Oh! as you value the reputation of your daughter, seek not to display a fine form and a fine skin to the gaze of the world, at the expense of her modesty, and your own common sense.

Much may be done by mothers to render the dress of their daughters promotive of health, rather than of d. formity and disfees myself utterly incapable of doing justime to this subject. But from a long this year.

We ofen commiserate the poor Chinese female infant, whose feet are early com pressed with bands of wood and iron, so as to prevent them from attaining more than the growth of a child of six weeks. But while we are doing this, we are actually applying the wood, and the iron, and whaleto a part of the tody far more ess nied to health and comfort, and life, than the feet. But how can even this perverted taste of a savage tribe, in point of painfulness and distortion, be compared with that officus custom so prevalent among us of compressing the "human form divine" the head, rather than of the chest, where are located the most delicate organs of life.

Be careful that your daughters do not early imbibe the impression that a thorough domestic training in the business of the kitchen is of triffing importance, if not absolutely derogatory to their respectability. Such impressions in misses of sixteen are very common. But how false and mistaken they are, your own experience bears supple testimony. Save your daughters, it you can, from the mortification and misery of entering upon the care of a Aimily, desti- ed not to be surpassed, perhaps not equalled by tute of a knowledge of what are the first any others forsale in the United States. PARICER'S GAZETES

CHERAW ADVERTISER.

The Editor of the Cheraw Gazette has determined, at the suggestion of the Pee Dee Agricultural Society, to devote more space of his supply of fall and Winter Goods, than formerly to Agriculture, and matters pertaining specially to its interests. About nine columns, or a page and a half weekly, will be occupied with this subject, excep when it shall be necessary to make room for Executive Messages, and a few other political papers such as every intelligent citizen ought to read. A large proportion of what shall appear under the Agricultural head must, of course, be selected. But the numerous Agricultural periodicals now published in this country afford abundant and excellent materials for selection; and, after a short time, the reports, and other papers of teh Pee Dee Agricultural Society will of themselves, form no inconsiderable body of original matter, all of it adapted particularly to this part of the country. And it is hoped, also, that among the numerous intelligent and enterprising planters of the sur-\$12 00 rounding districts and counties some may be found who will, occasionally, take the trouble of contributing to the columns of the paper the two vols. INCREASE OF SUBSCRIPTION.

In 1838 we published 10,000 copies, during the months of Jan. Feb. and March 1839. we iccreased the list to 13,500, and had then to reprint three numbers and increase to 15,000.
