DAILY NEWS.

News Summary.

The Richmond papers state, in reference to the election, that "in several instances candidates for Congress in Virginia have withdrawn their names from the canvass, for the reason that they could not conscientiously take the oath, and did not wish to deprive their State of its due share of representation. Mr. CARTER LEE, brother of Rost. E. LEE, for this reason withdrew his name, and recommended for support another candidate who could take the oath. The returns will not be in from all the districts—some of which are remote from telegraphic communication-possibly even for several days, especially from the Eighth District, composed of many counties in the southwestern part of the State. DANIEL H. Hoge, of Montgomery, is believed to have the best prospect in this district. Messrs. Chandler, Conrad, Mosny, of Lynchburg, Cusris, of Accomac, and STUART, of Augusta, are believed, at the time of going to press, to be among those who are elected.

The Postoffice Department is making up its accounts for the next Congress, and it appears that while the mail service has been sustained by the receipts for postage during the rebellion, the deficit, when the mail route service in the Southern States are resumed, will be eight million dollars.

The Military Department of Mississippi has been transferred from the Division of the Gulf to that of the Tennessec-that is, from the command of Gen. SHERIDAN to that of Gen. THOMAS.

General Banks, we see, has come out, October 9, 1865, as a candidate for Congress against the President. He says, in a note:

I am in favor of granting the right of suffrage to colored men. I believe this measure to be necessary to the settlement of the affairs of this country, and have full confidence that it will be adopted. I urged this upon the Constitutional Convention of Louisiana in 1864; and in an address I delivered in New Orleans the 4th of July of this year, copies of which I enclose, you will find a full expression of my sentiments.

There is another thing which, according to the Boston journals, General Banks did in Louisiana. He declared, on oath, that he was a citizen of that State, and as a citizen, within a few months, was admitted to the Louisiana bar. How, then, is he now a citizen of Massachusetts and a candidate for Congress?

In the Episcopal Convention, now being held in Philadelphia, on the 13th the House of Delegates settled the case of Bishop Wilmer, of Alabama, by the adoption of resolutions which concur with the House of Bishops in censuring Bishop Wilmer's late pastoral letter, recognize the validity of his consecration as Bishop, but require from him a written promise of conformity as prescribed by the office for the consecration of Bishops, to be signed in the presence of a Bishop of the Church, and transmitted to the Presiding Bishop. Upon such promise of conformity the Presiding Bishop is to give notice, and the recognition of Dr. Wilmer as Bishop of the Diocese of Alabama will be complete. 'The resolutions were adopted with but one dissenting voice. The resolutions go to the House of Bishops, as a substitute for its action. The report of the committee in favor of the division of the Diocese of Pennsylvania was adopted.

The Southern newspapers never were so crowded with advertisements as they are at present. It is no uncommon thing for the daily papers to publish supplements filled with the advertise ments the ordinary sheet could not contain. These evidences of local activity arise, no doubt, from the new condition in which the people find themselves, but they show, also, that the people have the energy to apply themselves in the peoper manner to the recovery of their true industrial position.

THE ELECTION returns from Pennsylvania and Ohio present large Democratic gains, and give evidence of the rapid advance of public sentiment in favor of the immediate restoration of the Southern States to all the powers enjoyed by other portions of the Union.

THE Jewish Messenger says that Mr. HYMAN Moses, of Cincinnati, has collected, by personal application, the sum of \$4000, to send to Jerusalem, to be expended in erecting "pilgrim dwellings" for poor Hobrews who are led from religious motives to repair to the Holy City, that they may die and be buried on its consecrated ground The New Orleans correspondent of the Boston

Post states that the citizens of Louisiana already look upon the Freedmen's Bureau as practically abolished in that State.

A dispatch dated New York, October 12th, says concerning Lieut. MAURY:

Intelligence, from Mexico, via Havana, to the 30th of September, states that Lieut. Maury, late repel official, has received from Maximilian naturalization papers, and is therefore now a Mexican effizen.

