A CHANCE FOR SAMBO.—By the annexed letter from the Beaufort (N. C.) correspondent of the *N. Y. Herald*, dated Sept. 2d, it will be seen that it is likely a good chance will soon be offered Mr. Darkey to seek new fields for glory. We hope such inducements will be offered as to influence all discontented persons of the African descent to leave for Haiti, Africa or somewhere else. "Let them slide."

"Yesterday the Haytian despatch steamer *Geffard* put into this port for coal, water, &c., and, as the little affair may be fraught with events of vital import to this country, I hasten to give you such items as I could gather.

"The *Geffard* is manned by negroes, with the exception of the captain and chief engineer, who are French. The captain is bearer of despatches to Washington, asking, it is presumed, for aid to quell the rebellion in Hayti. What a glorious opportunity to get rid of a large number of nigger troops, and no doubt Mr. Johnson won't refuse such aid to our sister republic, as we have a large surplus of colored veterans on hand. It is to be hoped those gentlemen of color belonging to the *Geffard*, coming on such an errand, will be politely treated by New Yorkers. The vessel proceeds to New York to be caulked, refitted, &c., when she is coaled.

FROM EUROPE.—THE CABLE TO BE FISHED UP.—*New York, September 1.*—Last night's mail from England brings a report, on good authority, that the *Great Eastern* is to be at once despatched from Sheerness to New Foundland to fish upon the way for fragments of the severed cable, which, it is hoped, will be recovered by means of grappling and buoys. The promoters of the enterprise in England are determined to lay another cable next year, making use of the recovered portion of the old cable.

MEXICO.—News has reached Vera Cruz of a victory gained over the Liberals on the 14th. At the time of the steamer's leaving, the French and Austrian vessels were firing a salute. The Imperial troops being twice repulsed, an expedition was organized to drive the Republicans out of Chi huahua. It is reported that Nagartia lost half his men and all his horses, retreating from Matamoras. The French troops continue to arrive in Mexico.

THE PRESIDENT'S VISIT.—The *Raleigh Standard* of the 29th has the following editorial paragraph:

We learn that Gov. Holden has received a dispatch from President Johnson, in which he states that if he should visit Richmond he will extend his visit to Raleigh. Our people would be very glad to see him in this, his native city. We learn that the Mayor and Commissioners have extended to the President a cordial invitation to visit Raleigh.

The buckwheat crop of Pennsylvania is said to promise a large yield.

Winchester was occupied, during the war, by the Federal and Confederate troops, seventy-six times.

More Virginia delegations are in Washington to get the \$20,000 amnesty clause repealed.

General Woods has issued an order forbidding cotton in Alabama to be removed from the plantations or warehouses for the present.

A Washington dispatch of the 25th says that the friends of A. H. Stephens are making strenuous efforts for his pardon.

A despatch from Washington states that the Postmaster-General has ordered the opening of the various post offices in North and South Carolina.

General Gustis Lee has been appointed Professor in the Virginia Military Institute to fill the chair formerly occupied by General Jackson.

The public are cautioned, says the *Richmond Times*, 8th instant, against the circulation of the long fifty-cent notes, of the new pattern.

APPOINTMENT.—Benj. C. Truman, of the *New York Times*, has been appointed by President Johnson on a confidential mission through the Southern States.

A pretty accurate estimate of the defalcations of Edward B. Ketchum has been arrived at, and it foots up the enormous amount of four millions two hundred thousand dollars.

The Abolitionists of Perry county, Indiana, recently held a meeting at Tell City, in that county, in which they passed a resolution opposing negro suffrage, and declaring that negroes must not come to that county to stay.

There is good authority for denying the statement that General Lee is engaged in writing a history of the war. He has had numerous offers from publishers on both sides of the Atlantic to do so, but has declined all of them.

The *Louisville Journal* says: It has been fully substantiated that the fellow who attempted to steal George N. Sanders was no other than the man that struck Billy Patterson. What outrage will he be guilty of next?

