tion, and in this connection Mr. Marey remarks :

"The correspondence between the government and the legations of the United States must be guarded with utmost secrecy even as telates to our own citizens. To submit it to the examination of a foreigner will as an indiscretion in the offender, demanding immediate deprivation of office. The first duty of a subject is considered to be fidelity to his sovereign. Foreign clerks may justly be regarded as unsafe depositories of the secrets of our diplomacy in the legation revelation of our secret State papers may occur in subject, and require the strict observance of the above instructions."

PROSPECTS OF WAR .--- A recent correspondence of Ios in the Baltimore Sun, takes the following view of some of the most plausible Caysus belli at present existing both abroad and at home:

Advices received by mercantile bouses in Bostoa and New York, from their European correspon leuts, go to show that there is no probability of a war between Russia and Turkey, or any other war, notwithstanding the signs of the times. It is said, also, to be the opinion of the Cabinet at Washington, as derived from their European advices, that war will not occur. In fine, a war in Europe at present is generally considered to be, to use the words of one of her statesmen, "an impossibility."

The rumored alliance between Spain and Santa Anna, is so far improbable that we can get no war out of that. A great deal is to be made however, out of Uncle Tom-Cabinism, and it is already declared, in at least semi-official quarters, that in that new demand lurks a causus belli. If we consider the Stafford House concern as the British government, and remark upon the sympathies between the lady monarch and ORDER No the lady agitators, we must admit that, at best, "war is inevitable."

The demonstrations in favor of Mrs. Uncle Tom, added to the rumors of British designs for the abolition of slavery in Cuba, are already considered as an adequate justification of the proposition for our government to take the initiative in the war impending, by the immediate seizure of Cuba.

The Fishery question is, after all, the nearest chance for a war at present, and if we cannot get it out of Tom Cabin, we may get it out of Tom Cod.

The American fishing vessels have gone out well armed and well manned, and a great number are to follow during the next month. They will resist what they consider the aggressions, and I have no doubt they will construe the convention of 1818 to mean that they may, as heretofore, fish where they please. A single fishery vessel may not undertake to resist a ship of the line or even an armed cruizer, but a number of them combined may be able to make reprisals both ashore and at sea; and this, as I learn from good authority, it is their purpose to do.

To the Physicians of the State of

South Carolina.

WOLFE'S CELEBRATED SCHIEDAM AROMA-W IIC SCHNAPP.5-Deeming it unnecessar, to remind any regular member of the Medical profession of the established medical properties of pure 1-olland Gin in many diseases of dropsical tendency, I respectfully invite your examination to a very superior arti-cle, manufactured by myself exclusively, at Schiedam, in Holland, by a process peculiar to my own factory. It is flavored and medicated, not by the common harsh berry, but by the choice botanical variety of the aromatic Italian Juniper Berry, whose more vinous ex-tract is distilled and rectified with its spirituous solvent, and thus becomes a concentrated tineture of exquisite flavor and aroma, altogether transcendent, in its cordial and medicinal properties, to any Holland Gin heretofore known.

Amid the influx of inferior distillations with which the market is now flooded, physicians find no little difficulty in procuring a good and pure Gin, which CLOTHING in the country. RUBBER CLOTHING they can prescribe with confidence in its beneficial effects. As an importer of twenty year's standing. in the city of New York, and possessing a matured experience in the manufacture of HOLLAND GIN, especially I beg to submit to your attention my AROMA-TIC SCHIEDAM SCHNAPPS, as one which cannot fail to realize your utmost expectations, and I shall be happy to forward you a little of it, free of charges, in answer to a letter intimating your readiness to accept it.