The success of the so-called Republican party in Pennsylvania and Ohio appears to us to be a matter of the least possible consequence, except to the candidates themselves. Whom Congress meets, and the policy of the President comes before it for practical action we expect to see Republicans, Union men, Democrats and Whige sus-taining him. The Radicals will stand off and will constitute the anti-administration party. All moderate and patriotic men will come together, necessarily, into an administration party, and it will make no difference by what name they may have been known heretofore. The elections which have Just occurred are, therefore, we repeat, of no gen-

consequence. A society of French antiquarians is striving to prove that Joan or ARC was not burned at all, but I was married, had children, and died quietly at Metz. They have published one extract from the Mercure Gulani, of October, 1686, edited by Vize. We hear read that one Father Vionies, of the Oratory, discovered at Motz, and had franscribed abefore a notary public, a manuscript, which states bliat in 1486 Joan came to Motz, wherquier two brothers met her, and at once recognized har, s though they thought she had been durned long ago. By and by she marrice Mons. Des Anoistes, chevaller, and Father Viction is hicky endigh to find the vot marriage court ett, ested 1436. THE VIRGINIA ELECTION.

ETURNS FROM RICHMOND AND LYNCHBURG-B. BARBOUR, CHARLES, L. MOSBY AND JOEL H. WOGUE ELECTED TO CONGRESS—ADOPTION OF THE CONSTI-TUTIONAL AMENDMENT REMOVING DISABILITY FROM HOLDING OFFICE FROM TROSE WHO PARTICIPATED IN THE REBELLION, &C.

(Correspondence of New York Herald.)

THE VIRGINIA ELECTION—THE RICHMOND RESULT.
RICHMOND, Va., October 12, 2 P. M.—It takes
much longer to ascertain the result of a general
election in this State than the conclusion of a general ballot in Oregon, including the time consumed
in transmittal from the far off Pacific coast. Up
to this writing the indications are that you may
rely upon the election of the following named gentlemen in this District: For Congress, B. J. Barbour. To the House of Virginia Delegates there is
now no doubt of the election of N. M. Lec, Ready
R. Grattan and Littleton Tazewell, from the city
of Richmond, and Franklin Stearns for the county
of Henrico. THE VIRGINIA ELECTION-THE RICHMOND RESULT.

of Richmond, and Franklin Stearns for the county of Richmond, and Franklin Stearns for the county of Henrico.

It is conceded that John H. Gilmer will be elected to the State Senate over Charles Palmer, the well known and universally admitted Unionist.

N. M. Lee, one of the successful candidates for the Virgimia House of Delegates, was a nigger trader in this city for many years, and beats his loyal opponent handsomely.

Mr. Grattan is an old Virginia lawyer, and formerly the State law reporter.

Littleton Tazewell is full of the blood of the first families, and was elected Commonwealth Attorney at the election, which was subsequently erased by General Turner.

at the election, which was subsequently erased by General Turner.

Mr. Franklin Stearns is everywhere recognized as always having been a stanuch and uncompromising Unionist.

The following are the majorities in the different wards up to this writing, and may be relied upon: Tazewell, 366; Grattan, 304; Evans, 264; Lee, 404.

The defeat of Mr. Charles Palmer for the Senate is a most disastrous indication. Mr. Palmer is the distinguished Unionist who some weeks since was introduced to President Johnson and his Cabinot, at the Executive Mansion, and largely complimented for both his exalted character and services to the Union throughout the late war in Richmond. The election throughout the State will evidently be significant beyond common expectation.

RETURNS FROM THE STATE.

The returns are favorable to the election of Charles L. Mosby, the eligible candidate of the Fifth (Lynchburg) district. Joel H. Hogue is probably elected in the Eighth District.

THE CONSTITUTIONAL AMENDMENT Is adopted by an almost unanimous vote. It re-moves disability from holding office as applicable to those who prominently participated in the re-bellion.

THE NEGRO AND THE GOVERNMENT LOANS

THE NEGRO AND THE GOVERNMENT LOANS.

Facts are developing the ability as well as the disposition of the negro to maintain his manhood. I have it from an authoritative source that out of the amount of \$8,000,000 of the several government loans subscribed for in Eastern Virginia, more than \$3,000,000 have been taken by freedmen; and that the remainder (\$5,000,000) has been taken by Northern men doing business in this State; and, so far as the records show, not one dollar by a white native Virginian.

LETTER FROM GENERAL BRISCOE.

