FOREIGN.—ENGLAND.

LONDON, February 11.

After the residence of Christians has been so long interdicted in China, the Emperor has lately consented to their admission and to the preaching of the gospel. The edict banishing Christians is revoked with a just and magnanimous remark. "Let the Edict of January 11th, 1724, cease to be a law of the Empire. There is only one God, and this God cannot be offended with the diversity of names which are given to him." This is written by the Emperor himself with a red pencil, with which color a decree being written it can never be recalled.

The Elector of Hesse Cassel has issued an order, making an important change in the uniform and equipments of the officers and soldiers of the army. The most considerable changes are, that queues shall be resumed as soon as possible, that powder shall be worn, and that chapeaux shall not be worn with the back part in front.

*Schwarzbeck.*—It is with pain says the Liverpool Advertiser of February 17, we have to announce the loss of three transports, the Seahorse, Lord Melville, and Boadicea, on the coast of Ireland, with many officers and men, being part of the army from France.

A bulletin from Windsor Castle of March the 2d states, His Majesty is in good bodily health, and has been in a tranquil state of mind during the last month; but his Majesty's disorder is not diminished. (Signed, &c.)

Sir Robert Wilson, Messrs. Bruce and Hutchinson, were to be tried about the 30th of March, before the French chamber of peers.

SHOCKING ACCIDENT.

A private letter from Mitchelstown, county of Cork, dated the 12th of February, states, that at a dance given in the neighborhood, by an opulent farmer on the occasion of his daughter's wedding, a large barn in which the company were assembled, caught fire, and before the door, which was locked, could be opened, twenty persons were burned to death, and about twice that number severely scorched. Among the latter number are the bride and bridegroom.

AMERICAN.

CINCINNATI, (Ohio) Feb. 19.  
*Sugar Refinery.*—Thus we go on. One improvement is only the harbinger of another. Scarcely have we got our Steam Mills in operation, and our Glass Works in blast, when new enterprises are on foot. Surely it is a high gratification to see the comforts of life thus daily accumulating around us. We have

now the pleasure of stating that the *Sugar Refinery* of Messrs. *Barnet Baum, & Co.* is in successful operation; having commenced the process of refining the New-Orleans sugar in the course of the last month, and have already on hand upwards of 3,000 loaves of what is properly termed *lump* sugar, a specimen of which we have seen and considered of an excellent quality.

Thus within twelve months we have witnessed not only the general improvement of the town in graduation of the streets, and raising of many large, commodious handsome brick dwelling houses and stores—particularly the building intended for the Farmers and Merchants' Bank, which presents a facade of peculiar taste and beauty—but, the erection also, and putting into operation of a steam *Saw* mill, driving four saws, which cut 8,000 feet of boards per day; a *Felling* mill and *Brass Foundry* as adjuncts to the steam *flour* mill; a large *Glass* Work; an additional and extensive soap and candle manufactory; at least one *Woolen* factory upon a large scale, for the making of cloth; and lastly, a *Sugar Refinery* calculated to work up 50 barrels of sugar a week.

Give us but a few *Towing Steam Boats* to aid this spirit of enterprise, and

"Here ere long, our town shall rise,  
"With turrets sparkling to the skies;  
"And shine, in *backwoods*' splendor drest,  
"The great emporium of the west."  
(*Liberty Hall.*)

BALTIMORE, MAY 6.

By the arrival of the ship *Globe*, Capt. Dew, in 43 days from New-York, we have a file of Irish papers to the 19th of march—These papers contain nothing new or important. The marching of regiments from one point to another—The disbanding of the militia—and the arrival of fresh corps from England and Scotland—Provisions uncommonly cheap, money uncommonly scarce, and a general spirit of discontent almost every where—Capt. Dew brought only 25 passengers; he might have got thousands, if his ship had been large enough, and he had been permitted to carry them.

Four officers and some sailors belonging to the American Squa-

ron at Mahon, were shot there lately in an affray with the Spanish soldiers. Commodore Shaw demanded that exemplary punishment should be immediately inflicted on the soldiers, as they were the aggressors, and then with his squadron left the port, without waiting the reply of the Spanish government.

WASHINGTON, MAY 7.

The frigate *Macedonian*, capt. Warrington, sailed from Boston on Sunday week for Carthage, having on board Mr. Hughes, as Commissioner, on behalf of the United States, for obtaining the release of the American seamen unjustly detained in that quarter.

THE PUBLIC BUILDINGS.

On the 1st of January last, there had been expended by the Commissioners on account of The Capitol, and President's House and Fire proof office, including the contingent expenses of all the public buildings, such as compensation of commissioners, Architects, and other Agents, &c. doll. 104,133. On the war and Treasury offices to the time of their completion 62,406 Although the two latter buildings, together with the office called Fire Proof, were lately found in a state of almost total demolition, they have been promptly rebuilt, & are now far superior to what they were before.

We can further state, from the authority, that there have been employed at the President's House and Capitol, since April last, on an average, about forty stone cutters; about twenty eight carpenters; and during the season for their business, about twenty bricklayers, exclusive of the superior and superintending agents.

EXPEDITION.

At Richard Brown's woolen factory, Holiday's Cove, Va. 4 miles from Steubenville, the wool was shorn from a sheep in the morning, washed, carded, spun into yarn of 18 cuts to the pound, wove, dyed, fulled, dried, shorn, and made into a coat and worn, all in the space of 24 hours. What think ye of this?  
*West. Herald.*

RICHMOND, MAY 8.

The Steam boat, which is to ply between Norfolk and this city, is now daily expectey at Norfolk.

