acent room whence he soon removed to his house and thus far is doing well, and every confidence is entertained of its complete SUCCESS. Baltimore American.

Respecting the crops in North Alabama, the Decatur Register says that the yield will exceed an average crop. Many of the planters are picking from on to fifteen hundred pounds to the acro. The staple is very fine, and we have nover known a more favorable season for putting it in good order -and it is to be hoped that it will command a fair price.

The corn crops are unusually fine it is delivered in the crib at \$1 25 per barrel.

NEW OBLEANS, Nov. 12.

Flour .--- The market for this article remains without change. The sales are very light at \$6.75 a 6.874. Large quantities are effected at \$5,50, although holders are not anxious to sell. The unfavorable news from the Ohio River has a tendency to keep she market firm, its low stage prevents the stock of Flour from accumulating to any amount it may reasonably be anticipated from a knowledged of former times, that the Ohio will close between the 10th and 20 h of the succeeding month. Even if there should be a rise previous so that time, not more than one half the product of that portion of the country can be received before the spring navigation opens. The receipts from St. Louis will not

much exceed the city consump iou.

NEW.YORK, Nov. 13 .-- Money Market received the morning from England. The arrival was quite unexpected, and has anticipated several vessels on their way. All were looking out for the British Queen. now twelve days out.

The news is not of any striking interest. The wheat market continued the same, and the weather was favorable. The money market in London had undergone no change. Flour was beginning to arrive freely from America. This int lligence, such as it, is is considered favorable in Wall S reet.

The Drongla.-We learn that the drounght which has so long prevailed throghout the Southern and Southwistern country, continues to be most distressingly felt. A gentlemen, who travelled from Mo. bile to Charleston, states that the watering of his horse on the way, cost him \$23. We are informed that the wint of water is sev. erely felt on our state road to Columbia. while the old Orangeburgh road is still well watered. Char. Cour.

The Raleigh Register says, " A prinful ramor has been in circulatiod here for several days the amount of which is, that Hon. Edward Stanly and William L. Kennedy, Esq. of Beaufort, have gono to Virginia, to ly presented at a proper time, will doubtlesw settle an affair of honor-Mr. K. being the challenger. Just as our pa per goes to press, a report is in circulation, whether true or false we know not, that the parties were arrested on their way to the battle ground, and bound over."

OF Mr. Stanley's father killed a man in a duel, and he had a brother killed in the same way-and by his intimate friend too, himse.f now a conspicuous citizen in North Carolina.

VIRGINIA. The Richmond Whig gives a complete classifica ion of the members of the Virginia Legislature, and sums up that. Joint vote last year.

Whigs Cons. Adm'n. In Senate 9 20 11 In House 72 51 14 71 81 Whigs Cons. Adm'n. In Senate 10 19 In House 58 56 -78 11 75 The Conservatives still hold the balance of power and Mr. Rives may yet be re-elec. ted to the Senate.

From the Boston Transcript. Singular Accident and Miraculous Es.

cape .-- One of the most singular accidents, accompanied by a most miraculous escape, hat we have ever had occasion to record. occurred yesterday in Portland Place. Mr. lolland, a resident there, on returning tome from his morning's work to dinner. ook into his arms his little child-a girl abou: two years old-and was walking with is playfully about the house, when, finding the scuttle in the attic open, he ascended the stairs to look out. While he was standing on the steps, a favorite kitten of the chill's ran by them, and passed on to the roof.

The child exhibiting a wish to catch the kitten, the father, thoughtlessly placed her the child) on the ridge pole of the house, a brick house, three stories high,) while he went on the roof to catch young pussy. He had left the child but a moment, when it lost its balance, rolled over, and sliding from the roof, was precipitated on to the pavement below ! To the utmost astonisnment of the spectators of this awful scene, the child was taken up, not only alive but without the fracture of a bone, or any signs of internal urt or harm. Her flesh was slightly bruised, but this morning she was as cheerful, and, apparently, in as good health as ever, paricularly at breakfast time, when she laid to as if nothing had happened.

FARMERS' GAZETTE. FRIDAY EVENING, NOVEMBER 22, 1839.

