NO. 24.

OVER 600 FARMERS HAVE SIGNED COTTON PLEDGES

Tabulation of Cotton Reduction Pledges For Week Ending March 22.

COMMITTEE MEETS

Township Cotton Acreage Reduction Committee Unable to Make Final Statement of Pledges

The township cotton acreage committee met at Barnwell on last Friday afternoon. No reports had been received from townships on this important matter. Rosemary and Williston reported a considerable reduction. Blackville and Williston also reported material acreage reductions. The indications are that the farmers are keenly alive to the critical situation which confronts them. They show a spirit of unity which has not been shown since the days of the Farmers Alliance.

Continued from last week.

A SHOOTING AFFAIR.

On last Saturday, at the home of Mr. Adams who lives on the plantation of Mr. Charley Diamond, which is about five miles west of Barnwell, Mr. Wofford Morris received a gunshot wound at the hands of Reuben Jacobs, according to reports received in Barnwell. The wounded man was carried to the hospital in Augusta for medical attention. It is understood that the wound is of a serious nature and the outcome of it is very uncertain. Although reports from the hospital show that the intestines were perforated by the bullet, yet Mr. Morris is doing as well as could be expected and that hopes are held for his recovery.

The unfortunate affair seems to have grown out of a dispute between the two men as to certain language used by Morris in the presence of certain members of the family. A personal altercation ensued between the two men which resulted in the shooting. Drs. R. A. Giles, of Blackville, and A. B. Patterson, of Barnwell, were in attendance on the wounded man, who was about 22 years old.

All Soldiers in Barnwell County, either discharged on account of disability or otherwise, seeking or desiring information or help towards obtaining unpaid allotments allowances, tracing Bonus, keeping up war insurance, or any other kind of information, help or service, will please apply to Miss Kate Woodward, Chairman of the Home Service Section, Civilian Relief, of the American Red Cross Chapter, Barnwell, S. C., and any help to Soldiers or Soldier's families, will be gladly furnished, FREE OF CHARGE.

OFFICERS NOMINATED FOR ALLENDALE COUNTY

HATS, FROCKS AND ONIONS. (By DuBois).

Flaming-colored covers on apparel catalogs, money orders going to National Suit and Hat Co., registered letters on the road to Oltman Bee & Co., Henna colored frocks in store windows, patterns being borrowed, whisperings in the byways and hedges 'mongst the ladies; just a few days until "openings," and with it all you just bet sweet Spring have a-rove!

What is Spring without a hat? and—O goodness, if one could, for once in an age, get a hat that no one else could copy! Honest to goodness it's simply disgraceful the way folks are in this town. Everybody wants to have something like somebody else has. For instance, now, take these red hats. Of course they are just as nifty as anything ever was, and yet there is no pleasure in wearing one; you see 'em everywhere you look; but never mind about that, you will be shown one hat in a few days that will be right up to date, and no one can copy that, for the idea was taken from a pattern sheet direct from Paris, and the directions were all written in French and had to be interpreted. O that hat will be a darling!—wait until you see it and you will die with envy.

But now don't it make you tired to see some of these folks all blooming out in their new things before the weather gets warm. They're just trying to get ahead of some one else; but there is one consolation—when their is old and everyone is tired looking at what they have, why then some one else will have things that are brand new and swell too—you can count on that.

And say! have you seen those new belts they are wearing with these blouse-fitting frocks? Gee they are nifty, and cute is no name for them! I know one of the alic blue ones will look perfectly lovely with that tan "charmoose." Ain't it too delightful and emotional to pick out the new things? And it does one good all over to get ahead of some folks one knows.

Now about these tight-fitting skirts. Of course some had to go and over-do it, but they do look snipitous—specially those with the row of buttons. But gee, that military braid,—it was right pretty at first, but now—ugh! Excuse me, my new dress hasn't got a stitch on it.

Spring is a swell season to wear clothes one doesn't have to bundle up so in bungling things, and such sweet little scrimmings can be made with lawn and lace and picot edging—honest, I'm just wild about the Spring.

Garden? Did you say garden? O law, law—I'd plumb forgot about that little patch. Not much has been done yet except the onions are up and doing fine. Don't you like the fried tops these Spring days for dinner, when everything is so scarce?

Spring have arrove—and it's hats, frocks, gardens, and some more hats—but mostly hats!

Go to the Home Bank and get one of those Darling Miniature Liberty Bell Banks, and join their Christmas Savings Party, and have all your savings paid to you next Xmas with 5 per cent.

A WILD DRIVE.

A little after dark on last Saturday night, the citizens and visitors on Court House square and Wall street were thrown into a fervor of excitement, some narrowly escaping with their lives, due to a runaway car in charge of Sam Harley, colored. Sam had just become the proud owner of a second hand "flivver," and while he had not passed his examination as a mechanic, he had an abiding confidence in his ability to steer safely through that crowded thoroughfare. But Sam miscalculated in some way; he must have been in high gear as well as the car, for as soon as he had taken his seat at the steering wheel he evidently slapped his foot on the gas feed instead of the brakes, and forgetting for the moment his knowledge of mechanics he pressed down a little harder on the gas feed and the car shot down the sidewalk on Wall street, side swiping everything in reach. He managed to steer toward the hydrant encased in a thick brick wall which happened to be stout enough to withstand the offensive attack and he was shunted by it into two or three automobiles, losing one wheel of his car, but the speed was not thereby retarded and he headed for the corridor of the court house. Before getting into the court house, however, some bystanders managed to get hold of the brakes, the car was brought to a stop and Sam was taken in charge by the chief of police. He was relieved of a dirk about five inches long and notified to appear before his honor, the mayor, to explain his conduct, and especially whether he intended to cut his way through with his dirk.
