FARMERS GAZETTE

PRIDAY EVENING, HOVEMBER 20, 183 We now have a rain falling which it hoped, will render the river bestable.

Mr. Thomas W. Promes is about to revive the Campan Jounnas. It will favor the Administration, but will not appose state banks. It will lend its support to the Temperance cause, and contain selections on the subject of Agriculture.

The abolitionists, who in New York have organised themselves into a regular po-litical party, not obtaining a satisfactory answer from either the Whig or Van Buren candidates to represent the city in the State Senate, started one of their own number and mustered nee Aundred votes for home

Gen. Charles P. Morcer, long a most re pectable member of Congress from Virginia, has been elected the Cashier of a bank in Florida, and, the National Intelligencer says. that be has signified his intention of accepti the appointment. He will therefore resid his seat in Congress during the winter.

More than a thousand gross of buttons are manufactored daily at Haydenville, Mass.-Two hundred women are employed in manufacturing them.

The city authorities of Boston have passed an ordinance to punish persons who forget or disregard propriety so far as to smoke cigare Boon in the etreets of that city. A man was recently arraigned for smoking in the street ; but it appeared that he smoked not a ciger, but a pipe. . He was thereupon acquitted.

Temperance Meetings in differen the state have requested Judge Albert Rhett, the Rev. Dr. others to address the flegislati O'Neal and Mr. Rhett have cons so, if the respective houses, or either of them should grant the privilege.

IMPORTED LAVE STOCE .- Mesers. Gourdin, Matheson & Car of Charleston advertise for sale, blooded horses and cattle now on the way from England to this country. If well relected, they will prove a valuable acquisition to the state; otherwise they will prove injurious, by making an unfavorable impressi on the minds of those who may own and see themselves and their progeny. The advordisement is not as particular as it should be in regard to the stock of the cattle, and their purity of blood.

Some mischevous simpletons, out of sport, enraged an elophant chained to a tree near Port Deposite Md., and one of them approaching the animal was seized in its trunk and dashed to a considerable distance, having his body at the same time pierced through with the tusk of the beast, which caused immediate death

PARTY TACTICS IN THE TENNESSEE LEG-ISLATURE, -The majority of both houses being supporters of the Administration party, resolutions were proposed instructing the Benators, and requesting the Representatives in Congress from that state to vote against a national bank-for the sub-treasury-against a bill to secure the freedom of electionsagainst the distribution of the proceeds of the public lands-and, generally, to support the tion.

Mr. Anderson, of the Whig party, moved as an smendment, to strike out the resolution relating to the sub-treasury, and insert as a substitute the following being the language of estimated at more than \$10,000. The fire Gov. Polk whilst in Congress, when Mr is supposed to have been produced by the Gordon of Virginia, in 1634, proposed the friction of one of the spindles which had run sub-treasury scheme for keeping and disburs- without intermission for several days and fainted. ing the revenue, viz:

Resolved. That a corporation is much asfor than any individual agent, however responsible he may be, because it consists of an association of individuals who have thrown together their aggregate wealth, and who are bound in their corporate character to the extent of their whole capital stock for the denseites; and that it is the opinion of this General Assembly that the heaviest security which the most wealthy individual could give would not make public deposites safe at the point of large collections."

To avoid a direct vote upon this resolution a motion was made to lay it on the table, which prevailed. Mr. Anderson then proposed another substitute, and adopting the language of Gen. Jackson, in his annual message to Congress in 1836 as follows, viz : Resolved that "we have confidence in the ability and capacity of the State Banks to perform all the duties of fiscal agents for the Government."

This was also, on motion, laid on the table to a day beyond the session. Mr. Andersor then moved still another substitute, adopting the language of the Washington Globe, in relation to a sub-treasury, when Mr. Gordon's project, above referred to, was brought forward; viz: Resolved that the Independent Treasury is "disorganizing and revolutionary, and subversive of the fundamental principles of our government, and of its entire practice from 1769 down to this day; and that it is as palpable as the sun that the effect of the scheme would be to bring the public treasury much nearer the actual custody and control of the President, and expose it to be plundered by a hundred hands, where one under the late evetem could not reach it. In such grout, we should feel that the people had just game for slarm and ought to give their most watche attention to such an effort to enlarge execu nower and out into its hands the means of corruption."

This was also disposed of by laying it on the table. This is the last of the proceedings in

Epidemic in St. Augustine.-An epidem has prevailed in St. Augustine, which some consider Yellow Fever of a mild type, and others are at a loss to classify. A St. Augustine paper states that it originated with a family just om Charleston where the Yellow Pever prevailed at the time, and gradually spread, first in the neighborhood of that family, and afterwards throughout the town. The Mississippi election has terminated in favor of the Administration party. Gov. Mc Nutt has been re-elected by a few thousand majority, Mesers. Brown and Thomson bave been elected to Congress, and it is suppose that a majority of both branches of the Legislature is "Democratic,"

There is now no doubt that Marcus Morton has a plurality of a few hundred votes in Massachusetts; but it is still doubtful whether has a majority of the whole number cast which is necessary to an election of, any officer in that state. If he has not, the election devolves on the Logislature. What the political complection of that body will be is still doubtful. Several of the counties failed to make an election on the first trial. In these new ballotings were to take place last Monday on the result of which the preponderance of strength in both branches of the Logislature depends.

ARE THE ABOLITIONISTS WHICH OR VAN Bunen !- Let the following conclusion of a long editorial in the Emancipator, on the subject of the Whig National Convention soon to be held in Harrisburg. Answer, "But when the question is proposed naked, whether they [the Abolitionists] will choose the pupper of Lavery, in Martin Van Buren, or slavery itself,

in Henry Clay, they wilt choose neither."
We stated last week that the Abelitionists were represented to have voted generally for Mr. Morton as a candidate for Governor of Massachusetts. Further information does not confirm this statement. The abolition papers and we suppose, of course, the abolition party, seem to prefer Everett to his opponent, and we think for good reason. The abolitioniste before the election put to the candidates following questions :