We understand that Mr. Mills the State Engine ir, lately made an examination of the Pee Dee from this place down as far as the contract of Mesara, Gregg and Marshal for clearng it out, under the appropriation of 1837, extended; and finding the work faithfully executed according to contract, received it. At the worst shoals, those near the mouth of Thompson's Creck, we learn that the water is now at least six inches deeper than at some of the others lower town. From all we have been able to learn, we have no doubt that the work has been faithfully done, and, unlike too much of the works paid for from the pub ic treasury, at a moderate price." As much has been accomplished as could be, with the amount appropriated. But the amount was much less than the fair proportion of the Pee Dee country from the appropriations made for works of internal improvement in the state. Had it been larger, however, it is not improhable that less work would have been done, and less benefit been derived in proportion to the amount expended. The Pee Dec country has Just claims for further appropriations from the Legislature, which we hope it will press at a future and not distant day ; and which, if fairbe candid'y considered.

The state election in New York has resulted in fovor of the Whigs, but by a few thousand votes less than last year. The change was mostly in the city. The majority onjoin ballet of the two houses is put down a: 12 to 20. Mr. Tallmadge will therefore be re-elected to the U. S. Senate

MASSACHUSBITS .- The state election took place in this state last week; full returns have not yet reached us, but from those received, it appears that if MORTON, the administration candidate for Governor has not been elected over Governor Everett, he has come very near it. From all we can learn however the election seemed to turn upon other questions than national politics. Gov. Everett was open y committed in favor of the "fifteen gallon law" or the law which prohibits the sale of arclent spirits in less quantities than 15 gallons. All topers and a large proportion of temperate drinkers too, of course, opposed his election; and this question produced more excitement in many if not most parts of the state than any other. Gov. Everett was also obnoxious to the abolitionists who are numerous in the state; and the most of them are said to have voted for Morton. These men, however, being once associated with the Administration party in a warm contest may possibly continue to act with them in future elections. Abbot Lawrence is elected to Congress from the Boston district in the place of Mr. Fletcher resigned, and Mr. Baker, to supply a vacancy in another district, caused by the death of Mr. Alvord. The two members elect are Whigs, as were also their predecessors.

FARMERS' GAZE

A bill was introduced into the Ben Georgia to repeal the free banking law pass sed last session, and after an animated debate of two days was lost by a vute of 29 to 48.

A Mr. Springer has in roduced into the Georgia Senate a bill to exempt all white persons except lawyers and doctors from pull tax. The fellow ought to be defrauded of all his property, if he has any, and confined for life by some curable disease.

The Dengue prevails in the Parish of Iberrille, La.

A public meeting in New Orleans lately passed a resolution to invite Gen. Jackson to attend the celebration of the Eighth of Janua. ry anniversary in that city.

A Whig Convention assembled in Raleigh N. C. on the 12th. inst. and made the following nominations: John M. Morehead of Guiford for Governor of the state, Henry Clay tor President, N. P. Tallmadge of N. York for Vice President of the U. States.

An "Association for the promotion of the culture of Silk in the United States" has real cently been formed in Philadelphia, of which Mr. Biddle, late President of the U. S. Bank is President.

Mr. Biddle's acute and discriminating mund, long since perceived the profit to be derived from the silk culture, and has now a field of Multicaulis growing on his farm near Philadelphia, from which he intends feeding worme.

ROBERTS' SILK MANUAL .- It will be seen y an advertisement in our columns that this excellent little work is for sale at the Booktore.

Of all the manuals to which the present excitement on the subject of silk has given rise, this is the cheapest and decidedly the best. A person of common discernment and ommon dexterity, with this manual in his hand, may raise silk successfully and profitably, without having ever seen a silk worm in the possession of any one else. The Legistature of Peunsylvania, a year or two since bought a large number of copies to be distribated throughout the sate.

W. D. Jones, U. S. Consul for the city of Mexico lately passed on to Washington with e-patches from Mr. Zillis, Minister to Mexico. Contents not known.

The first Monday in December seems to be the time looked to for the meeting of the Agricultural Convention in Columbia.

A Temper ace Convention commenced its esion in Sa isbury N. C. on the 6th. inst, and after the tran action of various business, adourned on the evening of the 7th. Steps we journed on the evening of the 7th. Steps were taken to raise funds for the support of a trav-elling agent in the state and strang enclutions were adopted against the license fund. The prospect is that by the next increase state state legislature, which will be appetr from this time, the friends of temperates will be able to bring so strong a moral influence to bear upon that body as to procure some modification at least of the laws in relation to intemperance and the sale of ardent spirits. The New York American, since the election, has openly come out for Scott as the Whig candidate for the Presiden ynot on account of his great military genius, (see his grand combinations for swamping the Seminoles in Florida,) but for the rare felicity of a certain letter of 18 lines which he wrote to the Governor of New Brunswick! He is to be started un fer the soub. riquet of the "Great Pacificator."

