THE Union Herald calls attention to the fact that if the amendments recom' mended by the committee of the Senate to the bill to fix the salary of certain officers, is adopted the County Treasurer of Beaufort would if the State and County taxes were fifteen mills, only receive \$1,-662 per year, while under the provisions of this same bill the County School Commissioner would receive \$1,000 for his services, and yet we have it from high au. thority that the duties of this office could be faithfully discharged by devoting three days in each month. The above comparison shows the absurdity-not of retrenchment for this was a pledge of the partybut of the manner in which this bill proposes to bring that retrenchment about.

REPRESENTATIVE Campbell, of Illinois Democrat, and philosophical financier from what he terms "the independent standpoint," has delivered a speech on the tangle-foot question that has taxed the brains of both parties for some years back. Mr. Campbell very generously admitted that the Republican party was "entitled to all the credit for what has been well managed in our national finan ces during and since the war." If this candid philosopher can impress this truth. ful admission on the party he serves, it will make the approaching campaign much easier than it otherwise would be. If Democracy will only credit Republicanism with but one half of the good things it has done we shall have no fear of having a balance struck against us. .

It was an insult to them for anyman to approach a juror on the subject of cases during their entire term of twelve months, and if they knocked such men down he would say as a judge, it would be the mildest case of assault and battery that ever came before him.
