DANIEL REED'S PATENT Pleasant Spinner,

A NEW and useful improvement for Spinning wool, worsted, cotton, &c. to be seen at
WILLIAM D. PARKER'S in King-street, CAMDEN. This improvement has been in use ever since the firm of October 1811, by a great number of Spinners who state that they can spin at least one third faster, and perform with more ease than on the common wheel. This wheel is peculiarly calculated for ease, and is put in motion by drawing a hand, and may be lowered or raised as best suits the spinner, and is so constructed as to twist thread with great facility without crossing the band; and the most slender and delicate constitutions are not injured by performing a day's work or more, in a day. It may be used by young girls without any injury to their health. It is allowed by physicians to be a very healthy exercise for weakly persons. It is less liable to get out of repair, and occupies less room than a common wheel.

The Pleasant Spinner may be had as above on very moderate terms. The Patent Right is only two dollars. It is well worthy of the attention of every family in which spinning is carried on.

Under the denomination of nervous disorders, are included several diseases of the most dangerous kind, and are so various, that a volume would hardly suffice to complete a description of them. It pervades, with baneful influence, the whole nervous system, writhing the heart with inexpressible anguish, and exciting the most dreadful suggestions of horror and despair. To this demon have thousands fallen a sacrifice, in the direful transports of its rage.
