A SMALL FIRE.

The lot buildings owned by Judge John K. Snelling, consisting of a large barn and three stables, were discovered to be on fire Tuesday morning between eleven and twelve o'clock.

The fire department quickly responded to the given alarm but was too late to save the burning buildings. However, their heroic work saved the dwelling and some outbuildings from catching.

The loss of the fire is estimated at about \$800, while the insurance only covers about \$150 of this amount. The origin of the fire is not known.

CONVINCED OF TANLAC BY AID GIVEN WIFE.

HUSBAND SAYS SHE ADDED FIFTEEN POUNDS ON FOUR BOTTLES.

DOUBLE ENDORSEMENT.

Know Tanlac Would Help Him When He Became Sick, and He Tells Details.

Cases in which two or more people in the same family have been so greatly benefited by Tanlac that they have offered a double endorsement of this famous Master Medicine are common. When a case is reported of suffering and made strong again it is the most natural thing in the world for you to want the same benefit. This is how Charles F. Whitmore of 103 Bradford St., Albany, N. Y., happened to take Tanlac.

"My wife, who had been all run down and nervous and getting weaker - right along began to take Tanlac," Mr. Whitmore explained. "Well, of course I watched the results and it was wonderful to see the way it built her up. On four bottles she gained fifteen pounds. I had been doubtful about Tanlac, but that settled me. When I started Tanlac I could hardly eat one food meal in a whole week. From suffering with a bad stomach I had become nervous and restless at night and all run down. Instead of digesting my food would just lie like lead on my stomach and sour and ferment and burn gas. Because I had sour stomach - acid stomach - so long, my mouth had gotten sore. I could not sleep restfully, but would wake up every morning or two and would roll and toss. I was tired in the morning, and by mid afternoon I was so tired out it seemed I couldn't get through the day. I had lost all ambition and I did not care. Seeing what Tanlac had done for my wife encouraged me to take it, and I was not surprised when it began to brace me up right away. It did as much for me as it did for her. I slept right through the night, woke up rested, with a good appetite, and was able to enjoy my meals. My food digested and the gas, bloating and sour stomach disappeared. I felt like a new man, and the old tired, worn out feeling went with the rest of my troubles."

When Mr. Whitmore's stomach became weak, his system probably began to clog with waste matter. What Tanlac did was a good system purifier, stomach tonic and reconstructive, and Tanlac did the work for him, and he saw it do for his wife and as it has done for countless thousands.

Could Not Eat or Sleep Made Well By PERUNA

Mr. William E. Denny, 1023 Park Ave., Springfield, Ohio, writes:

"I find great pleasure in writing you and thanking you for what Peruna has already done for me. I have been troubled with catarrh for years, and it had affected my head, nose, throat and stomach, that I could not eat nor sleep with any satisfaction."

"I have just taken three bottles. I can eat most anything and am greatly relieved of nervousness, so that when I lie down I can sleep without the least trouble. I recommend it to all those who are sufferers of that dreadful disease, catarrh."

vised statutes of the United States in section fifty-one hundred and sixty-four of the Revised Statutes of the United States, December 1917. [Seal] Signed T. P. KANE Acting Comptroller of the Currency.

GROWING HOGS.

For a hog to be profitable he must be kept growing from birth to maturity. He cannot be profitable unless he is healthy. He can always be a profit-producing animal if he is fed B. A. Thomas' Hog Powder. We positively tell you that this remedy prevents cholera, removes worms, and cures thumps! If the powder does not make good, we will.

STEADILY DOWNWARD IS THE TREND OF POWER IN GAS, AND STEADILY UPWARD GO THE RESULTS FROM THIS GREAT CHALMERS ENGINE

That gas is dropping steadily in power is no longer a matter of news. But while the decline is on (and many think we will never see again a high grade gas) here comes the master of the situation.

It is the great Chalmers engine and its chief function is making poor gas deliver high power.

It breaks up to an unprecedented degree the raw gas coming from the carburetor, "cracks it up" as the engineers say, and then heats it to a high point before the spark plugs set it off.

One device that does most of this important work is the now famous Chalmers "hot spot." The second is the ingenious "ram's-horn" manifold.

So thoroughly does the great Chalmers engine Fletcherize and Hooverize the gas that there's scarcely a particle of wasted power.

Tests of the exhaust have proved that.

And so fluid or liquid is this power that it fairly charms the driver. You can get violent action in an instant or you can "tame it to almost nothing." And whether calling on it for much or little it has a peculiar note of softness about it that always denotes a superior piece of mechanism.