I have received a letter from General J. B. Briscoe, now on trial at Washington for larceny of United States moneys and bullion, dated Old Capitol prison, in which the General asks a suspension of judgment on the part of his military friends until the evidence for the defence is taken. He adds: "I merely wish to say to you that when the evidence is all taken some facts will be discovered of which you and the public are at present ignorant, and which will, I trust, tend to place my case in a far different light than it is now in."

IN THE INTEREST OF LATE INION PRISONERS.

IN THE INTEREST OF LATE UNION PRISONERS. General John E. Mulford, agent on the part of the United States for the exchange of prisoners, is about to make a most important report to the Secretary of War and Lieutenant-General Grant, touching the interests of late Union prisoners of war. General Mulford is now, and for months has been, engaged in closing up the affairs of his De-partment.

THE FOUR RACES.

We take the following from the Richmond Whig, of the 13th inst:

of the 13th inst:

"Mr. Bowles, in a recent letter to the Springfield Republican, speaks of the Chinese population in the Pacific States, now humbering not far from eighty thousand, and rapidly increasing. They are a very industrious people, frugal, orderly, inoffensive, minding their own business, and yet they are the subjects of constant abuse and illusage on the part of the dominant race among whom they live. They are not allowed to vote, their testimony is not received in a court of justice against a white man. If they engage in mining, they are subject to a heavy tax, and their daily life is embittered by insult, contempt, and not unfrequently personal outrage. Upon the recital of these facts, the Boston Courier remarks, this is a sad record, but 'it does not surprise us. It is but a renewal of the leason which history teaches on every page—that stern leason of race without which the teachings of history can never be learned, or the problems of politics solved.

We have at this moment on the soil of the United States, mon of four different races—white, red, yellow and black, or, in other words, the Caucasian, the American, the Mongolian and the African. The Caucasian is represented by the so-called Anglo-Saxon race, which has been always remarkable for the care with which it has kept list blood pure and unmixed, and for the haughty, inflexible and stern countonance it has turned towards every inferior race with which it has kept list blood pure and unmixed, and for the haughty, inflexible and stern countonance it has turned towards every inferior race with which it has been brought into contact. How has the white man has always been his chemy, the red man would never be the white man has a set limself with the dogged determination with which he has felled the forests and plowed the fallows, and at this moment the process is going on in the far West with most satisfactory to the white man has a transit his will and combelled to work for him. "Mr. Bowles, in a recent letter to the Springfield

The yellow man has come from Asia of his own accord. The is industrious, frugal and harmless.

He is ready to labor to the utmost extent of his

He is ready to labor to the utmost extent of his capacity, and willingly engages in thosa repulsive sind-disagreeable forms of lator from which the haughty and dainty, white man recoils. Him the white man, on those conditions, allows to five, and nothing more. He gives him the lowest wages and the worst treatment: He never recognized between him and them the tie of a common humanity. Every day and every hour he drives into his souldies iroli of contents. The gellow man's made to understand, in a thousand ways, that he must never aspire to a social, civil by political equality with the white man.

Corron.-The Washington correspondent of the Philadelphia Lelger says.

Cotton.—The Washington correspondent of the Philadelphia Lelger says.

I learn that the Treasury Department has decided against the proposition to tax all cotton in the interior of the South twenty per cent. This tax was said to have been suggested by "numerous factors in Mississippi," and the object was to protect the Government and secure to it, if not the cutton itself, which came into possession by the surrender of the rebel armies, at least a partial equivalent therefor. Gen. Sheridan backed up the suggestion as a good one, but the Treasury Department has failed to look upon it in the same light, and it will not be carried out.

On the contrary, I am informed that instructions have been issued to the recognized agents of the Government and to take a bale of cotton that had been impressed by the late rebel government, until it could be proved that the parties who owned it had received an equivalent therefor from the Richmond authorities. In such case the cotton would revert to the United States as its lawful property; but where no payment had ever been made, the cotton, even though it had been impressed, was not to be touched.

This action of the Treasury is a highly favorable one for the South, and the most dishonest holders of the staple could use it to their advantage, were they disposed to do so, for how are we to get the proof as to what cotton was paid for by the rebel authorities, and what was not?