A gentleman writing from Abbeville, S. C., states that everything in that section is looking cheerful. New goods constantly arriving from the North. Cotton has commenced moving, and money quite plentiful.

Gov. Sharkey, of Mississippi, has issued a proclamation calling on the people to form two companies in each county, one of cavalry and the other of infantry, for the purpose of putting a stop to murders and robberies.

MISSISSIPPI, August 29.—The cotton crop will be almost an entire failure throughout West Tennessee, the rust destroying it before it matures. It is said the best cotton county, in the western part of the State will not yield two hundred pounds to the acre.

A preacher once selected the following words for his next: "The world, the flesh, and the devil." Observing that he would arrange each under its proper head, he would commence upon the flesh, pass lightly over the world, and hasten as fast as he could to the devil.

Grand Master C. G. Wintersmith, of Kentucky, has issued an appeal to the leading members of the Masonic Order in the United States, calling a convention to meet in Louisville on the second Monday of October, to aid in bringing back the old harmony between all sections of the Union.

The dealers of Macon have become so extortionate that the Provost Marshal had to regulate their prices. These are as follows: Beef 6 a 12c. per lb. Pork 5 a 10c. per lb.; Butter 25c. per lb.; Eggs 20c. per doz.; Chickens 15 a 25c. each. No marketing hereafter will be allowed in the streets. All produce must be taken to market to be sold. All violation will subject the offenders to arrest and confiscation of articles.

Three cargoes of railroad iron have reached Charleston within a few days, designed for the South Carolina Railroad, the officers of which seem resolute to make up for lost time, and are pushing upwards with steam impulse and race-horse fervor.

President Johnson has declined to interfere with the action of the Southern Bishops. He says they may unite with the Northern Church or not, just as they please. The pressure of the radicals was strong; but, in reply to their remonstrances, he said the Constitution gave him no power to interfere; it was silent on the subject.

A French editor has given the following amusing description of the effect of an advertisement: The first time a man sees an advertisement he takes no notice of it, the second time he looks at the name, the third time he looks at the price, the fourth time he reads it, the fifth time he speaks of it to his wife, the sixth time he buys.

A large meeting of the oldest planters of La Poudre, La., was recently held, when they resolved to quit trying to raise sugar. The report of their committee argues that cotton cannot be raised with the present labor force in the State and they recommend planters to turn their attention entirely to corn.

ALABAMA PARDONS.—Gov. Parsons, of Alabama, telegraphs to the President: "Please suspend all petitions for pardon recommended by me prior to this date." It is not explained what prompted the Governor to make this request, but it is believed that the object was to head off a batch of Alabamians who arrived in Washington to urge their own petitions for pardon.

Military rule in Missouri is said to be disappearing. Last week all the military telegraph offices in Southwest Missouri south of Pilot Knob, including Cape Girardeau, were closed, and the wires ordered down. All the provost marshals' offices in North Missouri have been closed, and there is a marked relaxation of martial law in St. Louis.

The Democrats of Minnesota held their Convention for the nomination of State officers on Wednesday, the 16th instant. Resolutions were adopted sustaining the reconstruction policy of the President; in favor of the maintenance of the Monroe doctrine; opposing a protective tariff, and denouncing the suspension of the writ of *habeas corpus*.

A Louisiana paper declares that the town of Natchitoches has flees that can jump higher, quicker, bite harder, out-dodge, run faster, than any other fleas. They are larger, fatter, slicker, harder to rope than any other fleas. It takes too freedmen and a white boy to tree one of them, and suggests, as a last resort, to have them hung, or shot with a Sharp's rifle.

A despatch from Matamoras, by way of New Orleans, says that the *Montour* contains the news of several defeats of the Liberals near San Louis and Replo. Small forces only on both sides were engaged, and the results were unimportant. Many exiled Confederates were in Mexico, and becoming naturalized citizens of the empire.

