reply to the demands made government by the Chevalier de Onis He justly maintains that our gevernment have no right to seize and hand over to the Spanish monarchy the persons of General Toledo and others clamed by its minister, and expresses a hope that the extraordinary pretensions of Spain may lead to a conflict, in which the U. ## TRUTHF SPREADING.

${ }^{T}$ The light, which began in the Courts of Virginia, is fast making its way into those of the other States--From the following article, we learn, that an ablejudge in the State of New-Yorls has pronounced the opinion of his Court, that the State Judges are not bound by the C. U.S. to take cognizance of eases whieh arise under the laws of the United States, and in which the United States are a party. Cerrainly, there is no means to compel them, they are beyond the range of impeachment: As, holding their commissions under another jurisdiction, the U . States cannot remave them from office.- Enquiter.

IMPORTANT DECISION.
It the Court of Common Pleas, held the last week in this village, his honor Judge Nicholas presiding, the question was presented whether Congress had power under the constitution of the United States, to give to the state courts the cognizance of causes arising under the laws of the United States, and in which the $U$. Scates are a party? The discussion was not very ample, but the presiding Judge, in an able opinion, delivered the decision of the court against the constitutionality of the liw. We learn that the questign is placed in such a sliape, that it will probably be decided by the snpreme courr of this state, and by that of the United States.
