

The Cotton Crop, Again.

Through the courtesy of the proprietors of the New York Commercial and Financial Chronicle, we received last evening advance sheets of the issue of that journal for Saturday, September 18, containing its annual statement of the cotton crop. The Chronicle, we are satisfied, has now more extended and complete facilities for gathering prompt and accurate commercial statistics than are enjoyed by any paper in America; and as its tables are invariably prepared with great fairness and care, we are inclined in this instance to place more confidence in its figures than in those of any other authority. Below we give the main of Chronicle's statement, which, it will be seen, differs in several important particulars from the estimates that have already given:

RECEIPTS FOR THE YEAR ENDING. Table with columns for location (New Orleans, Alabama, etc.) and amounts for Sept 1, 1869 and Sept 1, 1868.

Overland direct. This statement, doubtless, is not without its defects; but it probably presents as fair and full summary of the cotton movement for the past twelve months as we are likely to get. The Chronicle states in reference to the stocks held by Northern spinners, that although some of the largest corporations hold seven and eight weeks' supply, the body of the spinners are are lightly stocked. It estimates the actual consumption of the mills for the past commercial year at about 963,000 bales, against 972,000 bales consumed in 1867-68—Charleston News.

LONDON, September 22.—The Paris correspondent of the London Times says the diplomatic experience of Mr. Sickles is limited, and probably insufficient to enable him to rightly estimate the value and effect of his words. Doubtless, he is much surprised at the excitement they have created, and it will be difficult for his Government to approve the. The Times says the Spanish have found their advantage in a bold display of courage. Sickles is manifestly alarmed at the result of his proceedings, and has requested further instructions. Pending a reply, he desired to withdraw his note. The people and Government of Spain have resolved not to part with Cuba without a struggle. £100,000 in gold have been drawn from the Bank of England for New York. The prospects of the India cotton are good. PARIS, September 22.—La Patrie has Paraguayan advices, admitting a reverse, but maintaining that Lopez was able and determined to continue the war. HAVANA, September 22.—The directors of the Aloxoa Bank offer the Government their profits while the rebellion lasts. They have already paid \$30,000.

A WROTH IMPRESSION CONVEYED—Many persons believe that there is no value in anything that does not come from the North. How humiliating! However, the impression is being gradually corrected. It is now admitted that no remedial Agent has ever been discovered, North or South, that possesses, in so eminent a degree, the power of eradicating from the system all foul distempers, as Dr. TUTT'S Serrapilla and Queen's Delight. The secret is, it assists nature to do this through its own channels. It is composed of vegetable substances alone, every one of which grows on Southern soil. It is the Blood Purifier of the age. This valuable preparation for sale by Parker & Thomson and W. T. Penny. Sept. 8, 1869—19-2t.
