Letter from Spangler.

The following letter from EDMAN SPANGLER, convicted of conspiring with BOOTH in the assassination of President LINCOLN, and sentenced by the military commission which tried the conspirators to six years hard labor on the Dry Tortugas, was received by a gentleman in this city Monday, who loaned it to us for publication. It will be seen that SPANGLER asserts his innocence, and still denies all participation in the assassination of our lamented President. It has been asserted that SPANGLER is a man of education, and a letter written in very flowery style, and purporting to have come from him, is now going the rounds of the press. We give his letter *verbatim et literatim*:

FORT JEFFERSON, TORTUGAS ISLAND, September 15, 1865.—MY DEAR FRIEND: I thank you very much in hand to rite to you these few lines to let you know that I am well and hope you are the same this is a purty hard place to live the sun is very hot and we have hard grub, salt horse and one piece of bread who sometimes get soup there is some small fish in the brack water that who can catch from our cell window but who have no fish hooks small enough here and have no money to send for thn, there is a authore store here you can get anything you want if you have money there is about 500 prisoners here, who have the privilege of going over the whole island is about 13 acres of sand and some few trees I am at work at my trade. You have no doubt been acquainted with the fact and circumstances connected with my trial and sentence and imprisonment. No thing that I can say or do can alter the opinion of the world or the Public. Before God and all that is sacred I am perfectly innocent of all the charges and specifications brought against me by the prosecution. I had no knowledge or idea of anything nor did I aid or assist the villain or the assassin of the President either before or after the assassination you know that I was not more intimate than others that around him not as much as some of them. He asked me to see to his horse which I did he said that he would make me *handsomd presed*, which he did, six years on the Island of Dry Tortugas I never enjoyed his confidence or his favour except occasionally when we met at a restaurant he would ask me to have something to drink I had nothing to do with him on the evening of the assassination more than any other man similarly situated could have he came to the Theatre called me and asked me if I could hold his horse which I declined for the reason I had my work to attend to on the stage. I called Pennut John to hold his horse, who held him until he came out after murdering the President. I did not know what had taken place until the deed had been committed and Booth made his escape from the Theatre. I never shut the door after his escape nor did I know nor had any thing to do with the mortice in the wall or boring the whole or the fixing of the bar of the door, or loosing the screws all this I was charged with as being guilty of suspicion of having done but before God who I know will hold me accountable if I lie I know nothing or herd nothing about the existense of any such thing until after the assassination when I was asked concerning it all the evidence in my case is known I leave it to all honest and unprjudicial people to judge of my innocence or guilt Grate injustice has been done me by some false witnesses from whom expresses prior to my trial I know acted by gain or reward. I wish you would see — and see whether he ever received my statement that I sent him with a young man by the name of welsh, and if he has to let me know what he is going to do with it please and send me some small fish hooks some 2 or three by hooks in a litter and a little money to buy some postage stamps and some paper, there is a biggar rogoment here to guard the place give my love to all my enquiring Friends and let me know what they think of me I am here suffering here which I am innocently yours Most Respectfully
EDMAN SPANGLER.

ANOTHER INSURRECTION IN HAYTI.—Later intelligence from Hayti conveys information of an attempted revolt in Port au Prince, in favor of the ex-Emperor SOULEY.

The leaders of the plot intended to proclaim the fall of the President, annul the Republic, and announce an empire, with Souleque at its head. The general health of the country is good. President Geffard is well. No further military movements have taken place.
