We have one of the most complete JOB OFFICES in the State, and do work as well and at as low prices as in the cities. Our stock of STATIONERY is large and will be sold wholesale and retail, as low as in Charleston and Savannah.

Official Paper of Beaufort County.

At last the affairs of the Freedman's Savings and Trust Co., are to be investigated, a resolution that effect having been introduced in Congress by Mr. Douglas of Virginia, and adopted, appointing a committee of nine to perform the task, with power to send for persons and papers. Their duties are to 'investigate the affairs of the Freedman's Savings and Trust Co., and its several branches, to ascertain and report to the House all matters relating to the same, the cause or causes of failure, the parties responsible therefor, the nature, character and value of all collateral securities held by said company or its branches for loans or endorsements of the funds of the same, that said committee also ascertain and report the name and residences of all debtors of said savings and trust company, with the amount respectively due by them, the time when the debts were severally contracted, the kind, description and value of the securities given by said debtors respectively, with such other facts relating thereto as the committee may deem important and necessary to a full understanding and elucidation of the subject matter of the investigation.'

This committee will have a rich field for investigation. Rarely has there been established an institution for such a beneficent object as the projectors of this bank had in view, nor have the results of the failure of any bank fallen upon a class of people less able to bear it than the depositors of this institution. This investigation will probably develop nothing but what the public has surmised, a violated charter and a history of frauds, which when given to the public will sound like an oft told story, but if it brings about a strict accountability for all parties officially implicated in its questionable transactions, and secures to its misguided depositors dollar for dollar of their investments, the public will be satisfied that the money used in furthering this investigation will be money well expended.

WHEN the bids for dieting the almshouse poor for the year 1876 were read the other day, some one wittily remarked, that the next thing would be the offering a premium for being allowed to take the contract.

This would seem almost as reasonable as to offer to feed the poor at the accepted bid of ten and seven-eighths cents per diem for each pauper.

The ration advertised to be dealt out for each week can hardly be furnished for less than the following:

- 6 qts. hominy, 20
3 lbs. bacon, 50
1 pint salt, 10
1 qt. molasses, 10
1 qt. rice, 10
1 lb. coffee, 07
1 lb. sugar, 06
1 lb. soap, 04
2 oz. tobacco and pipes, 10
\$1 12

This being the cost for one week, makes the per diem cost sixteen cents. The contractor pays a steward fifteen dollars per month, which with the average number of paupers, would cost him at least one cent per day, and how he is to adequately feed the poor at a cost of seventeen cents out of ten seven-eighths cents, is the mystery.

It may be remembered by some, if not by the County Commissioners, that Mr. Kingman's bid a year ago, at 11 1/2 cents was thrown out because the Commissioners felt that the paupers could not be properly cared for at so low a figure.

At a democratic meeting held in the village of Barnwell last week, a committee consisting of Judge Aldridge and Col. Counts, was appointed to wait on Gen. P. L. Wiggins and request him to resign from his recently elected position of Judge of this circuit. This after the uncalculated abuse that has been so freely indulged in by the ruling spirits who took part in that meeting and by the course pursued by the opposition press, in this State no man with a spark of self respect in his nature would consent to, and if the tables were turned and Judge Aldridge had been elected to the position by the party with whom he is such a faithful worker, he would consider himself most grossly insulted had Mr. Wiggins been appointed to wait on him from a republican meeting and have requested him to resign. It is asking what not one of those who took part in that meeting, would consent to, under similar circumstances. If the committee will only look at in this light they will abandon their mission.

GOOD NEWS FOR PORT ROYAL.

Vessels to be ordered South to prevent them being frozen in. The largest fleet since the war to be stationed here.

Anything that concerns the moving of the North Atlantic Squadron that will augment their number of vessels in the spacious harbor of Port Royal is read with avidity by all interested in its prosperity. It is the intention of the Secretary of the Navy to concentrate the larger portion of the vessels belonging to the home squadron here, and to increase their number by ordering several vessels now abroad to Port Royal, and to remove several others from Northern rivers thus freeing them from ice during the winter. It looks very promising now that Port Royal will become the permanent headquarters of the North Atlantic Squadron, as its advantages, by the number of vessels that will be sent here, will be forced on the attention of the government.

The Marion, now at Portsmouth and the Vandalia at Boston, will come to Port Royal instead of going on their West Indian cruise. It is surmised that placing such a large fleet here, is significant of complications with Spain in reference to Cuba, but there has yet been no official announcement of the condition of affairs between this country and Spain.
