

General Lee's career was just one of those, occurring only once in history, over which, as one reads in studious contemplation, some of the most perplexing questions present themselves unbidden, and cry in vain for a really sufficient answer.

General Lee's career was just one of those, occurring only once in history, over which, as one reads in studious contemplation, some of the most perplexing questions present themselves unbidden, and cry in vain for a really sufficient answer.

There was magnanimity even in the choice which constituted him a rebel. His political judgment, formed in early days, pronounced loyalty to be due to the State before it was due to the Union.

He had not to complain of neglect or of mistrust. His worth had been recognized as well as sure. But, when the position of Virginia had been affected, and war was hovering along the border of the State, in his anxious effort to discover his own path of duty, he sternly suppressed every personal inclination, and calmly surrendered his individual views and feelings at the demand of public duty.

He had not to complain of neglect or of mistrust. His worth had been recognized as well as sure. But, when the position of Virginia had been affected, and war was hovering along the border of the State, in his anxious effort to discover his own path of duty, he sternly suppressed every personal inclination, and calmly surrendered his individual views and feelings at the demand of public duty.
