

LOCAL MATTERS.

CORONER'S INQUEST.—A coroner's inquest was held on last Thursday, 28th instant, on Bennett's Wharf, west end of Bull-street, on the body of Isahem (colored), who was accidentally drowned by the sinking of a flat laden with wood.

An inquest was also held at No. 39 King-street, on the body of Charles Washington (colored), who was killed at a dance in the premises situated on the northwest corner of Meeting-street and Smith's lane.

SEARCH, OVERTHROWN.—The clerk of the Weather, who has been performing sundry tricks of late—first giving us ten days' worth of rain, then a diminutive piece of sun, then, presto! more rain again—has become jealous of SEARL, the trick he has performed, and the audience he has drawn.

WE LEARN from a Florida exchange that arrangements have been made for the bringing out of colonies of German emigrants to Middle Florida, and that, during next month, a vessel will arrive at St. Marks with the first instalment.

WE ARE requested to call attention to the meeting of the Medical Society, advertised in another column. The regular hour is 7 o'clock P. M., but it was deemed advisable to change it to 1 P. M., on account of the New Year's holiday.

IN OUR columns, to-day, will be found the form for tax payers to make up their returns, and the assessment that, by law, will be made on the different taxable articles. We are informed that the Commissioners' office will be opened on Monday, the 1st January, for the receipt of returns, at Market Hall, on Meeting-street. It will be well for tax payers to make a note of this.

WE ARE pleased to notice, by the advertisement in today's paper, of the removal of Mrs. C. H. PLANE's boarding establishment to that pleasantly situated residence, at the southeast corner of Meeting and Market streets. We have no doubt she will fully carry out, in her new house, her reputation of keeping a first rate house.

GAS BURNERS.—Dr. GARLAND's improved check gas burners can be had at the store of D. STRAUSS & BROS., No. 192 King-street, for three days longer. We are using these burners on all our pipes, and are saving from twenty-five to thirty per cent. over the common hollow burners formerly used in our office.

THE MAN who can write a good hand, calculate readily, and keep a set of books properly, is ready to embark in almost any business, either as clerk or proprietor. To acquire these three great essentials to a first-class business man, it is simply necessary to enter the commercial academy of the PELTOR BROTHERS, and pay attention to what is taught therein. The ladies can become adepts in the chirographic art, under the tuition of Mrs. STEPHEN E. PELOT, who, as a professor of that beautiful art, is unequalled, we sincerely believe, by any one living.

BALTIMORE, CHARLESTON AND HAVANA STEAMERS.—We are confident that many of our readers will take pleasure in perusing the advertisement of the Baltimore, Charleston and Havana Steamship Company. It must certainly be exceedingly gratifying to learn that our good city is to be placed in direct communication with the city of beautiful ladies, as well as with the land of luscious fruits. With a first class iron side-wheel steamer like the Isabella, and with such affable and energetic agents as Messrs. CROSSLAND Brothers, this line must rapidly grow into popular favor. The first steamer leaves Baltimore to-day, due here on Tuesday next, to leave for Havana a few hours after her arrival at this port.

IN our columns will be seen an advertisement of Messrs. W. M. BRAD & CO., relating to MANNING & CO.'s safes, for which they are the agents in this city. These safes recommend themselves over others in many valuable points, and it is generally conceded that they are much superior to any manufactured. While in New York some months since, we were making considerable inquiry among commercial men as to whose safes were most reliable, and we were almost uniformly advised that MANNING'S were. We have one, and like it very much. We believe their qualities were well tested in the late destructive fire in our street, and have no hesitancy in recommending them, so far as our knowledge extends, to those of our readers who may be desirous of purchasing.

FORBES & GUILLEMIN.—Our readers, by referring to the third page of this issue, will find a double column advertisement of these young gentlemen, who are prepared to do all kinds of work in the gas or tinning line, that their friends or the public may desire of them. By a system of moderate charges, and a determination to give entire satisfaction to those who may employ them, they intend to obtain the full confidence of the people of Charleston among whom they were born and raised.

RIOT IN WILMINGTON.—The Journal of 28th inst. says: About half past eleven o'clock last night, a party of the colored crew of the revenue cutter lying in the stream opposite the city, who had been on liberty during the day, in passing a crowd of white and colored citizens near the market, commenced firing upon them, wounding Captain Hannon of the police in the hip. The rapid pistol reports brought several police to the spot, when the sailors ran to the front of Market-street and seized a boat from the ferryman, and pushed into the stream. Just as they were in this act they were fired upon by one of the police, but it is not known whether any injury was inflicted upon them or not. They, however, made their escape to the cutter, leaving one of their number in the river near the dock, who was either wounded in the neck, or accidentally fell overboard from the boat.

THE Richmond Examiner calls for radical legislation in reference to the payment of debts, as follows: However redundant the currency may be elsewhere, we all know that it is not so in the rural districts of Virginia. The people here had little or nothing to sell, and if money was as plenty as blackberries elsewhere, it would be scarce where there was nothing as yet for sale. If the judgment of the courts were enforced, much of the rural population of Virginia will be sold out, and few honest industrious country people can be purchasers. With the large amount of property that will be forced into market, and the small amount of money in the hands of the rural population, the inevitable change of country property-holders will be effected.

JOHN C. BRACKENRIDGE.—A correspondent of the Cincinnati Enquirer, writing from Toronto, Canada, gives the following information concerning several Confederate officers: I met here General John C. Brackenridge, General McCausland, Colonel Harry Gilmore, Major John (Caldwell), Captain Hinder, and others who had been officers in the ranks of the Confederacy. General Brackenridge looks well and is in perfect health. It was reported during the war that his hair had turned from jet black to silver white. That was a mistake. He is a few gray hairs on his temples, and that is all. He is kept in a healthy home in a humble, retired way. He is much respected by the citizens, and is invited to give or three parties a week at the residences of the first families. It is a great pity that the weather, which is so fine a day, while the weather permits such excursions. He is a student, reading a great deal. I could not but think that it is a misfortune that a gentleman of his culture and intellect should be lost to his country.
