

THE CABLE-DR. RUSSELL'S STORY.

Lord Cranston's golden page, according to the Lay of the Last Minstrel, ran about crying "lost, lost, lost." The historiographer of the ill-fated Atlantic cable...

It is not possible for any words to portray the dismay with which the sight was witnessed and the heart heard. It was enough to move to tears!

Confidence, under these disheartening circumstances, seems to us, and to them, and to this heroic was not the abstract, sentimental kind, for straightway—

"After a brief consideration, Mr. Canning, whose presence of mind and self-possession never left him, decided (all but egregiously folly it seemed) to seek for the cable in the bottom of the Atlantic—

But it was dull, drowsy work, and, after all, there seems to have been but little real heart in it. For the Doctor goes on to say—

"At first the iron sank but slowly, but soon the momentum of descent increased, so as to lay great stress on the picking-up machinery, which was rendered available by lowering the novel messenger, with warrant of search for the fugitive hidden in mysterious corners beneath. Lengthy flow after length, over cog-wheels and drums, till the iron, warming with work, heated at last so as to convert the water thrown upon the machinery into clouds of steam.

All life had died out in the vessel, and no noise was heard except the dull grating of the wire cables over the sheels at the bow. The most appalling and infernal cry had been heard in the cables—

Nevertheless, as the reader already knows, the cable was really "clutched," once, twice, thrice—but the "clutch" did not hold—the strain was too great—and so the great ship had to give it up and return to England, with Mr. Field and all the staff.

Dr. Russell adding, "much strengthened by the conviction that the cable had been cut by the Old World and the New World would have been here this united by the Atlantic Telegraph, and animated by the firmest belief in ultimate success."

THE ERA OF GREAT FRAUDS.—At no time within our recollection has there been such a succession of great frauds as during the past three or four months. Following each other so rapidly that their extent and audacity have severely shaken the public sense of security, the wonder is that no serious financial revolution has followed in their wake.

JEFF. DAVIS' FAMILY IN MONTREAL—Young Davis on Yankees and Custard.

[Correspondence of the New York Herald.]

Since the commencement of the summer excursion season we have had a great many strangers among us in this city, particularly from the States and our sister provinces. All the hotels have been and are still filled up with bores, dera, transient and permanent, and it has not infrequently occurred that our accommodations have been insufficient for the unprecedented rush of visitors.

Among the recent arrivals here were the three children, mother-in-law and servant of Jeff. Davis. They put up at the Donegana Hotel, and caused quite a little excitement during their stay. Your readers are already familiar with the personality of the family, the age of each, and their peculiarities.

It was their custom to eat at the public table along with the other guests of the establishment. The little boy, about nine years old, was very talkative and noisy. On a small scale he kicked up as much noise and fuss at the Donegana as his paternal relative did on a large scale during the rebellion.

On another occasion a young lady stopping at the hotel asked Master Davis if he would give her one of his buttons. After looking at her attentively for a while, he said—

Master Davis—"Are you a Southerner?" Lady—"No."

Master Davis—"Are you a Canadian?" Lady—"No."

Master Davis—"Perhaps, then, you're a Yankee?" Lady—"No, not a Yankee, either."

Master Davis—"I would not give one of my buttons to a Yankee for the world. But if you were a Southerner I would give you one. Those are the buttons I wore when I was a Colonel in the army—the rebel army—mind that—not the Yankee army."

Lady—"I would not mind kissing you if you gave me one of your buttons."

Master Davis—"Oh! I would not kiss a Yankee woman; no, not for all the world."

Lady—"But I'm not a Yankee."

Master Davis—"I'm afraid you are."

Lady—"You won't give me a button, then?" Master Davis—"No."

Jeff. Davis is now reported to submit gracefully to his discomforts. He would probably bear a trial civilly.

THE CHARLESTON MARKET. COTTON.—The receipts of this article continue light, amounting to about twelve hundred and fifty bales from the 1st to the 6th inst., inclusive. After much inquiry, we do not think that over two hundred bales have been sold here in the same time—the great bulk of it being shipped. The sales have been, generally, in small lots, at prices varying from 34c. to 35c. for low middling to good middling uplands. On Wednesday we were informed that a lot of 59 bales, much of which was fully good middling, had changed hands at 37 1/2c. per lb.—some of the packages were in poor condition. The last news from Europe has exerted a depressing influence on the market, and there is a tendency to a decline. There are some three thousand bales at Orangeburg, which holders are quite anxious to get to market, but which is detained by the want of railroad facilities. It will be perceived by our table that we make the stock on hand September 1st, 1865, 362 bales Sea Island, and 1610 bales Upland Cotton. There has been a few bales of Sea Island sold during the week, and we quote Sea Islands and Mains from 60c. to 80c. per lb. The exports during the week have amounted to 238 bales Sea-Island, and 1376 bales Upland Cotton.

