The Acting Governor.

In consequence of the sad accident to Gov. Hampton, physically disabling him from discharging the duties of the office of Governor Lieut. Governor Simpson is now the acting governor of this State. It is fortunate for the people that the mantle of authority has fallen upon the shoulders of so good and sagacious a man as W. D. Simpson.

The Finest of the Season.

Our friend, R. G. H. Jeter, of Santuc, has sent us the finest Yam Potatoes we have seen for years. It was not one or two fine ones but a large basker fall, and every one was much larger than is generally seen in a patch. We have had them for a week, fried, baked, boiled and in custards, and we know of what we speak. May all his crops be as fine as his potatoes.

A letter from our old friend Dr. A. W. Rhes, informs us that he is on his way to this market with as fine a drove of hope as was orner and the this or any other State; and if you don't want hogs, he will provide you with as fine a horse as you may wish. He will have only a small lot of horses, but he says they are a choice selection from stocks of three or four Counties in Tennessee. Our mouth begins to water for sausage and Spareribs.

Union Horses on the Washington Course.

The following horses owned in this County, have been entered for the races to be run over the Washington Course, Charleston, February, 1879, at the Spring meeting of the South Caroline Jockey Club.

For the two-year old stakes, one mile dash, J. C. Hunter enters br. f. Lula Star, by imp. Glen Athol, dam Palmetto, by Dick Cheatham, out of Emily, by imp. Glencoe.

For the Hampton stakes, for four year olds, two mile heats, W. P. Burch enters ch. h. Governor Hampton, by Planet, dam Merry Wave.

The Union Hotel.

Our friend Thompson has been so crowded the past week that he has not had time to write out an advertisement for the paper. That's good news, and we hope it will continue.

we heard the following strange complaint made against the Union Hotel, by a gentleman who had traveled through the upper counties of the State : He said, "I've one complaint to make of your Hotel, and I've never had occas sion to make the same complaint of any Hotel in this or any other State, and that is, the Landlord feeds to much, I can't cat all they vive me although it is well cooked and first fute in every

Household. C E. Sima, on the committee on Manufacture

And, in order to keep all things and parties in legal trim, a Trial Justice has been sent down to keep watch over all.

Our Noble Fire Company.

We cannot give too much praise to our efficient little Fire Engine, Capt. Alf. Keenan and the rest of the Fire company, for the good work they did last Saturday. As an old fireman we say we never saw men work steadier or with more zeal and effect in all our life. That they prevented the destruction of a vast amount of valuable property no one who was at the fire can dispute, and they certainly deserve the praise and encouragement of our citizens. It was the first time an opportunity had occurred to show what their little engine and the company could do in case of a fire, and they proved themselves to be invaluable.

Many who doubted the policy of purchasing the engine and organizing the fire company, were that night convinced that it was the best expenditure of money ever made in this town. A lew more lengths of hose and a few more eister ... will make us comparatively safe from fires hereafter.

Another Fize.

On Saturday night last, between 11 and 12 e'clock, fire was discovered issuing from the loft of Mr. Schoppaul's stable, in rear of his store and dwelling. Fortunately the night was calm and the prompt appearance and faithful work of the Fire Company, saved the front store and the row of wooden buildings to the west of have two years of work before us to accomplish it. As it was, the less was very severe upon M18, that end and every good democrat will, we hope, Schoppaul, who was just beginning to recover from severe reverses of fortune which she encountered last year, and is certainly entitled to the sympathy of the people. Her loss cannot be much less than \$150, as all the winter's total loss is estimated at \$400,000. More than the sympathy of the people. Her loss cannot rough food for two horses, three sets of harness, all the tools of the bakery, flour, lard, butter, &c., were burned, while a large quantity of goods were stolen when they were taken from the store, and much of the furniture broken

and destroyed. We are sorry \$1 ; reader, how much are you

sorry for Mrs. Schoppaul?

The Governor was on a deer hunt, riding a half breken mule, and got into some thick undergrowth of a swamp, when, in leaning forward to throw the rein over a small limb, in order to dismount, the beast dragged the rein from the limb and dashed off through the woods. The Governor, to escape being struck by the overhanging limbs, sprang from the saddle, his weight falling mainly upon his right foot, which caused the breaking of the bones as described above. He was found in the swamp, lying on the ground, compietely disabled, about two hours after the accident, suffering great pain. He was placed upon a matress in a spring wagon and taken to Columbia, sixteen miles, arriving there a little, before midnight. At an entry hour menext of the ankle. A great deal of force was requisite, the operation being complicated by the attendant fracture. The Governor was kept for o: e time under the influence of chloroform,

In our cornion, is we are freed thereby from any obligation to be so unnecessarily generous again. Straight-at Democracy is the right kind of conservatism n this State any way .- Spartan.

