How to Cube A Cold.—Alm st everybody has a remedy for a cold, which he is ever ready to recommend to others after detailing his own experience.

The Boston Journal of Commerce quotes from a medical writer some advice on this subject which seems to be more than ordina-

subject which seems to be more than ordinarily useful.

When one becomes chilled or takes cold, the mouths of inyriads of little sweat glands are suddealy closed, and the impurities which should pass off through the skin are forced back at the interior of the body, vitalizing the blood and putting extra work on the lungs and other internal organs. Just beneath the surface of the skin, all over the body, there is a network of minute blood vessels, finer than the finest lace. When one is chilled, the blood is forced from these capillary vessels into one or more When one is chilled, the blood is forced from these capillary ressels into one or more of these internal organs, producing inflammation or congestion, and thus often causing diseases dangerous to life. The time to treet a cold is at the earliest possible moment after you have taken it. And your prime object should be to restore the perspiration and the capillary circulation. As soon then, as you feel that you have taken cold have a good fire in your bed-room. Put your feet into hot water, as hot as can be borne, and conta ning a table tablespoonfal of mustard. Have it in a vessel so deep that the water will come up well toward that the water will come up well toward the knees. Throw a blanket over the whole o prevent rapid evaporation and cooling. In from five to ten minutes take the feet out, wipe them dry, and get into bed on which there are two extra blankets. Just before or after getting into bed drink a large glass of lemonade as hot as possible, or a glass of hot water containing a teaspoonful of cream of tarter with a little sugar if desired. Should there be a pain in the chest, side or back, indicating pleurisy or pneumonia, dip a small towel in cold water and wring it as dry as possible. Fold the towel so that it will cover a little more sur-face than is affected by the pain. Cover this with a piece of flannel, and both with oiled silk, or better, with oiled linen; now wind a strip of finance a foot wide several times around the cheet. The heat of the body will warm the towel almost immediately, the oiled linen and finance will retain the heat oiled linen and fiannel will retain the heat and moisture, and, steaming the part, will generally cause the pain to disappear. Should these be prin or soreness in the threat, you should treat in a similar manner with wet compress and fiannel bandage. Eat sparingly of plain simple food. Baked apples and either fruit, bread and butter, bread and milk, milk toast, baked potatoes, or raw oysters may to eaten. By following the above directions intelligently and faithfully you will erdinarily check the progress. fully you will erdinarily check the progress of the cold, and prevent serious, possibly

Lapon Unions Enjoinen.—New Orleans, March 25.—Judge Billings in the United mustes court, today rendered an opinion in the suit of the government against the Amalgamated council and the officers of the various labor organizations which ordered the general strike in November last. Public opinion is very much divided as to Haine's guilt, and the governor has given the case unusual attention. Miss Hornesby was murdered with a knife near her home in the outskirts of the city, and Haines re-ported finding the body and went back with those he infermed of the deed. He has continuously asserted his innocence although people of the neight/whood where the crime was committed are fully persuaded of his guilt. The reprieve is for a month.

THE GOVERNOR'S LATE-T. - Judge Simonton could not please Gov. Tilman if he were to try. And he is not trying. The only explanation we can conceive fo the Governor's latest assault on Judge Simon-to, beyond his dispession to thiry every to beyond his disposition to viting every body he can't control, is to try to say some thing so outrageous about the Judge as to have himself arrested for contempt and then play the martyr act, which would be a tromp card just now.