COTTON STATEMENT. Sea Island. Upland. Ric. Stock on hand Sept. 1st, 1865.....362 1610 100 Receipts to Sept. 6th, 1865, inclusive.....12 1261 60 Exports from 1st to 6th Sept., 1865, inclusive.....374 2861 150

RICE.—We have not heard of any transactions in this article during the week. About 1000 bushels of rough have come to hand, which has been placed in Bennett's mill.

NAVAL STORES.—The receipts amount to about three hundred bbls. Rosin. A part of this was sold at \$8.50 for No. 2.

HAY.—One hundred and seventy-five bales North River changed hands at \$1.25.

FREIGHTS.—To Liverpool, 1/2d. for Upland, and 1/4d. for Sea Island Cotton. To New York, in steamer, \$4.00 per bale for all packages weighing 400 pounds and over, and one (1) cent per pound for all under 400 pounds; Naval Stores, 50 cts. per bbl. By sailing vessel, 1/2c. per lb. for Cotton, and 50c. per bbl. for Naval Stores.

GROCERIES.—Our Grocery dealers are well supplied with almost every article in their line, and the assortment of Coffee, Sugar, Molasses, Flour, Bagging, Rope, &c. will be found most excellent. We quote Sugar, good brown, 14 1/2 @ 16c; C Sugar, 19 @ 20c; best crushed, 22 @ 23c. Molasses, Muscovado, 55c.; sugar house, 40 @ 45c. Coffee, Rio, 30 @ 35c. Flour, super, \$10.00 per bbl.; extra, \$11.00 @ \$12. Liverpool sack, \$3.25 @ \$3.50. Whiskey, \$3.00 @ \$8.00 per gallon. Bagging, gunny, 27c. per yard.

PROSPECTUS! NEW WEEKLY NEWSPAPER!

THE SUBSCRIBERS PROPOSE TO PUBLISH, AT an early day, a Newspaper in the town of Orangeburg, under the name of THE CAROLINA TIMES, &c. The want of a weekly paper for the citizens of the District, "The Times" will be found to keep pace with other journals of the day, in General News, Improvements in Agriculture and Mechanical Sciences, the Transactions in Finance, Interests, and all that constitutes a good Journal for Farmers, Merchants, Housewives, and business men generally.

The Current Prices of both the Charleston and Orangeburg Markets will be furnished weekly from reliable sources, thereby rendering the operation of Capitalists safe, and based upon a sound foundation.

The Proprietors respectfully commend the undertaking to the patronage of citizens of the District and State. Those wishing to contribute to the address either of the undersigned, at Orangeburg, C. H.

TERMS—CASH: Weekly paper—one year.....\$5.00 Weekly paper—six months.....3.00 Weekly paper—three months.....1.50 To Clubs of Ten, the paper will be supplied at Four Dollars per year for each copy.

W. W. LEGARE, T. C. ANDREWS, September 7.

THE WHITE MAN'S PAPER. THE NEW YORK DAY-BOOK, A FIRST-CLASS WEEKLY PAPER, IN FAVOR OF THE CONSTITUTION AS IT IS, AND THE UNION AS IT WAS.

THE DAY-BOOK is not reprinted from a daily, but is made up expressly for weekly circulation, with a careful summary of the News from all the States, and all parts of the world, with Market Reports, Agriculture, Finance, Literature, &c., &c.

One copy one year.....\$2.00 Three copies one year.....5.00 Five copies one year, and one to the getter up } 10.00 Ten copies one year, and one to the getter up } 17.50 Twenty copies to one address.....30.00

Send for a specimen copy, which will be sent, postage free, on application. We employ no traveling agents.

Address, giving postoffice, county and State in full, VAN EVRIE, HORTON & CO., No. 162 Nassau-street, New York.