In this County the cry of those who professed lear the colored people was, "you would not g ve them an equal chance in the selection of delegates to the democratic convention, therefore they are under no obligation to vote for the candidates nominated by that convention."-This was one of the excuses given, by both negroes and disgruntled democrats, for nominating and running on a Radical ticket. And knowing low slight a hold any political pledge had upon the conscience of a negro, we opposed the primary election system when we found so many a tvocating the policy of letting them vote upon

If we expect to permanently establish a demoeratic government in this State, the democrats alone must make their own nominations, establish themselves distinct and separate from any other party, an I fight solidly and perpetually for the principles upon which that party is founded, We are opposed to any fusion with the Radicals-either before or at an election .-The Radical party in this State is controlled altogether by the leading Radicals of the North, and we care not what pledges the colored people may make to us before an election, they vote just as their Northern leaders instruct them, on the day of election. They are like the Irishman's flea, "you put your finger on him and be dad he's not there."

The democratic party in this State must stand solid, allowing no dissentions in its ranks which will jeopardize its unity and efficiency, and must make a constant and an aggressive warfare against the deluded tools of those Northern Radicals who delight in keeping up a bitter strife between the two races at the South and destroying its peace and prosperity. There's leaders that we are determined never again to allow ignorance, corruption and oppression to get possession of our State government. We willingly do his share of it.

THE FIRE FIEND.—A disastrous fire occurred at Cape May on the 9th instant. The burnt dishalf covered by insurance. The file is supposed to be the work of an incendiary. Hotels, cottages, and bath houses, numbering over one thousand were destroyedd.

LAWLESSNESS IN OHIO.—Cincinnati, November 8 .- There is great excitement throughout Darke County, Ohio, over the acts of violence recently committed upon a number of residents of that county. Some months since a man named Grier was murdered beside his wife nall'alestine, by a band of "Regulators." Afterwards a man named Quackenbush was ordered to leave, and did so. On the 8th of Junes at thirty men went to the house of Steve White, colored, and kidnapped his son, William, whom they took to Winchester, where he was convicted of grand larceny and sentenced to one year in the penitentiary. He afterwards secured a new trial .-At the same time the elder White received noice from the Regulators to leave the country .-Not heeding the notice, he was shot dead in his house by a large body of mounted men. The grand jury found true bills against John Archie, Jacob Burdie, Wm. Shumate. Albert Drekey, Solomon Ferguson, Oliver Morgan, and Robert Hart for kidnapping White. Sterday Mar-shal Shoffer procured assistance and arrested the entire party. Wm. Shumate is worth \$50,000. Since the killing of White, ten prominent citizens have received orders from the Regulators to leave the country, under penalty of death.— Mr. Putnam, a colored lawyer of Palestine, re ceived such a notice, and fearing that his life was in danger, he immediately left.

A TRIBUTE TO MRS. GOVERNOR VANCE.-This is the just and intelligent tribute paid by the Wilmington Sun to the memory of the late wife

of Governor Vance: "Mrs. Vance was a lady of decidedly strong character. Piety of the highest, most robust type, dominated her nature, and she ever a leader in good works. It must not be inferred from these words that Mrs. Vance was lacking in the softer feminine gifts and graces which light up home and society with serene and steady splendor, and make our present earth a second Eden. She had much social power, and graced the hearth and board of her illustrious husband destroying its peace and prosperity. There's as few women could have done. She exerted no dependence upon the negro, as a democratic over his life and aims a powerful influence in voter, until we have convinced their Northern | lifting him higher to his spiritual range of study and contemplation. The turn for illustrations drawn from the Bible, which Gov. Vance exhitits in his speeches and writings, his high admiration for the Jewish race, his veneration for the stern character of the Scottish covernanters. together with his general fondness for ethical studies, may, perhaps, without derogation, all be justly ascribed to Mrs. Vance and her wonderful influence over his life and character.

> THEY'LL ALL GO TO MASSACUSETTS.—The Grand Jury of-Hichland county returned a true bill on the 7th. inst., against D. H. Chamber-lain, H. H. Kimpton, C. D. Leslie, Niles G. Par-ker and J. P.
