IT IS ALL VOID .- So far at the Electoral Commission has any power the case is now decided by it in favor of fraud and in favor of Hayes. The Democratic party in Congress has yielded its majesty and honor to the subtle and cunning tactics of the Republican leaders. It is outwitted, but not outnumbered; defeated, but not

The people never delegated to Congress any right frame such a bill and act under it for them.— The gentlemen were not sent to Congress for any

Their action is void. No one is bound by it. It is the duty even of Congressmen to disregard it. The people do not and will not assent to be governed by a President whose only title is fraud.—Democrat, in N. Y. Sun.

DASTARDLY MURDER.—Timmonsville, S. C., Feb. 9.—This morning, about daybreak, Mr. Wm. T. Hill was aroused from his sleep by the barking of his dog. HARD TIMES FOR THE PRINTERS .- NEW YORK, February 5 .- Rowell's newspaper reporter says newspaper advertisements are a good indication of the state of business. The advertising of the New York Herald has fallen off two thirds, and that of the Times. Tribune, Sun, World and that of the Times, Iribune, Sun, World and evening papers have much less than formerly, or than heir position and circulation appear to entitle them to. The papers of Chicago, St. Louis, Cincinnati and other large Western cer tres are in a worse condition, for many of them, which from five to ten years ago averaged from fifteen to forty columns of adver-tisements a day, have now only from four to

A LIBERAL OFFER.—The celebrated fertilizer, Wilcox, Gibbs & Co.'s Manipulated Guano, is offered on liberal terms, delivered at depots in the interior, with option of paying in cotton on the basis of 15 cents for middling, delivered at planters' nearest depot by the 1st November next. This is a very favorable offer to farmers, as they will know when they buy the guano exactly the number of pounds of cotton required to pay for it, and can make their calculations accordingly. Call on the local agent and forward your orders at once.

A young lady bet a young man a kiss that Tilden would be elected—he to pay if Tilden won, and she to pay if Hayes was elected. On the morning of the 8th of November he called and paid the debt; on the 9th he called and took it back. That evening she paid the debt. Next morning she took it back and he paid; then she paid and he paid, and so they have been kept busy by the contradictory dispatches ever since, and both declare their willingness and ability to hold out until Congress decides the question.-They don't like the new Compremise bill.

BRIGHT PROSPECTS IS TEXAS.—Railroad construction is very active in Texas. Out of twelve roads within the State limits nine are pushing extensions and additions to a rapid completion. Immigration to the State is unparalleled. Not less than 100,000 incomers have crossed the Red River sine last September, and still the tide pours on. In general there is less depression in business in Texas than in any of the Western or Northwestern States, and the crop prospects for next year are excellent.

highway to prosperity.

The condition of the Insane Asylum at Jackson, Louisiana, is appalling. The scanty supply of food is fast diminishing, while one hundred and eighty-one patients are destitute of the most necessary articles of clothing. The New Or-leans papers are calling for public contributions.

## Marshal's Portrait of Hampton.

There are two distinct portraits of Gov. HAMPTON. The one issued by the "Hampton Portrait Company," of Charleston, S. C., is engraved in line by MARSHALL, and will be of imposing appearance, and life-size. There is also a print out representing the Governor. We suggest that our people wait and see both pictures, before choosing which they will have.

