# Poetry.

*For the Camden Journal.*

**TO MISS H..... G....., OF CAMDEN.**

Of all the jewels that adorn
And beautify the fair,
Thou hast one brighter than the rest,
A gem both rich and rare.

'Tis not of gold or rubies form'd,
Nor of the diamond bright,
But far outshines the diamond's rays
With brilliancy and light.

Thou hast a mind that far exceeds
The sheen of richest gold,
And sparkling, glitt'ring rays of wit,
Which are not bought nor sold.

In thy fair bosom is contained
Thy soul; a brighter gem
Than is enthroned with precious gold
In monarch's diadem.

We should prefer a spotless heart,
A pure and fearless mind
To diamond rich, or all the wealth
"Of Ormus or of Ind." W.

**LINES.**

I never knew how dear thou wert,
Till thou wert borne away!
I have it, yet, about my heart,
Thy beauty of that day;
As if the robe thou wert to wear,
In other climes were given,
That I might learn to know it there,
And seek thee out in heaven!

I think upon thy priceless gain,
Whate'er to me it cost,
And fancy dwells with less of pain,
On all that I have lost;
Hope—like the cuckoo's endless tale—
Alas! it wears her wing!—
And Love, that—like the nightingale—
Sings only in the spring!

When the stars are all like dreams,
And the breezes all like sighs,
And there comes a voice like far off streams,
Like thy spirit's low replies!
I hear thy low, sad tone,
And thy own sweet smile I see—
My heart—my heart were all alone,
But for it, its dreams of thee!

# For the Farmers.

## The Culture of Sea Kale.

Why the culture of the *crambe maritima*—this delicious vegetable should have been so long neglected, we do not know, but from the frequency with which it is met in the New York markets for two years past, it seems that its value is better appreciated now than it was a few years ago. The following directions for its cultivation will be of use, we believe, to many of our readers:

The best soil for the successful production of sea kale is a rich deep sandy loam, though ordinary garden soils, if mixed with a good proportion of sand and well manured, will answer the purpose. Stiff or wet soils should be thoroughly prepared, by trenching to the depth of from two to two and a half feet and thoroughly mixing with good compost manure, thereby rendering top dressing sufficient for after culture, and saving the roots from disturbance.

Sea kale may be raised by seed, root-cuttings, or off-sets; but the seed is by far the most preferable. Sow in April or May, thinly in drills, three or four feet apart and two inches deep, ultimately thinning out to fifteen or twenty inches in the rows; which, in order to insure against injury the first winter, should not be done until the plants are one year old. In the fall the ground must be thoroughly cleaned from weeds, and the surface well stirred, either with a two pronged hoe or still better, with a fork, to the depth of four or five inches; after which a covering of fresh stable dung six inches in depth should be laid on, and left so until spring, when the rows should be dressed just before the plant comes through the ground, as follows, viz: after raking off the rough part of the covering, point in with a fork the short part of it, taking particular care not to wound the the roots; at the same time scatter a little earth upon the crowns of the plants.

In inland places salt may be used to advantage as an invigorator. The third year after sowing, it will be fit for use; and to prepare it for the table, blanching must be attended to as follows: As soon as the leaves appear above the ground a few inches, they should be earthed up and large flower-pots inverted over them, taking care to exclude light by stopping the hole in the bottom of the pot, and then to guard against sudden changes in the weather, cover the pots entirely with soil. When the sprouts have sprung up to the height of from eight to twelve inches, they are fit for use, and should be cut off with a knife without injuring the crown of the root; after which they may be prepared for the table in the same manners as asparagus.

In case pots cannot be had, other methods may be resorted to, such as earthing up, as the plants advance, once in four or five days, or by hooping over the beds or rows, and covering with mats; but if possible, the pots are decidedly preferable, and will repay the trouble or expense of procuring them. In blanching without pots, sand is sometimes recommended for earthing up: but it is difficult to clean the sand thoroughly out of it.