The Woodville (Mississippi) *Republican*, of the 15th instant says that such a conflict has arisen between Governor Sharkey, the military authorities and Secretary Seward, as to give reason to believe the Governor intends sending in his resignation. The military, it appears, refused to obey a writ of *habeas corpus* issued by Judge Mercer, of Warren county. Governor Sharkey telegraphed to Washington a statement of facts; Secretary Seward replied that Mississippi was still under martial law, and the military were supreme.

GENERAL'S MARRIAGE AND BEAUREGARD ASK FOR PERMISSIONS TO LEAVE THE COUNTRY.—Marmaduke, known as a prominent officer in the late rebellion, is the first one to avail himself of the privilege to go abroad, and remain without the United States during the pleasure of the Government, and has received a passport accordingly. General Beauregard has also applied for a passport under the same official order of the Department of State, through the medium of a sympathizing lady friend from Alabama.

PRESIDENT JOHNSON'S OPINION ABOUT AFFAIRS AT THE SOUTH.—A Washington dispatch to the *St. Louis Democrat* says that, in answer to the appointment of one of his constituents to an internal revenue office in South Carolina, the President said that he meant to go upon the theory that there were enough capable and loyal men in that and every other of the late rebel States to fill the offices and reorganize and sustain the State Government.

Hon. R. M. T. Hunter of Virginia, is a political prisoner in Fort Pulaski. Less than a month ago the body of Sarah, a lovely daughter of sixteen, was placed in the family burying ground. Ten days since a son of fifteen, Musco, was drowned while bathing, and sleeps beside his sister. Mrs. Hunter is said to be almost distracted.

THE WORK OF RESTORATION.—Intelligence from Texas is to the effect that there will be no trouble, whatever, in that State in the work of restoration. The information from the other Southern States is alike favorable. The Provisional Governors are represented as doing all in their power to conform to the view of the President of the United States on that subject.

HORSES CAPTURED DURING THE WAR.—The Quartermaster General has issued an order, under instructions from the Secretary of War, to the effect that where a captured horse is identified as the property of a loyal citizen, the claim of such citizen to his property will be recognized by returning the horse to him or by paying for it at the average Government price of the district.

A PROCLAMATION!

By the Provisional Governor of South Carolina.

EXECUTIVE DEPARTMENT S. C.,
SEPTEMBER 4, 1865.

WHEREAS, a seeming conflict of jurisdiction having arisen between the civil and military authorities of South Carolina, under the Provisional Government of the State; and whereas, Major General Gillmore, commanding the Department of South Carolina, having sought an interview with me, as Provisional Governor, in the presence of Major General Meade, commanding the Atlantic States; and whereas, all matters giving rise to the seeming conflict were adjusted and arranged with the consent and approval of Major General Meade:

Now, therefore, I, BENJAMIN FRAMP-TON PERRY, Provisional Governor of the State of South Carolina, do proclaim and make known, that the terms of this arrangement are as follows: "That in all cases where freedmen or persons of color are concerned, the Courts of the Provost Marshals shall have exclusive cognizance to try and adjudge them, for the present, and that all other cases shall be heard and adjudicated by the civil courts, municipal authorities and civil officers, under and according to the laws of South Carolina. That the civil courts shall be opened under the Provisional Government, and all civil and municipal officers be allowed to resume their official duties and discharge them freely without interruption on the part of the military authorities. That it is further understood General Gillmore will issue a military order and Governor Perry, will in like manner, issue his proclamation, making known this arrangement, which is to continue till civil authority is entirely restored in this State and the Government reconstructed."

And I do hereby call upon all persons and order them to strictly obey and carry out the terms of this arrangement.
Done in the city of Columbia, the day and year above stated. B. F. PERRY,
By order of the Provisional Governor,
W. H. PERRY, Private Secretary.