THE NEW YORK NEWS, DAILY AND WEEKLY—THE NEW YORK WEEKLY NEWS, a great Family Newspaper—Benjamin Food, Proprietor. A Journal of Politics, Literature, Miscellany, Market and Financial Reports, Interesting News, and News from all parts of the world. It contains more reading matter than any other paper. New improvements introduced—an immense circulation determined on—the largest, best and cheapest paper published in New York. Single copies, 5 cents; one copy, one year, \$2.00; three copies, one year, \$5.50; five copies, one year, \$8.75; ten copies, one year, \$17.00; and an extra copy to any club of ten; twenty copies, one year, \$30.00. The Weekly News is sent to clerksmen at \$1.00; to the Post Office, by mail, at \$1.50; by express, \$1.00 per annum; six months, \$5. For sale by all newsdealers. Specimen copies of Daily and Weekly News sent free. Address HENRY WOOD, Daily News Building, No. 19 City Hall Square, New York City. September 2.

HELMBOLD'S FLUID EXTRACT BUCHU, FOR WEAKNESS ARISING FROM INDISCRETION. The exhausted powers of Nature which are accompanied by so many alarming symptoms, among which will be found, Indisposition to Exercise, Nervous Weakness, Wakefulness, Horror of Disease, or Forebodings of Evil; in fact, Universal Lassitude, Prostration, and inability to enter into the enjoyments of society.

HELMBOLD'S FLUID EXTRACT BUCHU, In affections peculiar to "FEMALES," is unequalled by any other preparation, as in Chlorosis or Retention, Painfulness, or Suppression of Customary Evacuations, Irregularity of the Menstrual Periods, and all complaints incident to the sex, whether arising from habits of dissipation, imprudence in diet, or the decline or change of life.

HELMBOLD'S FLUID EXTRACT BUCHU, IMPROVED ROSE WASH, Will radically exterminate from the system Diseases arising from Disipation at little expense, little or no change in diet, no inconvenience or exposure; completely superseding those unpleasant and dangerous remedies, Copoiva and Mercury, in all these diseases.

USE HELMBOLD'S FLUID EXTRACT BUCHU, In all Diseases of these organs, whether existing in "Male" or "Female," from whatever cause originating, and no matter how long standing. It is pleasant in taste and odor, "immediate" in action, and more strengthening than the preparations of Bark or Iron.

HELMBOLD'S EXTRACT BUCHU Is the Great Diuretic.

HELMBOLD'S HIGHLY CONCENTRATED COMPOUND FLUID EXTRACT SARSAPARILLA, For purifying the blood, removing all chronic constitutional diseases, arising from an impure state of the blood, and the only reliable and effectual known remedy for the cure of Scrofula, Scald Head, Salt Rheum, Pains and Swellings of the Bones, Ulceration of the Throat and Legs, Blisters, Pimples on the Face, Tetter, Erysipelas, and all other eruptions of the body, and expels the disorders that grow and rankle in the blood. Such a remedy that could be relied on, has long been sought for, and now, for the first time, the public have one on which they can rely with confidence. It does not admit of certificates to show its effects, but the trial of a single bottle will show the sick that it has virtues surpassing anything they have ever taken.

HELMBOLD'S EXTRACT BUCHU, ADMITTED TO USE IN THE UNITED STATES ARMY, AND IS ALSO IN GENERAL USE IN ALL THE STATE HOSPITALS and PUBLIC SANITARY INSTITUTIONS throughout the land, as well as in private practice, and are considered as invaluable remedies.

See Medical Properties of Buchu, FROM DISPENSARY OF THE UNITED STATES OF PHYSIC. See remarks made by the late celebrated Dr. FRYBAC, of Philadelphia.

See remarks made by Dr. EPHRAIM M'DOWELL, a celebrated Physician and Member of the Royal College of Surgeons, Ireland, and published in the Transactions of the King and Queen's Journal.

See Medical Chronical Review, published by Dr. J. J. FLEMING, Fellow Royal College of Surgeons.

See most of the late Standard Works of Medicine, EXTRACT BUCHU, "SARSAPARILLA," Sold by all Druggists.

HELMBOLD'S DRUG AND CHEMICAL WAREHOUSE, September 7. 1mo No. 594 BROADWAY.

FURNITURE! WHOLESALE AND RETAIL, Nos. 87 and 89 BOWERY AND 65 CHRISTY-STREET. Have the largest assortment of

DEBRAAF & TAYLOR ROSEWOOD, WALNUT AND MAHOAGNY PARLOR, CHAMBER, AND DINING ROOM AND LIBRARY FURNITURE, MATTRESSES AND BEDDING BEDS EXTRA WIDE AND EXTRA DEEP FOR THE SOUTHERN TRADE.

August 14.