Throughout Great Britain and Ireland, sea kale is very extensively used; some think it not inferior to asparagus, others prefer it in soup to any other method of consuming it. They however, sow the seed early in the spring, and transplant in the month of May, as we do with cabbages. They take off the lower sprouts on the stock as it grows up, and use them in soup when tender, but not after the month of July, until the early frost which improves instead of injuring them. It is a hardy vegetable and may be kept in the garden all winter, and used as it is wanted. The treatment of it to blanche it, is quite an improvement—a gardener's discovery, which is well worthy of attention.—*Selma Reporter.*

*From the Farmer and Mechanic.*

## Soap Suds.

The value of this liquid as a stimulant of vegetation does not appear to be generally appreciated by our Agriculturists, many of whom make no use of it. [illegible] well known habits of [illegible] thieves. [illegible] a store [illegible] condition, [illegible] absorption and [illegible] particularly the roots of plants. Besides it value as a powerful stimulant, it possesses, also, very potent anthelmintic properties, and when used in the irrigation of garden and field crops—the best way, perhaps, in which it can be applied to vegetables—operates as a speedy and effectual remedy against the ravages of bugs, worms, and most of the alligerous or winged depredators, by which vegetables are so often infested and destroyed. It is, also, a most valuable adjutant in the formation of compost. For this purpose, a large tank or vat capable of holding from three to four cart loads, should be constructed in some place easy of access, and to which without difficulty, the wash from the sink and laundry can be regularly conveyed. Into this reservoir all the wash matter produced on the farm and about the mansion, should be thrown—bones, refuse, ashes, muck, turf, rich soil, and chips and saw from the wood-shed; in short, every substances capable of absorbing the rich, fertilizing liquid, and rendering it for the benefit of the soil and plants to which it is to be applied. By a little systematic attention to matters of this nature, the annual product of our agriculture might be immeasurably increased, and the productive capacity of many farms, now regarded as almost worthless, placed on a footing equal, indeed, if not superior to that of the most fertile. Nature has everywhere supplied in munificent abundance, the means of fertility, and we have only to appropriate and apply them judiciously, to secure the best and most flattering results. Some agricultural writers have estimated the value of a hog-shead of suds, to be very nearly equal to that of a cord of prepared manure. This is probably *an over* estimate; yet no one who has applied suds to vegetation, and carefully observed the results, can be otherwise than convinced of its very great efficacy and value. Where it is used in composting operations, it may be applied in its crude state, before fermentation has taken place. It will ferment in the heap, and thus induce a powerful chemical action in the ingredients, which will be in proportion as to power, to their number and character, and the manner, or rather thoroughness with which they are intermixed. With a sufficiency of soap-suds and urine, a valuable compost may be made of any soil—even sand. W.

**SOLD OUT.**

I HAVE this day disposed of my Stock of Dry-Goods to Mr. W. D. Mason, and in returning my sincere thanks to those who have so liberally patronized me, I would bespeak for my young friend and successor, a like liberal and steady support, believing that his obliging manners and business qualifications must recommend him to public patronage.

As I intend leaving by the middle of July, early settlements are respectfully requested.

JAMES WILSON.

June 21. 25-tf

**Facts cannot be Doubted.**
**Let the Afflicted Read and Ponder!**

☞ More than 500 persons in the City of Richmond, Va., alone testify to the remarkable cures performed by

CARTER'S SPANISH MIXTURE.

The great Spring Medicine and Purifier of the Blood is now used by hundreds of grateful patients, who testify daily to the remarkable cures performed by the greatest of all medicines, Carter's Spanish Mixture. Neuralgia, Rheumatism, Scrofula, Eruptions on the Skin, Liver Disease, Fevers, Ulcers, Old Sores, Affions of the Kidneys, Diseases of the Throat, Female Complaints, Pains and Aching of the Bones and Joints, are speedily put to flight by using this great and inestimable remedy.

For all diseases of the Blood, nothing has yet been found to compare with it. It cleanses the system of all impurities, acts gently and efficiently on the Liver and Kidneys, strengthens the digestion gives tone to the Stomach, makes the Skin clear and healthy, and restores the Constitution, enfeebled by disease or broken down by the excesses of youth, to its pristine vigor and strength.

For the Ladies, it is incomparibly better than all the cosmetics ever used. A few doses of Carter's Spanish Mixture will remove all sallowness of complexion, bring the roses mantling to the cheek, give elasticity to the step, and improve the general health in a remarkable degree, beyond all the medicines ever heard of.

