THE PORTA PLATA REVOLUTION—FAILURE OF CREWS, HABICHT & CO.—DEPARTURE OF INSURGENT VESSELS FROM ALICANTE—APPOINTMENT OF SPANISH OFFICIALS.

PORTA PLATA, September 18.—The revolutionists, led by Gen. Garcia, formerly an adherent of Baez, are succeeding. The revolutionists cry, down with Samans Convention and Baez.

MADRID, September 24.—It is stated that the insurgent vessels have left Alicante for Cartagena. The Epoca applauds Yelverton for preventing the bombardment of Alicante. Nouvilles has been appointed President of the Supreme Council of War; General Pavia, Captain-General of Madrid, and General Gonzalez, Captain-General of Cuba, vice General Peltier, recalled.

It is said the insurgent frigates left the harbor of Alicante because the foreign Consuls, except the representative of Great Britain, protested against the bombardment of the city. The British Consul, for some unknown reason, refused to join in the protest.

LONDON, September 24.—Clews, Habicht & Co. have decided to suspend. A Berlin despatch announces the failure of a bank in that city. Clews, Habicht & Co. are liable on account of Henry Clews & Co. for \$240,000. Their own liabilities are \$84,000, which they can meet, but not those of Henry.

A special despatch to the Times, from Alicante, of later date than the despatch from Madrid, denies that the insurgent vessels have left there. It says they are yet in the harbor and will commence the bombardment of the city to-morrow.

FURTHER FINANCIAL DIFFICULTIES—YELLOW FEVER IN BROOKLYN, MEMPHIS AND VICKSBURG—ADDITIONAL LOAN CERTIFICATES IN NEW YORK—BANK SUSPENDED FOR COLLATERALS—MORE HANDS DISCHARGED—SUSPENSIONS IN RICHMOND—MARINE DISASTER—WIFE MURDER AND SUICIDE—FINANCES IN CHARLESTON, S. C.

NEW YORK, September 23.—Midnight. The failure of Henry Clews & Co. left the street, at the close of business, in a state of wild excitement, and the headway made in restoring confidence up to 1 o'clock to-day has been lost. Many damaging rumors are again current. A report was circulated that Jay Cooke, McCallum & Co., of London, are throwing out drafts drawn by Jay Cooke & Co., which have come to hand since the news of the suspension was received; but the rumor can be traced to no authentic source. Speculative stocks unquotable at the close of business. After the suspension of Clews & Co., two per cent. per day was offered for money, but no regular price was established. Today, lenders are making their own terms. The Cashier of the Fourth National Bank, which threw out Clews & Co.'s checks to the amount of \$200,000, says the bank did so simply because their account was not good. There was no over-draft, but would have had the bank allowed it.

RICHMOND, Va., September 23.—The feeling here this afternoon has been one of nervousness, resulting principally from the news from Petersburg. There are no runs on any of the banks—in fact, some of them claim to have done more business in receiving deposits than usual. The Directors of the Dollar Savings Bank have decided upon suspending to-morrow. The President states that the assets are more than enough to pay all depositors, but being principally in collaterals, they are not immediately available. A meeting of officers of the Bank National Banks and of the State Bank of Virginia, and the Merchants' Banking and Insurance Company, this evening, resolved to sustain each other. They expect to have sufficient funds to-morrow to stand any run that may be made. Public confidence in the banks appears to be generally unshaken.

MEMPHIS, September 23.—Midnight. Finances feverish. Comptroller Knox and all others are surprised at the Petersburg, Va., suspensions. They have hopes that railroad complications of a local character have led to the disaster, and that it will not spread.

NEW ORLEANS, September 24.—Rev. Soumeider, of St. Alphonse's Church, is dead.

VICKSBURG, September 24.—Three fatal yellow fever deaths yesterday.

ALBANY, September 24.—Nine yellow fever deaths yesterday.

NEW YORK, September 24.—10 A. M. The \$10,000,000 loan certificates having become exhausted, it is asserted that the banks will issue \$10,000,000 more to-day. The Bank of the Commonwealth has been sued for collaterals which they cannot produce, upon the tender of the amount loaned.