GOOD NEWS FOR ALL! RE-OPENING OF THE TRADE IN CHARLESTON

IMMENSE ATTRACTION AT THE WHOLESALE SHOE HOUSE, No. 133 MEETING-STREET, ESTABLISHED IN 1836,

IS NOW RE-OPENED AFTER A SUSPENSION OF FOUR YEARS, WITH GREATER FACILITIES THAN EVER.

THE PROPRIETOR NOW OFFERS FOR SALE Boots, Shoes, Hats, Trunks, &c., &c.

AT WHOLESALE ONLY, AT THE LOWEST POSSIBLE QUOTATIONS, AND RECEIVING IMMENSE CONSIGNMENTS SEMI-WEEKLY FROM THE LARGEST AND MOST RELIABLE MANUFACTURES.

THE PROPRIETOR TAKES PLEASURE IN CALLING THE ATTENTION OF THE TRADE, THE LOCAL MERCHANTS OF THE STATES OF GEORGIA, TENNESSEE, ALABAMA AND FLORIDA, TO THE EXTENSIVE STOCK OF

BOOTS, SHOES, HATS, TRUNKS, ETC., ETC. ORDERS NEATLY AND PROMPTLY ATTENDED TO. EDWARD DALY, AGENT FOR MANUFACTURERS.

August 17. 1mo BOOTS, SHOES, TRUNKS AND HATS.

HAVING BEEN APPOINTED AGENT FOR THE SALE OF BOOTS, SHOES, HATS, TRUNKS AND HATS, BY SEVERAL OF THE MOST PROMINENT MANUFACTURERS AT THE NORTH, AND NOW

LOCATED AT No. 138 Meeting-street,

I offer this choice stock of Goods for sale by the PACKAGE ONLY. THE TRADE WILL PLEASE NOTICE. EDWARD DALY, Agent.

August 17. 1mo FERTILIZER FOR COTTON, ETC.

MAPES' NITROGENIZED SUPERPHOSPHATE OF LIME, FOR COTTON, TOBACCO, WHEAT, CORN, &c.

COMPOSED OF DRIED BLOOD, BONES, SULPHURIC ACID, PERUVIAN GUANO, SULPHATE OF AMMONIA, POTASH AND SODA.

Large Silver Medal awarded 1859, by the American Institute of New York—Patented 1859—Perfect uniformity of quality—Testimonials from hundreds who have used it for years—Does not exhaust the land like Guano, but permanently improves it—One hundred pounds of Nitrogenized Superphosphate of Lime will equal in effect and lasting power one hundred and eighty pounds Peruvian Guano—Produces heavier bolls of Cotton, and greater weight of Wheat and other Grain, per bushel, than Peruvian Guano—Prevents Rust.

Meers, Fisher & Haskell, Cotton Planters at Newbern, N. C., write, July, 1865, as follows: "The Phosphate of Lime we purchased of you gives good satisfaction. Last year we applied fifty-five (55) tons to three hundred and seventy-five (375) acres of land for cotton, say about (300) three hundred pounds per acre. We rubbed the seed in the Phosphate and also sowed it in the drill with the seed at the time of planting. On a portion of the land we applied a top dressing of the Lime at the second hoeing. Throughout the season the cotton plants grew well—the leaves were of a dark, healthy color, and "no rust" was seen on the plantation. The ravages of the army worm prevented us from realizing the benefit from our outlay for the Lime in full, still the large number of partly grown bolls and forms gave some idea of what the crop would have been had we used our Phosphate as usual. We saved a large quantity of manure on the place last year, our confidence in the value of your Phosphate bought for a friend, who was satisfied of its worth in cotton culture. At the time of writing this, our crop is looking lively, and promises an abundant yield. One portion of our plantation consists of highlands with a clay subsoil, running near the surface; the remainder is flat and inclined to be sandy. The owner of the place tells us that he did not succeed with cotton on this last year; but owing, as we think, to the liberal use of your Phosphate, we have now a good crop growing upon it. This is but the second season of cotton growing with us; still, from our experience thus far, we do not hesitate to recommend your Phosphate of Lime as a manure well adapted to the wants of the cotton planter."

NEWBERRY, S. C., October, 1860. Professor J. J. MAPES—Dear Sir: I bought twenty bags of your Nitrogenized Superphosphate of Lime, of your Agents, Messrs. B. & N. E. Solomon, Hamburg, S. C. (who solicited a statement of its efficacy), and applied it to forty acres of my poorest cotton land. This land is on the public road, where its effects were seen. My neighbors, who are acquainted with the land, were astonished at the luxuriant growth of the cotton where I used your Superphosphate. It produced better cotton, and a larger amount, than on my good land; less work was needed, in making the cotton than on my other land. Not a particle of rust was to be seen where I applied your Superphosphate, while the rust prevailed over every other portion of the crop. Respectfully yours, DAVID PAYNE.