It is now scarcely one year since I have prepared and distributed my SCHEDAM GIN exclusively for medical purposes; yet within that brief period, I have received numerous letters, both from physicians and patients, testifying to its really extraordinary efflency in Gravel, Incipient Dropsy, and affections of the Kidneys and Bladder generally; also in Dyspeptic Maladies, when taken in proper quantities as a Diet Drink, and especially at dinner, is found, by uniform expe-rience, to be eminently efficacious in the most obsti nate cases, when even the best of the usual remedihave failed to afford more than temporary relief, and I have no doubt that it would yield similar results with precision and certainty in your own professional experience. The Aromatic Schiedam Schnapps is put up in strong

bottles, pints and quarts, neatly covered and labelled with my name embossed on the bottle ; also a fac simile of my signature on the label, and my seal on the cork, with an essay upon its properties. UDOLPHO WOLFE,

Im orter, 22 Beaver street New York.

Extracts from the New York Medical Gazette and WITH ANY MARKET IN THE UNITED STATES. Journal of Health, edited by D. M. Reese M. D., LLD., 775 Broadway, October 1, 1852:

#### Holland Gin as a Medicine.

In our last number, we accompanied the publication of a circular on this subject, from our fellow citizen, Udolpho Wolfe, Esq., with a brief commentary, expressive of our own views. Since then we have employing this agent, and thus far with favorable re-sults. But we are in the receipt of several communications on the subject from medical men, which serve to show that Mr. Wolfe's Aromatic Schiedam Schnapps is very extensively in use, and in the hands of physicians, is proving itself, as a stimulating ciuretic, to be eminently successful, after other medica tion with this intent had ceen tried in vain. In one of the cases thus reported, abdominal dropsy has been entirely removed by the passage of a calculous of considerable size which is ascribed to the use of only two bottles of this article. We know not the object of Mr. Wolfe in designa-

ting his preparation by the singularly uneuphoneous name of "Schnapps," nor of his denominating it in his advertisements the "concentrated Tineture of Ju-niper," instead of perpetuating its ancient title of Holand Gin. It is true that he admits it to be nothing else than the latter article in its pure state, unadul-terated by nex'ous drugs; and hence he contradistinguishes it from the Gin of commerce, nearly all of which, as is well known, is manufactured here and elsewhere from inferior whiskey and refuse drugs. The name he has given it, however, may serve the purpose of designating his article as prepared exclu-sively for medical purposes, and thus commend it to physicians, for whose convenience it is on sale only by reputable druggists and apothecaries.

As respects its medicinal and curative effects, we Ladics' Elegant Spring Dress Goods understand him to claim only that it is a pure and re liable article of Holland Gin, and as such, worthy of the confidenc of Physicians, to those diseases for which they are strained by finding it impractible to obtain the arti le in a pure state. Nor should any preju-dice against alcoholic medicine deprive the afflicted of the benefit of this article, which from time immemorial has held its place among the remedial agen-cies of the Materia Medica, if it be found worthy of confidence by continued experience.

AND COMMISSION BUSINESS in this City and At all events, those who persist in the employment and toleration of other alcoholic medicines, as tine-New-York, under the firms of O'NEALE, CRAWFORD & CO. tures, bitters, &c., and especially those who prescribe Gin under any circumstances, must all unite in giving

as being in every respect pre-eminently pure, and deserving of medical patronage. It is indebted for its superiority, I doubt not, to found indebted in its superiority. I doubt not, to found indebted indeftals, and to that pertu-liatly moderate method of distillation which leaves the heatier and lets volatile essential oils, both of the barley and the her?, behind in the still. This, also, is sufficient and the herit, behind in the still. This, also, is sufficient to account for the refined around of this above other gins but in regard to the special qualities of the Italian Juniper berry, of which the manufacturer speaks in his circular. I have no chemical knowledge, ar wherein its higher oil differs from that of the Juniper's communis. I gind that cinity, that we have just fluished uppacking our new stock of SPRING AND SUMMER GOOHS, selected I have no chemical knowledge, n  $\pi$  wherein its lighter oil differs from that of the Juniperis communis. I find that the pure oil of both polarizes to the left, and yields, with hydrochlatic acid, a liquid camphor. This acid being in the stomachus a principal component of the gastric julce, probably creates this material from the oil, and renders it the valuable diffusive rimulant for which it was formerly and will, probably, again be renowned. I consequently regard Mr Wolfe's "Schiedam Aromatic Schnapps" as a valuable accession to our pharmaceutic agents: to say nothing of its comparative innocuousness to hove who use distilled liquors as a beverage. To per-sons travelling in the Southwest, where the best water frequently produces distressing and sometimes even dan-gerous effects upon persons unaccustomed to them, I should think it would be a good precautionary provision, as a counteractive or preventive of those seffects, when mixed in moderate quantities. At all events, it is the purest possiof the latest styles and fashions, consisting of all kinds of Goods for ladies' Dresses. A large assortment of Ladies' Ties. Bootees and Shoes

