GOV. TILLMAN'S MESSAGE.

SOUTH CAROLINA'S LEGISLATURE MEETS AT COLUMBIA.

The Message of the Governor & Vigorous Document, Which Accuses the Federal Courts of Encroachments Upon State's Rights. He Does Not Favor Government Ownership.

COLUMBIA, S. C.—The General Assembly of South Carolina met Tuesday at noon. Indications are that the session will be of unusual importance. Hitherto the custom of that body has been to adjourn early on the morning of Christmas, but so many important matters claim attention that the adjournment will be postponed until after the first of January.

The Governor discussed in vigorous language the length the decisions of the United States Supreme Court and the Circuit Court on the conflict of jurisdiction in regard to the right of a state constable upon a railroad which was in the hands of a United States receiver, appointed by the court. In the course of his remarks he said: "There is no law for this unwarranted interference on the part of the United States Court; there is nothing in the United States constitution to warrant it. The authors of that instrument never intended to set up any such claim, and the court only obtains it by a violent assumption of power, which is the essence of tyranny. That it required a century for judicial insolence to go so far is sufficient proof that it has no basis in law or justice, and could only spring from that perpetual grasping after more power which is characteristic of the judges of the United States Circuit and District Courts."

One of the reserved rights of the States are being absorbed by the Federal judiciary and it is high time for Congress to take the matter in hand, and by express limitations restrain the unlicensed and iniquitous powers exercised by the courts in this matter of receiverships. "There is talk in some quarters, and a growing demand for government ownership of railroads, for these corporations, whether in the hands of receivers or of owners themselves, have found such resources as they are ever ready to stand between them and the people in their efforts to restrain them within reasonable bounds, that no other mode of relief appears possible. This is not a desirable solution of the problem, and I do not advocate it, because such control would almost inevitably be used as an engine in elections by the use of employes at the polls. The real benefit of the party in power. The use of employes at the polls is a republican form of government. But those who manipulate and control these corporations, and who grow rich in robbing the people through them, hold up their hands in horror at the mere idea of government ownership of railroads. But what have we in the United States at this time? What is the condition of a large number of these corporations? Upwards of thirty-three thousand miles of railroads, one-fifth of the total mileage in the United States, and representing a capital of more than \$1,400,000,000, are today in the hands of receivers, who are but their servants or partners of the judges."

"We have here government ownership or control (at least in effect) the most absolute that is possible to exist. The Federal judiciary, without any statutes on the subject, or comparatively few, limiting or defining their powers, control one-fifth of the railroads in the United States without responsibility to anybody; without anyone to overlook them or their agents, the receivers; without any accounting to be had for the millions and hundreds of millions of dollars of the State's in chancery; without receivers' certificates which are preferred liens on the properties; resisting the State's officers when they attempt to collect taxes; arresting our constables for the slightest interference, even, with freight they haul; bargaining with the receivers for the employment of kinspeople or favorites—and Congress sits idly by watching this more than Russian absolutism with utter indifference. The unholy marriage between the dignity of the Federal Court and these lawless corporations must be annulled and the owners of the bonds made to understand that there is a pit beyond which the patience of the State will not permit them to go."

Concerning the Sea Island sufferers, Gov. Tillman says: "The 27th of August last witnessed the most disastrous storm and tidal wave on the coast from Beaufort to Charleston of which our annals have any record. The exact number of lives lost is unknown, but it was considerably over a thousand, and there was a total loss of crops on the more exposed islands all the way from John's Island to Hilton Head. Over one-half of the houses were also blown down or washed away, and the unfortunate people would have long since succumbed to starvation but for the timely assistance and charity rendered by our own people and the neighboring abroad. The management of the work of relief was taken in hand by local committees, but believing that methodical business arrangement and experience were better, Miss Clara Burton, of the Red Cross Association, with her lieutenants, was asked to take charge of it, and this noble lady with her corps of assistants has been on the ground since the 20th of September, laboring in the cause of humanity. The extent of the disaster cannot be understood except by personal inspection. The question of relief and how best to administer it is a difficult one; even the amount absolutely necessary to prevent starvation is unknown. Although the State is poor and the crops everywhere a failure, it is not the will of South Carolina that any of her citizens, no matter how humble they may be—even the poorest negro—should starve, and when you send your committee to investigate the phosphate industry at Beaufort as recommended by the phosphate commission, it would be well I think, to instruct it to report fully also on the condition of these islands, and as to the advisability of an appointment to aid Miss Barton in relieving the suffering which is inevitable."

The Governor says a great many sufferers have appealed to him for relief in the matter of taxes and he recommends that the Comptroller General be allowed to suspend the collection on all property within the devastated regions in Beaufort, Colleton, Berkeley and Georgetown, and to remit the taxes of all kinds where in his judgment it is proper to do so. No other course is practicable or feasible, because the territorial limits cannot be described, except on general terms, and even within these limits are many who cannot pay without serious injury to themselves, and the matter may be safely left to the discretion of the Comptroller General to whom the power has been given to him."