NOTE.—Mr. Payne's good land compares favorably with the best cotton lands on the Saluda River. The Saluda bottoms are proverbial for producing large quantities of cotton.

COLUMBIA, S. C., October 18, 1860. Mr. J. J. MAPES—Dear Sir: In reply to yours of the 1st inst., I cheerfully state: I have used Mapes' Nitrogenized Superphosphate of Lime on my cotton of the present year, and am perfectly satisfied with its yield. I can recommend it to my neighbors with confidence, as a pure and effective manure, and would give it the preference to any other in the market. Yours, respectfully, THOS. DAVIS.

Mr. Charles W. Mixon, of Edenton, Chowan County, N. C., writes to Mr. Beckover: "In regard to Mapes' Phosphate it worked admirably for me, the product being fully equal if not superior to both the manures before mentioned. It did not start the young plants as early as either the other manures; but it seemed to retain its color and pods much better, and no symptoms of rust was ever seen where it was applied—all the land I planted in cotton being about the same quality and strength. CHARLES W. MIXON.

Extract from a letter from Colonel Gideon Dowse, of Berzella, near Augusta, Ga., August, 1860: "I have applied it to land that invariably raises cotton, and there is as yet not a sign of rust in it, while the same kind of land just adjoining is completely ruined by it already. This experiment confirms that made by Mr. Lomas, of S. C., last year; and I am fully persuaded that any planter manured with it does withstand a drought better and keeps green longer than with any other application that has come under my notice. I have seen cotton, once or twice, in a very early stage, that have kept green during the terrible drought that has so completely destroyed all our gardens, and my nutmeg melons are as green and blooming as beautifully as in spring. I have written this as the result of my judgment from close observation. When I shall have gathered my crop it will give me pleasure to give you the result from actual weight and measure. Yours, GIDEON DOWSE.

Extract from Weekly Day-Book: "We have, in the course of an extensive agricultural correspondence, gathered evidence of the superior value of Mapes' Nitrogenized Superphosphate of Lime upon the cotton fields of the South, where Peruvian Guano has been used with partial success. The bolls have been heavier, and of greater number, the yield of cotton per acre has been larger, and what is also of the greatest consequence, no rust is discovered in cotton fields where this article is applied, to which may be added its peculiar lasting power of fertilization, and its comparative cheapness. These facts have come to us in correspondence from parties who have used other like agents, and who give this by far the highest praise. "We have arrived at the conclusion, after considerable experiment ourselves, and of careful search for the results of the trials of others, that Mapes' Fertilizer has more of the property needed in a general manure, in horticulture and agriculture, than any thing else of the kind we are acquainted with."

EDGEMFIELD, S. C., October 10, 1860. J. J. MAPES, Esq., New York—Dear Sir: I bought four tons of your Superphosphate of Lime for my cotton crop, also some guano, and have tried them side by side on the same quality of land. Not a particle of rust was to be seen where your Superphosphate was used; and I also applied stable manure on a portion of my land. The cotton had the rust when the latter was used. The yield of cotton was splendid w' on the Superphosphate was used, despite the extraordinary dry year. When I applied the other manure the yield was not good. I applied the Superphosphate at the rate of 100 lbs. per acre, and believe it would have paid better if I had put more per acre. I sold my cotton in Hamburg yesterday at 1/2c. per pound over the usual market price. The lint was considered very strong and heavy. I consider yours a reliable manure. Yours, truly, JAMES M. LANHAM.

Among the many patrons of this manure are the following gentlemen, who have testified in the highest terms of its value: Dr. N. Crawford, Columbia Co., Ga.; W. H. T. Walker, U. S. A., Mobly Pond, Ga.; L. Berckman, Augusta, Ga.; J. P. Brown, Big Lake Plantation; Carswell B. Martin, Macon, Ga.; E. M. Pendleton, Sparta, Ga.; Colonel Goodwin, Columbia, S. C.; and many others in all the Southern States, whose names can be found in a pamphlet published by CHARLES V. MAPES, General Agent for the Manufacturer, No. 104 Water-street, New York.

Price \$60 per ton (2000 pounds), in barrels. Liberal discounts allowed, and Circular, &c., with name and business address, furnished gratis to responsible houses acting as agents. BONE DUST, GUANO, etc., furnished by cargo or by the ton. Orders for the Superphosphate of Lime will be attended to.