GENTLEMEN'S CLOTHING, (of every variety.) Hats, Caps, Boots, Shoes, &c. With a general secon-ment of GROCERIES, ILARDWARE, AND CROCK-

in moderate quantities. At all events, it is the purest possi-ble article of Holland Gin, heretofore unobtainable, and a such, may be safely prescribed by physicians. DAVID L. MOTT, M. D.

the preference to a pure article over the manifold adulterations so rife in the market. Mr. Wolfe liberally supplies physicians with a sample bottle for analysis and trial, as set forth in his circular, and stakes the reputation of the remedy upon the innocence, safety and efficiency of his Holland Gin, when used under medical advice, and pledges his own character in business that the article will not disappoint any who use it. .

From the New York Express, October 26, 1852.

# Medical Liquors.

In common, I presume, with many others of the profession, I received, some few months since, a circu-lar addressed "To Physicians throughout the United States," by Mr. Udolpho Wolfe, the importer of Benver street, inviting a medical and chemical examina tion of a new article of Holland Gin, manufactured by bimself, at Schiedam, in Holland, by a peculiar process, and put up for medical use, under the some-what Dutch title of "Schiedam Aromatic Schnapps." The circular claims for this article an eminently su perior degree of purity, aroma, flavor, and medicinal efficacy : and offers, moreover, a gratuitous supply of it to any physician who may feel disposed to test these claims in a scientific and professional manner.

Being familiar with three facts is relation to the use of Holland Gin, as a medicine, namely : first, that when pure, it absolutely invaluable and not to be exchanged for any other remedy known to the profession, in many complaints, both acute and chronic; secondly, that amid the multitude of ill-made or adulterated liquors with which this country abounds, a pure Holland Gin is scarcely to be obtained at any price ; and thirdly, that the radical impurities of any nferior or spurious Gin consist, first, of the hydra'ed oxide of Amyl, a poisonous oil, or more commonly known as Potato Spirit, Fousel Oil, or Amilic Alcohol; and secondly, of the heavier of the two essential oils of Juniper, instead of the lighter-which impurities usually result from the mercenary system of an ex-cessive distillation of the materials employed-1 re solved to accept of Mr. Udolpho Wolfe's challenge, and put his "Schiedam Aromatic Schnapps" to the test of rigid analysis. And I was induced to do this (notwithstanding the proprietor's long standing and reputed respectability as an importer) because the purity of Gin, above that of every other spirituous liquor employof Gin, above that of every other spirituons iquor employ-ed in medical practice, is of the most vital consequence to the community, inacmuch as it is subject to two distinct canses of permicious impurity, namely ; the inferior oil of Juniver, as well as the Fousel oil ; I found moreover, the "Aromatic Schnapps" strongly recommended by a physi-cian and writer of no less influence than D. M. Reese, of the Ne v York Medical Gazette, and by many of the most eminent members of the profession, who I had no reason to suppose had obtained any other than empiracal evidence of its pharm centical purity and value. I therefore re-colvest to inform medical men at least, for the sake of the solved to inform medical men at least, for the sake of the public at large, of the results of my investigation ; wheth-

solved to the results of my investigation; whether they proved favorable or otherwise to the character of thereicle and to the interest of the proprietor. Those results are as follows: Searching first for the oil of Juniper by distillation, I obtained an oil, from two quarts of the liquid, whose specific gravity was 0.832 and whose boiling point was 313 degrees, nor did successive re-distillation, yield an oil of greater gravity, or of any other kind whatever. The same quantity of common Holland Gin, so called, yielded an excessive a mount, by re-distillation, of oil weighing 0.871 with the boiling point 42 degrees; the lighter oil having previously passed over. This was conclusive as to the super ority of Mr. Wolfe's Gin in relation to the oil of Juniper, upon which the aroma, theyor, and dimetic and other medicinal properties of every kind of Gin éssentially degreed. As to the Foused oil, with which all inferior spirituous liquors are more or less impregnated, and which renders

