiration and produce conjection of the liver, coughs, and colde.