INCREASE OF THE AMERICAN NAVY.

It delights us to see how buoyantly the navy bill swims along. A million of dollars is to be annually appropriated to this service for eight years—twelve 44's, nine 74's and 3 or 4 steam frigates are to be built as soon as good seasoned materials can be obtained. There is much marrow in this measure.

MILLEDGEVILLE, (Geo.) May 1, 1816.

We understand that Gen. GAINES has gone to the Escambia, a short river which empties near Pensacola, with the view of erecting a Fort in that neighbourhood. If government have any apprehension of a war with Spain, a cordon of posts should be established along the whole frontier of Florida.

PROVIDENCE, April 26.

The Legislature of New-York have adjourned to meet again in November for the choice of Electors of President, &c. They enacted about 200 laws principally local and private.

Two new Banks have passed both Houses and the Council of Revision—the one for the county of Niagara, and the other for the county of Jefferson.

The Bill to prevent the issuing of notes less than one dollar was lost in the Senate.

The Governor's salary is raised to 7,500 dollars and house rent; and the salaries of the Chancellor and the Judges of the Supreme Court to 4,500 dollars.

A work has lately been published in England, translated from the German, called *The Russian Prisoners of War among the French*, by Moritz Von Kotzebue, son of the celebrated Kotzebue, and Lieutenant-General in the Russian service. A preface and postscript have been written by the father.

The King of France has given orders for erecting statues in honor of Generals Moreau and Pichegru.

RALEIGH: April 26.

Extract to the Editor, dated, Washington city, March 17, 1816.—The remark is common here, that the elements of party are breaking up, mixing and commingling in such a manner, as that the old features which distinguished them are no longer discernable.—My hope is, that it forebodes a

return of goodwill and friendly regard between those who have so long regarded each other with a suspicious and even hostile eye.—At all events there is great reason to believe, that as the people must now be less operated upon by the influence of passion and prejudice, they will in all public questions pronounce a sounder and wiser decision. What need we care for the destruction of party characteristics? As Mr. Rufus King remarked the other day, "the invaluable principles upon which we ought to act must still remain. You cannot stab truth; you cannot hang integrity; you cannot quarter patriotism! These must remain imperishable, however parties may modify or times may change."

A Branch of the Newbern Bank will go into operation at Charlotte in this State about the 10th inst. Archibald Frew, Esq. is appointed President, Wm. Davidson, Esq. is Cashier, Andrew Springs, James Cowan, John Irwin, and James Dinkins, Esquires, are Directors.

A Carthaginian Privateer, fitted out by the Patriots as, is said, before the fall of Carthage, has arrived in Newbern; she brought with her about \$ 60,000 in Specie.—I understand her crew consists of men of almost all the civilized nations, which has induced some to suspect her to be a pirate.

Public Stock and Specie (says the Richmond Enquirer) are rising in the United States in consequence of the demand created by the United States Bank. In Baltimore, specie is 25 per cent advance on Baltimore Bank paper. The notes of Virginia Banks are looked for with avidity to the North—Goods are sent to us that funds may be deposited here to draw on. Virginia notes rising.

It has been conjectured that Mr. Dallas wishes the appointment of President of the National Bank.—He has signified his intention of resigning his office of Secretary of the Treasury on the 1st October. Mr. Ingersoll is the first Episcopalian ever promoted in Connecticut to so high an office as Lt. Gov.

The "Aurora" of the 18 inst. says that "The Turkish minister at a foreign court has intimated to one of the ambassadors of the United States, that the grand seignor is desirous of receiving an ambassador from America, at Constantinople."

From the Southern Patriot.

DISTRESSED BRITISH SEAMEN.

The recent reduction of the English Navy has been attended with incalculable miseries to this unfortunate class of men—Unfortunate, in the first instance, in being pressed and enslaved on board his Majesty's ships of war; and then, when their services are no longer required, in being hurried off, houseless, hopeless, and, from their ignorance of any other mode of life than that of "ploughing the main"—totally destitute of the most common necessities of subsistence.—We have seen a handbill, published in Liverpool for the purpose of charity, in which it is stated that

"A number of the above unfortunate Men (many of whom have risked their lives in defence of our country) are at present wandering about the town in the most deplorable state of distress; being absolutely destitute of Food and Lodging, and nearly so of Clothing. Some of them have for several weeks lain in the open air at the Harrington lime-kilns; others have spent the nights under carts, boats, &c. while not a few have taken refuge in a cavern in the stone quarry near St. James's Walk, lying upon the cold rock, without any covering but their wretched clothing!—They have hitherto existed by the precarious aid of casual charity; chiefly bestowed by persons in humble life, who have witnessed their miserable condition."

When we read these things, the better part of our Nature rises within us, and we are ready to utter that hallowed sentiment which expresses to all nations, that, although they are our Enemies in War,—in Peace, they are our Friends.

*The Boxer's Prize.*—A Spanish schooner arrived at Savannah on Wednesday last, whose captain reports, that about a fortnight before, the U. S. sloop of war *Boxer*, had captured off Brazil, a Barratarian pirate, which was sent into New-Orleans, after *lightening* her of upwards of \$ 175,000. This account is confirmatory of that brought from Matanzas by Capt. Long, arrived here on Friday last, except as to the difference in the sum.—No doubt can be entertained of its correctness, so far as relates to the capture.

City Gazette.

A man by the name of Thomas White, a quaker, has to-day been taken before the Mayor, and committed to gaol for distributing papers, of which he professes himself to be the inspired author, calculated to create sedition.

Savannah Republican, 4th.