Carleton, Secretary of the Union Trust Company, has friends who are in treaty with the bank for a settlement of his defalcation. Henry Clews claims that his securities are far more ample in ordinary times; he may resume when the money market improves; they have published their correspondents, which include twenty-four National and State banks and 158 private bankers.

There are rumors of yellow fever in Harrison street, Brooklyn—one fatal and two closely quarantined.

It is stated that Western shippers of grain are advised to hold off, on account of difficulty to meet sight drafts. The Stock Exchange remains closed until further orders. The Sub-Treasurer is offering no bonds this morning; feeling is excited. Western Union, 62 bid—64 asked. Howes & Macy have suspended.

12 M.—The Sub-Treasurer bought \$500,000 in bonds. The bank presidents have authorized the issue of another \$10,000,000 in loan certificates. Macy, of Howes & Macy, says all houses like theirs, having a large number of depositors, must suspend.

The suspension of Brown & Watson is reported. At 2 o'clock, all was quiet about the savings banks throughout the city. No suspensions of payment has occurred to-day. The directors appear to be more confident. \$2,500,000 loan certificates were issued by the Clearing House. The Government bought over \$2,500,000 in bonds.

8.50 P. M.—The street is very quiet at this hour; the day closes hopeful, but rather gloomy.

WILKESBARR, Pa., September 24.—Brown & Gray attribute the failure to Henry Clews. The miners were large depositors.

CHICAGO, September 24.—Bank business good and a comfortable feeling prevails.

HALIFAX, September 24.—Brown won by several lengths.

PATERSON, N. J., September 24.—415 locomotive men were discharged from the Rogers locomotive iron works to-day—making 1,000—two-thirds of the force.

WASHINGTON, September 24.—The Freedmen's Savings Bank is enforcing the legal thirty days' notice for depositors.

MILWAUKEE, September 24.—The Chamber of Commerce adjourned to Monday, 29th. The resolutions do not interfere with former contracts, but recommend that all outside trading cease.

CHARLESTON, September 24.—Money is so stringent here that no obligations are contracted, and all business is limited in amount. There is some demand for cotton, at low figures, but the difficulty in negotiating exchange stops sales, and the relief from that source is so slow in coming, that factors would, at the moment, accept low rates for most articles of produce. Paper falling due is renewed in full, or with a small payment on account, and creditors are disposed to be indulgent. No failure has been reported. The banks pay checks as usual and there has not been the first symptoms of a run.

RICHMOND, Va., September 24.—The Dollar Savings Bank closed this morning. Isaacs, Taylor & Williams, bankers, suspended, on account of scarcity of currency. The assets are double the liabilities in both the above concerns. The stone-cutters employed at the Government stone yard were depositors to a large amount. There is considerable excitement in the neighborhood of the various banks, and a run of small depositors on the banks, but all are holding out as yet, and will doubtless weather the storm through the day. The Freedman's Savings Bank require legal notice, as also the private institutions. A general meeting of the members of the Chamber of Commerce, Corn Exchange, Tobacco Association and the leading merchants was held at 1 o'clock, to consider the state of affairs and adopt some measure to strengthen public confidence. It was the largest gathering of the kind ever held in Richmond. The greatest interest was manifested to prevent a financial crisis. A series of resolutions was adopted with great unanimity, in effect as follows: That the present condition of affairs in Richmond has arisen from causes and influences external to banking and mercantile business, and is in no wise attributed to irregular operations or undue expansion on the part of the banks or merchants; that the banks of the city are at present believed to be of undoubted solvency, and that no loss can result to creditors, if the banks are allowed to proceed as heretofore; that the meeting deprecates the uneasy feeling prevailing in the city, attending to produce a panic and a run on the banks, thereby being likely to cause their suspension, as well as to arrest and overthrow all business; that in view of the undoubted solvency of the banks, and to prove their confidence therein, the members of the meeting pledge themselves to abstain from running the banks, and confine themselves to strictly regular and necessary checks and drafts in the course of business—making them as limited as practicable, and continue as heretofore to make deposits; and that they urge upon all persons having business with the banks to pursue a like course of confidence, thus avoiding the greatest contingencies of prostration and disaster. No further suspensions reported. The banks all held out till the closing hour, paying up promptly. The excitement has greatly subsided.

