Explanation of Signal Flag.

White flag indicates fair or clear weather. Orange flag indicates local rains. Blue flag indicates general rains. Black triangle indicates temperature.

When placed above either the white, orange or blue flag, indicates rising temperature; when placed below these flags, falling temperature, and when absent from the pole, stationary temperature.

White flag with black square in center indicates decidedly colder weather, and is generally issued 24 hours in advance of the expected fall of temperature, and is not given unless it is to reach 45° or below.

The Shamrock decorating Englishmen's coats in the streets of London. Just think of it! It is a significant demonstration. It shows that a sense of Ireland's wrongs is at last beginning to pervade the people of England, and it is a silent, though none the less sincere offer of sympathy with the people of the Green Isle in their struggle for home rule.

Money Standing Between Crime and Justice. (Edgfield Chronicle.) As we hurriedly perused the above list of Judge Norton's sentences, our soul was oppressed with the sad and flagrant fact that money, standing between crime and justice, was the cause of the wrongs done to the wretched negro, and penniless white man are convicted and punished. And if they are guilty, it is all right that they should be. But the white man with money at his back, although his crime is far deeper and darker, goes free. Money is palpable, undeniable, incontestable. Money has had too much to do with the sentiment of every American for that.

Ode to Woman. Oh! woman, thou who rulest the bandbox with a hairpin, and holdst the lid of the ballot-box for thine own pleasure and profit, lead on!

Hints to Merchants. Now is the time to plant spring advertisements. The Gazette is the best soil in which to sow them, and they should be sown broadcast, planted thick, and the soil should be well fertilized by a generous application of that celebrated fertilizer known by the various names of Carter's, and others, to be plain, and for the crop is planted, so that rain and sun, it should be carefully looked after, and about once a week, and get out all the weeds and grass, and be paying close attention to this crop you will be rewarded with a golden harvest.
