SATURDAY, JUNE 8, 1867.

While we reserve to ourselves the right of defining our own political position by means of our editorial columns, we will be pleased to publish contributions from our fellow-citizens upon the grave questions which now agitate the public mind, whether their opinions coincide with ours or not. A district newspaper, we consider, should be an index of the various shades of pop-ular sentiment in the section of country in which it circulates. Our columns are open, therefore, for any communications properly written, accom panied by a responsible name, not personal in their character, nor absolutely injurious in their lendency.

Caution.

Reader, be prepared for a shock ; be prepared for anything: This is hot weather, and the fever season is approaching; so keep 'cool. preserve your equilibrium, don't get excited. If you are of a bilious temperament, prepare scribed over \$9,000 to the fund for sending your system by a judicious course of sedative medicaments ; if you are a fighting man, come down from that, it won't do for these days ; if. you are high-spirited, go to your meanest onemy, present hinr your left check and then your

Judge Bryan, after hearing the bill read by the District Attorney, granted the application. Ex-Gov. Ma. grath and Senator Campbell have been retained by Messrs. Fraser & Co., for the defence. The case will involve protracted litigation, and will. probably, not be decided this side of the Supreme Court.

The business stagnation here is almost nu paralleled in the history of our sity. Con paratively few of our business houses, excepting those dealing in provisions, are paying expenses, and 'many will find it difficult to sustain themselves until fall. Rumors of failures or suspension are frequently circulatedsome maliciously. For instance, it was currently reported last week, and by many believed, that the old, substantial and wealthy firm of Geo. W. Williams & Co., had failed. Mr. Williams, yesterday, published a card

denying the report, and stating that the condition of his house was, secure beyond any possible contingency. Reports have also been in circulation that Messrs. Willis & Chisolm. cofton factors, had suspended. These also, are entirely groundless, and the gentlemen of the firm are, I understand, laboring energetically to ferret out their traducers. The Board of Trade, after discussing this matter last' night. adopted unanimously the following resolution

"That the Board of Trade of Charleston deprecates the tendency to circulate reports of suspension or failures of commercial houses based on rumors, and earnestly recommends to the community at large great caution in circulating or crediting reports affecting the wellbeing of commercial houses."

Another cargo of corn for distribution among the indigent and suffering of the South is expected, in a few days, from the North, The Government steamship "Purveyor," sailed from New York yesterday with 29,000 bushels. About 10,000 bushels will be landed here ; the balance is to be dispensed with in Georgia and Alabama. The distress among our people is still fearful, and Gen. Scott, of the Freedmen's Bureau, in his last report, stated that large

nut bers of the citizens of South Carolina are entirely dependent upon the Government rations for the sustenance of life.

The body of a negro infant was found by some fishermen floating in the harbor near o of our wharves on Friday morning. CHARLESTON, June 5, 1867: General Sickles' new order, No. 32, which was promulgated on Tuesday, has not, of course, been-received very favorably by those who are so unfortunate as to be of Anglo Saxon descent. No very great excitement has been, however, generated by it. . Our people have learned to bear with a wonderful equanimity, the humiliations which are heaped upon them; mid having buried their hopes of any generous policy being adopted by the powers that be, Congressional or military .- they evince little surprise, as the radical programme is being