ALBANY, September 24.—Thomas B. Parker shot his wife, this morning, and then blew his brains out—cause jealousy. The parties are very wealthy. The wife is supposed to be mortally wounded. The tragedy causes intense excitement.

UTICA, N. Y., September 24.—The Republican Convention nominated Francis A. Thayer for Secretary of State; Nelson K. Hopkins for Comptroller; Daniel G. Fort for Treasurer. Stewart L. Woodford was the permanent President of the convention.

WASHINGTON, September 24.—The American schooner Addie Osborne, from Provincetown, Mass., sunk near Cape Breton, by collision with the British steamer Precursor, on the 14th. Twelve were lost, including the captain and mate of the schooner; none lost on the steamer.

Commissioner Douglass has been informed of the defalcation of Collector Widmer, of the Second District of Alabama. The defalcation is supposed to be about \$20,000.

Probabilities.—For the South Atlantic and Gulf States, East of the Mississippi, gentle and fresh winds, mostly from the South-east and South-west, generally cloudy weather and rain areas.

A WOMAN HORSE THIEF HANGED IN TEXAS.—Nancy Hill, the notorious female horse thief and ringer, was hanged about six miles from Montague, Texas, on Denver creek, several days since. Her body has just been discovered suspended from a post-oak. Her saddle and bridle were lying near upon a rock, and her pony was found a mile or so away. It is supposed that Dave Porter, her consort, was killed at the same time, but his body has not as yet been found. The woman Hill and Porter were together only a short distance ahead of their pursuers when last seen, which was at Victoria Peak, on Thursday evening last.

An Englishman writes to the New York Tribune, stating that he has at last discovered the secret of the Yankee nasal twang. He has found that the Counties of Norfolk, Suffolk, Essex and Middlesex, in England, have a nasal twang, and that the ancestors of the people who live in the Counties of the same name as the above in New England came from these Counties, and brought their twang with them, and their descendants have become so impressed with the accentuation and tone, that they can't get rid of it. The theory is a very plausible one.

An engine of a new description for use on street railways has been on exhibition in Hamilton, Canada, on the line of the Hamilton and Lake Erie Railway. The great desiderata of no steam, smoke or noise, which hitherto have been the drawbacks to using steam power on common roads, it is claimed, have been overcome completely, which probably is only measurably true.

Hon. Benjamin F. Butler says that the purchasing power of a dollar is less now than in the days of George Washington. We think not. Now-a-days you can buy an average Congressman for \$5,000 (witness the back pay grab), and they have ruled as low as \$325. You couldn't have bought one in G. W.'s time for any price.—Boston Herald.

Yellow fever is reported to have broken out at nearly every little station on the line of road from Pensacola, Fla., to the junction of the Mobile and Montgomery and Pensacola and Louisville railroads. Everybody is leaving as fast as possible. Mr. Sam. Christian, the telegraph operator at the junction of the two roads, has died of the fever.

The Nathan mansion, which has stood vacant ever since the mysterious murder, will probably be sold at auction, as it seems impossible to obtain a desirable tenant. The owners complain that the constant revival of the tragedy by the arrest of suspected or self-proclaimed assassins has nearly ruined the property.

Frederick William, Elector of Hesse Cassel, has formally recognized and consented to the annexation of his territory to Prussia, and renounced his right of property in the revenues of the electorate. In compensation for which the Prussian Government has granted him an annuity of 2,000,000 thalers.

The giant mule, supposed to be the largest living specimen, is now exposed for sale at Einstein's market, Newark, N. J. This mule was grown in the far West, is now six years old, stands 17 1/2 hands high, and weighs 1,635 pounds.