N. ORLEANS, Nov. 12TH.

TEXAS. By the steamer Columbia, dates to the 8th inst. were received from Gal. veston, and to the 4th from Houston. The Yellow fever had committed fr ghtful ravages in the towns above mentioned ; in consequence, many of the citizens had fi d into the country. Emigrants were pouring into Texas in large numbers. Arrivals at Gal. veston, from New York, recently had brought upwards of one hundred families of German settlers, who intend to locate in a colony somewhere in the upper country. A still larger emigration is expected from England the ensuing winter and spring. A new town has recently been laid out on Aransas Bay, called Preston.

More Patriot Troubles. It is said that the Patriots on both sides the lines are again preparing for winter operations. We sincerely hope it is not so ; but from the fact that the Secretary of War has ordered Gen. Scott to make the tour of the fiontier, we fear there is too much truth in the ru. Rochester Dem. mor.

An extract of a letter dated Miledgeville, Nov. 9 says :--" There is a strong feeding pgaint the Banks here. There is but little doubt that they will be required to pay Spacie before long or lose their charters. The Bank of Miledgeville has been protested in 900 cases, and I am told they will be sued on each in a Magistrate's Court. The Legislature is decidedly Administration, and will cry aloud and sparo not, where Banks are concurned." tom att

Mississippi Election .- The State Election took place in Mississippi early in the present month. We have even accounts from only eight counties ; in these the Whice have lost 7 members and gained 2, compared with the last election ; making a clear loss of 5. At this rate the Administration party are likely to have the majority in the State.

It will be seen by a semi-official article copied into a preceding column, from the Army and Navy Chronicle, that the Government have determined, for the present at least, to discontinue offensive operations against the Sem noles, and to act merely on the defensive. This puts an end to the story that blood hounds had been ordered to hunt them.

A late political meeting in Cabarrus county, N. C. RESOLVED that they wou d not support Henry Clay for the Presidency because they consider him a "raletudinarian in his constructions of the constitution" &c. So at least says the report of their proceedings published on Fils. in the Salisbury Carolinian.

A Mr. Atkinson, of Columbus, New Jersey, stated at a recent meeting of the Philadelphia county Silk Society that he had discovered a method of preserving mulberry leaves through the winter perfectly fresh and in a state to feed silk worms, at triffing expense. He had fed a million of worms the present year, was at the time (Oct. 24th.) feeding half a million of worms, and expected to continue the operation through the winter.

SUMMARY.

The Boston Transcript facetiously remarks in an article on Architecture, that the s cret of the recipion for good buildings is, in a wor i-employ good architers, and then let them alone.

[Other things besides houses are often sport.T by ignorant intermodellers. The loss people know of a business the more apt they are to med. dlo with it if they think they have a right to do en.1

Middletown (O.) Mail states that a lot of corn was sold in Hamilton last week at 25 cents per bushel, and that another lot could no. find a purchaser at that price. In the rich corn district of Missouri. 12 1.2 cents per bushel is now the standing price. Cieveland Herald.

A letter from Commodore Porter announ ces his safe arrival in Smyron. The letter states thet the Archipelago is still swarming with pirates, on account of which a convoy is required of the light cruisers of England, France and Austria, to protect the commerce of their respective flags, which, as occusions occur, is willingly extended to one another. Pennsylvanian. Une of the two beautiful giraffes, owned by Messrs. Welsh & Co., died lately in Newark, N. J. These animals cost about twen y thousand dollars.

The Sydney Argus of Nov. 4, says : "A large portion of the banks of Ohio still contious specie payments.

A committee of the Vermont House of Representatives has reported in favor maktog a geological survey of the State-proposing an appropriation of \$2000 for that object.

A letter dated Providence, Nov. 12th, says : "Some three or four of our Banks ave voted to resume, if enough will join them to make a majority of the Banks, and I rather think they williget a majority, but is yet uncertain."

A drayman in Cincinnati had to pay \$250 a few days since, for careleasly run-ning over a child with his cart. The fath er of the child recovered the above sum in an action for tresspass.

By a Parliamentary paper, just printed, it appears that from the first of January, 1839, to the present time, fif y.two slave vessel have been brought before the different courts of mixed commission for adjudication, at Sierra Leono, Havana, and Rio Ja neiro. They were all condemned excepting two.