A large number of certificates of remarkable cures performed on persons residing in the city of Richmond Va., by the use of Carter's Spanish Mixture, is the best evidence that there is no humbug about it The press, hotel keepers, magistrates, physicians, and public men well known to the community, all add their testimony to the effects of this Great Blood Purifier.

Call and see a few hundreds of the certificates around the Bottle.

And for sale by HAVILAND, HARRALL, & Co., and P. M. COHEN, & Co., Charleston; and Z. J. DeHAY, Camden, and by Druggists and country merchants generally.

Price $1.00 per bottle or 6 bottles for $5.00

**Professor Alexander C. Barry's**
**TRICOPHEROUS,**

OR Medicated Compound, for preserving, fastening, softening and promoting the growth of the hair, cleansing the head, and curing diseases of the skin, and external cuts, bruises, &c. The common consent of all who have used Barry's Tricopherous, whether for the improvement and invigoration of the hair, or for eruptions, cuts, bruises, &c., places it at the head of all preparations intended for like purposes. This is no ill considered assertion. Figures and facts bear it out. The sales average a millions of bottles a year: the receipts, in cash, $100,000. This year the business will exceed that amount. The number of orders which daily arrive at the depot and manufactory, 137 Broadway New York, addressed to Professor Barry, enclosing cash, and requiring immediate attention, would scarcely be believed. The wholesale demand is from 2,000 to 3,000 bottles a day, probably exceeding that of all the other hair preparations conjoined. The popularity of the article everywhere, and the liberal terms to dealers, combine to increase its sales with great rapidity; and improvements in its composition, made at considerable expense, adds to its reputation as well as its intrinsic value. For sale wholesale and retail, by the principal merchants and druggists throughout the United States and Canada, Mexico, West Indies, Great Britain and France, and by Dorrich, Jones & Co., Camden. Sold in large bottles. Price 25 cts. May 24—6m*

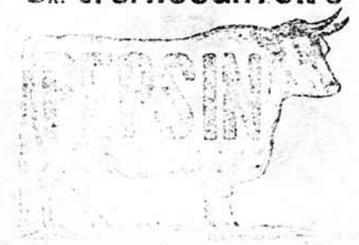
W. C. MOORE.

**ANOTHER SCIENTIFIC WONDER,**

FOR THE CURE OF

**DYSPEPSIA.**

**DR. J. S. HOUGHTON'S**



Prepared from RENNET, or the fourth STOMACH OF THE OX, after directions of BARON LIEBIG, the great Physiological Chemist, by J. S. HOUGHTON, M. D. Philadelphia Pa. This is a truly wonderful remedy for INDIGESTION, DYSPEPSIA, JAUNDICE, LIVER COMPLAINT, CONSTIPATION, and DEBILITY, Curing after Nature's own method, by Nature's own Agent, the Gastric Juice

☞ Half a teaspoonful of PEPSIN, infused in water, will digest or dissolve, *Five Pounds of Roast Beef in about two hours*, out of the stomach.

PEPSIN is the chief element, or Great Digesting Principle of the Gastric Juice—the *Solvent of the Food*, the *Purifying, Preserving*, and *Stimulating* Agent of the Stomach and Intestines. It is extracted from the Digestive Stomach of the Ox, thus forming an ARTIFICIAL DIGESTIVE FLUID, precisely like the natural Gastric Juice in its Chemical powers, and furnishing a COMPLETE and PERFECT SUBSTITUTE for it. By the aid of this preprration, the pains and evils of INDIGESTION and DYSPEPSIA are removed, just as they would be by a healthy Stomach. It is doing wonders for Dyspeptics, curing cases of DEBILITY, EMACIATION, NERVOUS DECLINE, and DYSPEPTIC CONSUMPTION, supposed to be on the verge of the grave. The Scientific Evidence upon which it is based, is in the highest degree CURIOUS and REMARKABLE.

**SCIENTIFIC EVIDENCE!**

BARON LIEBIG in his celebrated work on Animal Chemistry, says: "An Artificial Digestive Fluid, analogous to the Gastric Juice, may be readily prepared from the mucous membrane of the stomach of the Ox, in which various articles of food, as meat and eggs, will be *softened, changed, and digested, just in the same manner as they would be in the human stomach.*"

☞ Call on the Agent, and get a Descriptive Circular, gratis, giving a large amount of SCIENTIFIC EVIDENCE, similar to the above, together with Reports of REMARKABLE CURES, from all parts of the United States.

