Morus Multicaulis.

TOR Sale nearly or quite TWO MILLIONS of Moras Multicaulis cuttings of remarka. bly wel grown and well matured wood; a large proportion from roots one and two years old. The trees are v ry super or, generally from 6 to 10 feet high, growing on dry sandy land, in tows from 4 to 8 feet apart, and standing, generally, at from 2 to 3 feet in the row. Main steps and branches will be sold tog ther ; and, rather than refuse a good offer the roots will also be sold It is estimated that the lot will yield from four to fire hundred thousand cuttings an inch and quarter, or more in circumference. Such cuttin s, as I know from last spring's experience, grow almost as certainly as rooted plants, even more especially when grown themselves from rooted plants, as is he case with many of those here offered. It is confidently believed that very few if any low of trees are for sale in the country which afford so large a number of so good cuttings. They are worth visiting from a distance by a person wishing to purchase so great a num. ber of trees or cuttings of prime quality. The present price is 124 cents per foot, or 2 cents per bud. A reasonable deduction would be made to afour claser of the whole lot. The field on which the trees stand is within a few hundred yards of the Cheraw beat landing, from which there is

Town and Charleston. The postage must be paid on all letters on the

subject or they will not attended to. M. MACLEAN. Cheraw S. C. October 4th 1639.

LEGSPECTUS Parizzis Gasects

CHERAW ADVERTISER. The Editor of the Che aw Gazette has de-

termined, at the suggestion of the Pce Dce Agricultural Society, to devote more space than fermerly to Agriculture, and matters per-taining specially to its interests. About nine columns, or a page and a half weekly, will be occupied with this subject, except when it F. Taylor, book seller, Washington City, has shall be necessary to make room for Executive Messages, and a few other political papers such as every intelligent citizen ought to read A large proportion of what shall appear under the Agricultural ! and must, of course, be eclected. But the numerous Agricultural perioficals now published in this country afford and valuable to those interested in the lands of abundant and excellent materials for selection; either State as they show every item of informa- and, after a short time, the reports, and other tion which is in poss ssion of the Land Office papers of the Pee Dee Agricultural Society the same for a book of Hymns. A dis- relative to water courses, township lines, Indian will of themselves, form no inconsiderable body of original matter, all of it adapted particularly to this part of the country. And it those points. They can be sent by mail to any is hoped, also, that among the numerous intelligent and enterprising planters of the surrounding districts and counties some may be found who will, occasionally, take the trouble of contributing to the columns of the paper the

result of their experience.

Among the subjects which will engage the Editor's attention the culture of silk shall not be overlooked. Ample instructions will be

the morus mulicaulis and making silk. The paper will espouse the cause of no party in politics, but shall contain an impartial summary of political intelligence, and, eccasionally, able speeches and well written essays (when met with) fairly discussing the principles and measures of all parties. It is believed that a comparatively small space devoted to political subjects in this way may be made more profitable to the Farmer of domestic habits, who wishes to be acquainted with the true state of the country and qualified for a proper and intelligent discharge of the duties of citizenship, than a whole sheet filled, from week to week, and year to year, with one-sided discussions, and the mere quarrels of editors and politicians,whilst, at the same time, it will not be calculated to estrange neighbor from neighbor, or to mislead into a belief that one half of the country are less patriotic than the other, or less ardently attached to our republican insti-
