To the People of Abbeville District. The Legislature has called a Convention of the people. The Convention is to be elected on the 6th of December next, and will convene in

this city on the 17th of the same month, "For the purpose of taking into consideration the On motion the Chairman of the meeting was dangers incident to the position of the State in the Federal Union, established by the Constitution of the United States, and the measures which will be necessary and proper for providing against the same, and thereupon to take Coffin, James M Eason, D W Bethea, R S care that the Commonwealth of South Caroina shall suffer no detriment."

In view of the very short time allowed for the election of delegates to the Convention, and the possibility that the Extra Session of the Legislature may still continue for some time, the undersigned, your Representatives, who happen to be in Columbia at this time, have considered it to be their duty to inform you of the foregoing facts. They trust that they will not be regarded as transcending the proprieties of the case, when they avail themselves of the occasion to urge upon the District the great importance of harmony and unanimity. In calling the Convention the Legislature was manimous, and the undersigned hope that the same absence of discord will prevail in the elections before the people. They deem it im mensely important that they should not only be united, but bound together with a cordial sympathy. There seems to be no sufficient grounds now for a serious division among the people, and they suggest the propriety of our District sending to the Convention six of her most trusted, wise and experienced citizens without contest or heated controversy. So that when they meet in Convention they may be able with the lights then around themto act in this very grave of the correlations, and as the correlations our beloved State.