*Agent*—Z. J. DeHAY, Camden. Wholesale and Retail Agent,

**$500 CHALLENGE,**

WHATEVER concerns the health and happiness of a people is at all times of the most importance. I take it for granted that every person will do all in their power, to save the lives of their children, and that every person will endeavor to promote their own health at all sacrifices. I feel it to be my duty to solemnly assure you that WORMS, according to the opinion of the most celebrated Physicians, are the primary causes of a large majority of diseases to which children and adults are liable; if you have an appetite continually changeable from one kind of food to another, Bad Breath, Pain in the Stomach, Picking at the Nose, Hardness and Fulness of the Belly, Dry Cough, Slow Fever, Pulse Irregular—remember that all these denote WORMS, and you should at once apply the remedy.

**HOHENSACK'S WORM SYRUP.**

An article founded upon Scientific Principles, compounded with purely vegetable substances, being perfectly safe when taken, and can be given to the most tender Infant with [illegible] beneficial effect, where Bowel Complaints and Diarrhœa have made them weak and debilitated the Tonic properties of my Worm Syrup are such, that it stands without an equal in the catalogue of medicines in giving tone and strength to the Stomach, which makes it an infallible remedy, for those afflicted with Dyspepsia, the astonishing cures performed by this Syrup after Physicians have failed, is the best evidence of its superior efficacy over all others.

**THE TAPE WORM!**

This is the most difficult Worm to destroy of all that infest the human system, it grows to an almost Indefinite length becoming so coiled and fastened in the Intestines and Stomach, (from the head downwards) as to cause St. Vitus's dance, Fits, &c., that those afflicted seldom if ever suspect that it is Tape Worm hastening them to an early grave. In order to destroy this Worm, a very energetic treatment must be pursued, it would therefore be proper to take a few of my Liver Pills so as to remove all obstructions, that the Worm Syrup may act direct upon the Worm, which must be taken in doses of 2 Table-spoonfuls 3 times a day these directions followed have never been known to fail in curing the most obstinate case of Tape Worm.

**HOHENSACK'S LIVER PILLS.**

No part of the system is more liable to disease than the LIVER, it serving as a Filterer to purify the blood, or giving the proper secretion to the bile; so that any wrong action of the Liver effects the other important parts of the system, and results variously, in Liver Complaint, Jaundice, Dyspepsia &c. We should, therefore, watch every symptom that might indicate a wrong action of the Liver. These Pills being composed of ROOTS & PLANTS furnished by nature to heal the sick: Namely, 1st, An EXPECTORANT, which augments the secretion from the Pulmonary mucous membrane, or promotes the discharge of corrupted matter, 2nd, An ALTERATIVE, which changes in some inexplainable and insensible manner the certain re-formation of the system. 3rd, A TONIC which gives tone and strength to the nervous system, renewing health and vigor to all parts of the body. 4th, A CATHARTIC, which acts in perfect harmony with the other ingredients, and operates on the Bowels, and expelling the whole mass of corrupt and vitiated matter, and purifying the Blood, which destroys disease and restores Health.

**TO FEMALES.**

You will find these Pills an invaluable medicine in many complaints to which you are subject. In obstructions either total or partial, they have been found of inestimable benefit in restoring their functional arrangements to a healthy action, purifying the blood and other fluids so effectually, as to put to flight all complaints which may arise from irregularities, as headache, giddiness, dimness of sight, pain in the side back, &c.

None genuine unless signed J. N. Hohensack, all others being base imitation.

Agents wishing new supplies, and Store Keepers desirous of becoming Agents must address the Proprietor, J. N. Hohensack, No. 120 North 2nd St. above Race St. Philadelphia, Pa.

Sold by every Druggist and Merchant in the U. S. Agents, Z. J. DeHay, Camden Wholesale and Retail Agt. W. A. Morrison & Co., Winnsboro, F. Curtis Columbia, J. A. Reed Chesterfield.

☞ Price each 25 cts.

**Hardware.**

THE Subscribers offer to the public, the most complete assortment of *HARDWARE* in the back country. As it has been nearly all bought from first hands, they can sell (on the same terms) at Charleston prices.
