INCREASE OF RATS.—The *Farmer's Gazette*, (English) asserts and proves by figures that one pair of RATS will have a progeny and descendants no less than 651,050 in three years. Now, unless this immense family can be kept down, they would consume more food than would sustain 65,000 human beings.
See "COSTAR'S" advertisement above.

RATS versus BIRDS.—Whoever engages in shooting small birds is a cruel man; who ever aids in exterminating rats is a benefactor. We should like some one to give us the benefit of their experience in driving out these pests. We need something besides dogs, cats, and traps for this business. —Scientific American, N. Y.
See "COSTAR'S" advertisement above.

HOUSEKEEPERS troubled with vermin need be so no longer, if they use "COSTAR'S" Exterminator. We have used it to our satisfaction; and if a box cost \$5, we would have it. We have tried poisons, but they effected nothing; but "COSTAR'S" article knocks the breath out of Rats, Mice, Roaches, Ants, and Bed-Bugs, quicker than we can write it. It is in great demand all over the country. —Mendota, Ohio, Gazette.
