

BEARER OF DESPATCHES—ANOTHER GONE.—We have lost says the N. Orleans Tropic, many of our printers, whose patriotism was too warm to permit them to remain at their "cases;" and now, the drain begins to come from our editorial department, as our associate T. B. Thorpe, Esq., has gone to the Army as bearer of Despatches from Gen. Gaines. Well, we—that is the remaining editors—are disposed to go too! Mr. Thorpe will, while at the Camp, furnish the latest war news for the Tropic.

The following note of distances is not without interest at this time: From New Orleans to Point Isabel is 802 miles by water. From Galveston to Point Isabel is 320 miles by water. From New Orleans to Vera Cruz is 1,500 miles. From Yucatan to the city of Mexico is 900 miles. The population of the city of Mexico is about 180,000.

It is thought that Capt. Fremont, who has distinguished himself in command of the exploring expedition into Oregon and California, will be appointed Colonel of the new regiment of riflemen.

Many of the papers contain glowing descriptions of the wealth of the Mexican Churches. The altar of the Cathedral in the city of Mexico, which occupies the site of the Idol temple of Montezuma, is made of pure Silver, ornamented with gold, and surrounded by a balustrade surrounded with images, which are made of compound of gold, silver and copper. The balustrades is supposed to be worth more than a million of dollars. Beside there are gold and silver vases, waiters, candlesticks, &c.

The property of the church, in gold and silver ornaments, is valued at not less than fifty millions of dollars.

VOLUNTEERS.—We learn that at a meeting of the Richland Volunteer Rifle Company, on the evening of the 20th ult., it was voted to tender their services to the Governor, and hold themselves in readiness to march to Texas.

We apprehend that the Rifle company cannot be accepted by the Governor, as the requisition made by the General Government is for Infantry. They can, however, change their rifles for muskets and be received; or they can volunteer as Rifle men to the President himself, who will no doubt accept them.

CAPT. MAY.—This officer, who made the brilliant charge and captured the battery, taking General Vega prisoner, at the recent battle near Matamoras, is, we learn, from Washington city, and is well known to many of our citizens. He is one of the finest horsemen in the army, and always delighted to exhibit his skill in the management of that noble animal. Nothing was too difficult for him to attempt. He has two or three times been severely injured by his daring. On one occasion in this city, for a bet of wine, with some gentlemen, he rode his horse up the steps, and into the passage of the City Hotel; having accomplished this, it was suggested that he could not ride down again. He immediately turned his horse and rode down, jumping his horse over the iron railing. Those who know the location can appreciate the difficulty of the feat. We also remember the gallant Captain having been fined for the breach of an ordinance, in leaping his horse over a cord of wood, on the pavement in front of the City Hotel, some time ago; and we would now suggest to the Mayor the propriety of remitting that fine, in remembrance of the gallant Captain.

COL. MCINTOSH.—It will be extremely gratifying to the friends of Col. McIntosh to learn that his case has assumed a favorable aspect. The circumstances of his encounter with the enemy, and his rescue from superior numbers, is almost miraculous. No wonder that he was at first reported among the killed.

We have seen a letter to his nearest relative in this city, which states that Col. McIntosh has suffered the severest pain since last accounts from him. That for two days much anxiety was felt for his situation, but on the 18th ultimo he was quite easy and doing much better than was expected.

Col. McIntosh's wounds were received in the battle of the second day, while leading his regiment against the enemy's battery. When he had almost reached it, his horse, a noble animal, was shot from under him. Six Mexicans rushed out of a small cluster of chapparal—for this fight was in the chapparal—three with their bayonets pointed at his head. One bruised his nose slightly—the other went in at the mouth, knocked out most of the teeth on the left side, and passed through his neck; with the bayonet thus they pinned him to the ground. One put the muzzle of his musket to the Colonel's forehead and pulled trigger, but the powder in the pan flashed. Another put his musket to the breast of the fallen Colonel. While in the act of firing, the Colonel pushed it aside, and the contents went into the ground. A bayonet was then thrust into his left arm and broke it. Had not some one come to his rescue at the moment, his brains would have been beaten out with their muskets. The Colonel has another slight wound in the leg. The wound in the neck has caused him more pain than ten thousand deaths.

In the course of six weeks, it is believed that the Colonel will be able to travel, and a change from Point Isabel, where there is no comfort, to New Orleans, will be of much benefit to the gallant Colonel.

The above particulars will be read with interest by his numerous friend in Georgia.

We desire many—many years of health and happiness to one who has so gallantly borne himself in the hour of battle, first as Lieutenant, and now as leader of a brigade, who in the impetuosity of the charge upon the enemy's destructive battery, had no time to think of their gallant Chief, but were borne headlong upon the foe.