Marshall's famous engravings are attracting nusual attention. The superb large line engraving of Washington, from Suart's celebrated oil portrait in the Boston Athenaum-a plate valued at ten thousand dollars-when originally brought out about ten years ago, at once placed Mr. Marshall in the very front rank of engravers, ancient or modern, meeting, both in Europe and Aprerica, the most extravagant encomiums of artists, critics, and men of judgment. It was even selected for exhibition at the French Academy of Design, an honor accorded to none but the very highest works of art. It is, moreoverthe best, indeed the only satisfactory, portrait of Washington that exists, and is the acknowledged standard "household engraving" of him. The late Edward Everett said of it: "The magnificant angraving of Streat's head of Washington and America, the most extravagant encomiums nificent engraving of Stuart's head of Washington. It is truly a superb work." Bancroft, the historian, writes: "I have been for some years a collector of the many different engra-vings of the portraits of Washington. This is beyond comparison the best of them all—the only one that is perfectly satisfactory." Mr. George S. Hillard, the well known art critic, says: "Were it the head of some unknown person, a lover of art would be glad to have a copy of the engraving for its rare intrinsic merits, SETTLERS.—There is said to be more settlers securing horses in Florida this winter than at any period for several years. The installation of State officials chosen by the people, pledged to an honest and economical administration, seems already to have placed. Florida on the securing for its rare intrinsic merits, and every American should be ready to make some sacrifice in other ways in order to possess so satisfactory a representation of Washington, "Marshall's R. E. Lee, just out, is a wonderful work, and in a few days his "Gov. Hampton" will go to the people of South Carolina and the before the time above specified, or they will be work, and in a few days his "Gov. leston, addressed to Mr. C. P. Pelham:
"Some misapprehension exists as to the proprictorship in the Hampton Portrait Company. Permit me to say that a majority of the invest-ment is held here. As one of the proprietors, I am attending to its affairs until other and pernament arrangements are concluded. I originated the project of a portrait of Governor Hampton in a high style of art, thinking it a worthy manner in which to recognize his Excellency's public services to the people of this Excellency's public services to the people of this State during the past six months. Those servi-ces entitle him to be presented to his countrymen everywhere in a style equal to that in which Washington and Lee and other reresentative gentlemen of the country are shown.— Time was required for this great work, that care and skill should make it perfect. Its publica-tion has been anticipated by another issue, of the merits of which the public can judge. In selecting an artist the gentlemen associated with selecting an artist the gentlemen associated with me have given preference to Mr. Marshall.—Gustave Dore, the great artist of France declares him to be 'the veritable master of art in America.' If we do not realize all our expectations in a pecuniary point of view by reason of a different publication, we must accept that fortune—the penalty of attempting to do the best possible in art for our best man, we shall hope, nevertheless, to possess an ample reward in the PRODUCTION of a GRAND AND IMPOSING PORTAIT. PRODUCTION Of & GRAND AND IMPOSING PORTBAIT, which will command an appreciative circulation if not so large as might have been under more propitious circumstances. #### Gen. Hampton's Portrait

"WADE HAMPTON, GOVERNOR OF SOUTH CAR OLINA," is the subject of an exquisite nearly life-size engraving, just published (and now ready) by our enterprising friends, Walker, Evans & Cogswell, Charleston. S. C. We con-gratulate these gentlemen on the grand success they have made of so noble a subject. As a work of art it stands unrivalled, but still its chief merit lays in its being a life-like portrait It is the first product, on so large a scale, of new and secret process based on photography, having the advantage of great truthfulness. As the photograph has superseded the oil-painting, because of its exact reproduction of the subject, so this process is bound to take the place of steel engraving, or any method which depends upon artistic conception and execution for result—we mean for the production of portraits. What the people want in a portrait is truth—they do not wish the artist's conception of a man, but the face and features of the man as he is—and Ex-Gov. Brown, of Ga, says:—"He finds the dip of the flower Cough Syrup a most excellent this new process based thereon. But while these great advantages are secured, it admits of the embellishments of art, and a portrait is produced possessing all the truthfulness of a photograph, with the artistic effect of the steel engraving. The publishers have been ex-tremely fortunate in their selection of the mode by which they give to all admirers of the mode statesman the moble, generous, manly features, which speak so plainly the great mind, elevated feeling, and generous heart of Wade Hampton.
Those who worked for the grand cause,
"Hampton and Home Rule," who have paid tax-

es to the government of their choice, can now place this picture at their firesides, as they have placed its subject in their hearts. It must become one of the "l'enates" of South Carolina. Those who sympathized with the gallant little State in the struggle against such tremendous odds, will be pleased to have this portrait in their homes-a glorious memento of a peaceful, noble effort of a liberty-loving people to redeem themselves from oppression and misrule. It will be sold by subscription only, at \$2 per
