We, therefore, respectfully submit the following resolutions as an exponent of our views and ex-pectations: *Resolved*, That the necessities of our position render it imperative upon us, in the present state of affairs, to demand cash payment for our profes-sional services. These payments will be expected at the time the services are rendered, for all cases of office advice or single visits, and in all other cases, as soon as the attendance terminates. *Resolved*, That whereas the Medical Fee Bill established by the Medical Society of South Caro-lina, in the latter part of the last century, was adopted at a time when the expense of living was at least three or four times less than the present exigency requires, and was, besides, predicated upon a specie basis, we shall feel ourselves obliged, in our charges, to double the rates therein speci-fied, and to add thereto whatever may be the rates between species and currency. *Resolved*, That to facilitate the fulfilment of the arrangements above specified, the attonding phy-sician will, as Boor as a case requiring continued attendance has terminated, hand in a card or memorandum, specifying the amount of his fees, or furnish such memorandum at the end of every month. *Resolved*, That, as we have hitherto done, we will obleerfully render our services to those of our patients who have, by the calamities of the recent war, been deprived of their ability to pay the ordi-nary compensation, until such time as their ability to remunerate us may be restored. *Dr. R. A. KINICOR* offered the following resolu-tions, which were unanimously adocted.

 Gold continues steady.
 The demand for customs is moderate and the premium is less affected by speculation than usual. The quotations average about yester-day's rate.

 Foreign exchange is in better supply and the rates are again lower. The supply of sterling bills drawn against Five-twenties, gold bars, Erie certificates and cotton amounts to a large aggregate and more than meets the demand. The leading drawers quote sixty days' sterling at 1094 (# 109%) (# 109%).

Dr. R. A. KINLOCH offered the following resolu-tions, which were unanimously adopted : *Resolved*, That we consiler it ominently desi-rable, at this time, to abandon the old practice of dispensing medicines from private offices—a cus-tom which prevails in no. other city of any size. *Resolved*, That the custom now prevalent, with our city apothecaries, of closing their places of business at an early hour in the ovening, is an evil seriously felt by the profession and the community, and we hereby respectfully urge its correction.

On motion of Dr. R. LEBBY, SR., it was Resolved, That the proceedings of this meeting be published in the daily papers.

On motion of Dr. MOULTRIE, the meeting adjourned. E. HORLBECK, M. D., Chairman. J.'S. BUIST, M. D., Secretary.

". The New York Commercial Advertiser of the 14th says: ". Gold is less active. The partial dullness among the dry goods importers during the week has, checked the flow of imports into consumption, and the demand for customs duties is consequently diminished, this receipts at the custom house for the week having been about \$1,500,000 less than last week. "The price fluctuates between 1443; and 1443;, with a downward tendency. The imports for the week are nearly \$2,000,000 over those of last week; but should the quiet in the markets continue, an increased propor-tion of the goods will go into bonded warehouse.