As to the Fousel oit, with which all inferior spirituous liquors are more or less impregnated, and which renders them poisonous in the exact ratio in which they are im-bibled—which canses such liquors to intoxicate when oth-ers do n t, and creates that morbid, insatiable appetite for which the friends of temperance and philanthropy so justly complain, instead of that satisfy and fastidiousness of which the friends of temperance of pure liquors are dis-tinguished—of this felid, acrid asthmatical Fousel oil, if found no trace in Mr. Wolfe's medicinal Gin, although I repeatedly tested various quantities of it with the chloride of calcium, by the usual process, which so readily detects and obtains it in the ordinary spirituous liquors. Accordingly, Used beind theory that a signal this Gin

CARTER'S SPANISH MIXTURE.

The great Spring Medicine and Purifier of the Blood is now used by hundreds of grateful patients,

who testify daily to the remarkable cures performed by the greatest of all medicines, Carter's Spanish Mix-ture. Neuralgin, Rheumatism; Serofala, Eruptions ou

the Skin, Liver Disease, Fevers, Ulcers, Old Sores, Ai-tions of the Kidneys, Diseases of the Throat, Female.

Complaints, Pains and Aching of the Bones and Joints, are speedily put to flight by using this great and in-

For all diseases of the Blood, nothing has yet been

found to compare with it. It cleanses the system of all impurities, acts gently and efficiently on the Liver

and Kidneys, strengthens the digestion gives tone to the Stomach, makes the Skin clear and healthy, and

restores the Constitution, enfeebled by disease or bro-

ken down by the excesses of youth, to its pristine vi-

For the Ladies, it is incompatibly better than all the cosmetics ever used. A few doess of Carteria

Spanish Mixture will remove all sallowness of com-

plexion, bring the roses mantring to the check, give

elasticity to the step, and improve the general health

in a remarkable degree, beyond all the medicines ever

performed on persons residing in the city of Richmond Va., by the use of Carter's Spanish Mixture, is the

best evidence that there is no humbag about it The press, hotel keepers, magistrates, physicians, and pub-lie men well known to the community, all add their

testimony to the effects of this Great Blood l'urifier.

### THE MOULTRIE HOUSE. SULLIVAN'S ISLAND.

THE subscriber begs respectfully to inform his nu-merous friends and the public generally, that be has taken a lease of this delightful resort, which he will open for the reception of visitors between the 22d inst. and the 1st July next.

The subscriber is now engaged in proctining new furniture, &c., of the most elegant description, and is determined to spare no expense to render this Establishment one of the most agreeable and desirable Summer Residences in the United States.

The Moultrie House can accommodate two hundred guests, and is most pleasantly situated, fronting and within a few yards of the ocean, the invigorating breezes from which prove equally beneficial to the

seeker for health or pleasure. Of anuscments there will be no deficiency, 4 Bil-liard Tables, and 3 Bowling Saloons being on the premises, in addition to which Horses and Carriages can be procured at any moment in the immediate vi-cinity of the House, thus enabling visitors to avail themselves of the delightful rides and drives that the magnificent Beach affords. Boats also, for the conve-

nience of Fishing Parties can always be obtained. The Table will be supplied with every delicacy that the markets of New-York, Ilavana, Key West and Charleston can furnish, and the Bar will contain none but the choicest Liquors.

The Subscriber's long experience in the business justifies him in saying, in conclusion, that nothing will be left undone on his part, for the comfort and gratifi-cation of his visitors, and his chief care has been to procure assistants and servants who can be depended upon.
