THE PRINCETON PRESS. MARBLE YARD.

THE design of the inventor was to get up a Press which would answer every requirement of the offer made by George Bruce, of New York, in 1851, viz: cheap, light, easily m maged, and capable of the citizens of viz: cheap, light, easily m maged, and capable of throwing off at least 500 sheets per hour.

This Press will throw off from 500 to 800 sheets per hour, doing the work equal to any Cylinder Press. The bed stands about 30 inches from the floor, and in future be carried on in his own name, at the foris the most convenient of all Presses to make ready | mer the form on. It is adapted to jobbing, or book work, as well as newspaper, and will register as well as any other Cylinder Press. It requires, to work it, a man to turn the fly wheel and a boy to feed the

The Inking Apparatus is very complete, and differs from the apparatus used in Cylinder Presses generally, being more like that used in the Power Platen Presses. Two rollers pass over the form and has secured the services of experienced and twice to each impression, taking ink for each sheet. A Press of this description for newspaper and jobbing, bed 44 by 281 inches, with roller mould, roller stocks, blanket, flying and registering apparatus, &c., complete, will be furnished for \$500. If intended for book work chiefly, an extra ink fountain will be furnished for \$20. The press, fly wheel, &c., will weigh about 2000 pounds. The sides, &c., are iron. Length of frame, seven feet-height, to front edge of feed board, three feet six inches. Any size made to order.

The following is the list of Sizes and Prices as far as established: Red 28 by 26. S400. Bed 48 by 31, S500. FRME undersigned respectfully oftens like friends
