SPECIAL NOTICES.

UNRIVALED.—Nothing that has ever been known or heard of as a tonic adds so much to the resistant power of the human system, under circumstances unfavorable to health, as **HOPKINSON'S STOMACH BITTERS**. If you would escape the intermittent fevers, fits of indigestion, bilious attacks and bowel-complaints, of which cold and damp are the frequent causes, use the BITTERS as a PROTECTIVE MEDICINE. This is the wisest course; but, if already an invalid, try the preparation as a RESTORATIVE. In either case full reliance may be placed upon its efficacy.

There is no mystery about the causes of its success. It is the only stomachic and alterative in which are combined the grand requisites of a mild, pure and unvitiated vegetable stimulant, with the finest selection of tonic, anti-bilious, anti-acid, aperient and depurative herbs, plants, roots and barks that have ever been intermixed in a medicinal preparation.

The Bitters have this distinctive quality, which is not shared, it is believed, by any tonic, tincture or extract in the world: It does not excite the pulse, though it infuses a wonderful degree of vigor into the nervous system, and strengthens and sustains the whole physical organization.

California and Australia have emphatically endorsed it as the MINER'S MEDICINE *par excellence*, and in Spanish America and all the tropical climates, it is considered the only reliable antidote to epidemic fevers.

The already immense and still increasing consumption of **HOPKINSON'S STOMACH BITTERS**, backed by many of the most illustrious physicians throughout the country, should convince the most skeptical that it is worthy the confidence and approbation of all.

"**MANHOOD.**"—Another New Medical Pamphlet from the pen of Dr. Curtis. The Medical Times says of this work: "This valuable treatise on the cause and cure of premature decline shows how health is impaired through secret abuses of youth and manhood, and how easily regained. It gives a clear synopsis of the impediments to marriage, the cause and effects of nervous debility, and the remedies therefor."

A pocket edition of the above will be forwarded on receipt of 25 Cents, by addressing Dr. Curtis, No. 53 North Charles street, Baltimore, Md. May 27 1y

A MATTER OF INTEREST.

REV. Dr. Cumming, of London, says: "The assurance of life is one of the most CRUSH ONE FAMILY and spreading it over twenty thousand families; so that a mere drop lights upon each, instead of the overwhelming torrent falling upon one. It seems to me a beautiful illustration of bearing one another's burdens. And, therefore, let every young man entering upon life, every head of a family, whether high or low, set his house in order so far as to assure his life."
Thousands of widows and orphans live to attest the divine beneficence of LIFE INSURANCE. Without its protecting arm, many of them would, to-day, be beggars upon the streets, or occupants of poor-houses and penitentiaries. No man can foretell what will be his circumstances at the time of his death. The rich man of to-day dies the pauper of to-morrow, and the family, delicately reared, become the unprepared victims of dire Want, with her train of countless evils. Such a result is impossible, with a policy of Life Insurance. It, indeed, offers the only absolutely safe investment which can be made for the benefit of one's family and of his own old age. All other investments may result in loss or ruin. If all would insure, who can calculate the immense suffering and crime which the world would be spared!
