to twenty years, provided to Company shall, | chosen. Some misunderstanding occurred, within three years, complete a single track to Columbia; and, also, that the State shell issue bonds to the amount of her sinck, say \$600,000, payable in twenty years, and place said bonds at the disputal of the Company, which the Company appear disposed to accept in lieu of the cash instalments to the same amount, which the State can be called on to pay within three ycars.

Should these propositions meet a favorable issue it is confidently believed that their encouraging and cheering influence on the minds of the Stockholders, will be such, as to induce them, at any and every sacrifice, to pay up four instalments next year. On the other hand, should the application fail, why then, as far as I can judge from the "signs of the times," there will be a total failure and abandonement of the whole project-n result as humiliating on ! mortifying, as the inception, was dazzling and magnificient. A mountain labor wi.hout even producing a mouse !

THE BANK QUESTION.

From the Correspondence of the Charleston Mercury.

Columbia, Dec. 9, 1839. The Senato is still occupied in discussing the Bank report of the Special Committee. Mr. Bonneu spoke yesterday in defence of the views set forth in the report and resolutions, and expressed a wish that the whole matter may be laid on the table. Such a report he thought calculated to do infinite mischief to the Bank, which had amply sustained iself amidst the commercial embarrassments of the country. Ile insisted that the Committee had transcended the duties which they were charged with. Mr. B. in his remarks had disclaimed all inten. tion of imputing improper motives to the late President of the Bank in the purchase of a new banking house. Mr. Rnett in his reply, said he had nothing to do with the intentions of gentlemen. 1 e too' the report as he found it, and if he understood English words nothing could be clearer than that an imputation was cast upon the late President of the bank. The idea of requiring the bank of the State to regulate the currency of the State ho regarded as visionary and impracticable, contending as it would have to do with all the monied corporations in the State, whose combined capital was equal to ten millions. Mr. Rhett spoke about an hour, and made one of his best efforts. The report and resolutions will not. it is thought receive the approba ion of the Senate, and will be very strongly opposed in the House. Mr. Huger spoke also, and condemned the report for its attack on Judge Colcock, although he could not be. lieve the Committee had any such intention. This matter hasoccupied the Senate almost exclusively to other business.

Dec. 10 .-- Mr. Bennet in the Senate today, moved that the Report and Resolutions of the Special Committee to examine the Bank, be referred back to the Committee with leave to amend the R por, which proposition was concurred in by the House .- This is considered a back out regularly.

NORFOLK DEC. 4.

Samnambulism and Narrow Escape !-A gentleman lodging at the Exchange Hotel, in the 3rd story, rose from his bed on Thursday night, while in a profound sleep, raised the sash of the window, and threw himself out. He encountered a fall of twenty three feet, and was pitched head feremost upon a flight of steps below. The noise of the fall awakened some of the servants who went to his assistance and found insensible; but on conveying him to his room, he soon recovered, and appeared to have received no other injury but the loss of a small lock of his hair with the skin attached. To give an idea of the force with which he fell, the step which he first struck (of plank inch 11-4 inch thick) was split en tirely across and separated. Yet we save him the next morning walking about as fresh as if nothing had happened.

however, owing to Mr. P's apathy in regard to the office of Speaker, and a disposition on the part of his friends, to keep him where his services would be more valuable, -on the floor as a Debater-for, by the way, there is none to lead the Administration forces at present, against the overpowering number of orators they have against them. save Mr. P .- and Mr. Lewis was taken up. But while this matter was in the tide of successful expriment, Mr. Benton, the Senator from Missouri, is said to have sta-ted, that "such a man (meaning Nullifier) would not suit," and hence the choice of Gon. Jones. The sore feelings thus creaed will have to be healed in some monner, as the State Rights' men express themselves free from committal, save on the single uestion of the Sab-Treasury. One thing s certain, if Mr. Dawson, of Geo. is run as the Whig candidate, he will carry more votes than either Mr. Jon's or Mr. Bell, inasmuch as much as the Nullifiers are bound to vote for a companion in principles.

The Speakership, however, is but a prelude to greater matters, as the field for Mr. Van Buren's succession is now open in the Democratic ranks, and hence the wishes of a certain Senator to prevent the election of a State Rights' Speaker. From the signs of the times, you will observe that the Demo. cratic party has three divisions-the hard currency men, who we suppose, lean towards. Mr. Benton, the State Rights' party. who cling to Mr. Calhoun, and the sober thinking Democrats, who avoid both exreines ; in the selection of Mr. Forsyth, an I you may easily mark the movements of each though on general subjects, they will all pull together-at present, however, we

have no time to speculate on this subject. The present Vice President will doubtless be dropped by his party at the next election. as we have heard of no National Convention, and his name has not been brought forward in any Sae Legislature. It is exec.ed, since the nomination of Mr. Polk. for that office by the Tennessee Legislature. hat Messrs King, of Alabama, and Forsyth, of Georgia, will receive a nomination from their respective States-viewing cach n his separate capacity and qualifications. the gentleman from Georgia is likely to be the man MAIS NOUS VERRONS.

We shall have some hard words during the session, about Florida, as Mr. Benton yesterday gave notice in the Senate, that he would, as early as possible, introduce a bill for the armed occupation and settlement of such part of the country as is now inested by the Indians.

If I thought the debates of the House were funy interest a present, I would readily furnish you a synopsis, but they are of such a sumeness of character, and all of them so far from the end in view, that they are as disagreeable to hear as to read.

The whole of this morning has been consumed in debating a question, concerning the decision of the Chair, made yesterday. and in disputing a part of the Journal which states that Mr. Droingoole, of Va., old the Speaker he would let every man within the bar vote, "unless otherwise directed." These three words called up some ten or a dozen members, each one having under stood them in a different sense, and most of the gentlemen professing to know more of the proceedings of the Chur and Teller than these persons did themselves! Most glorious confusion prevails as usual; members are walking, talking and smoking all around the seats, hats on, and no 'ord r call salutes the ear to quell the buzzing thus aused .

HE subscriber has for sale a largo number of Morus Multicaulis cuttings. In the qualities which give value for planting, viz: SIZE and MATURITY OF WOOD, they are believed not to be surpassed, perhaps not equalled by any others forsale in the United States. This is owing to the great distance allowed in planting as well as to suitable soil and good cultivation. Owing to the present scarcity of money, and the consequent depression in the price every thing else, they are offered at a very reduced price. Persons wishing to purchase should apply early ; because all not engaged are now offered in a distant market. Be-sides, if not sold before Spring the price may then be higher. From the Correspondence of the Charleston Courier.

Washington, Dec. 7, 1839.

In my last, I alluded to some slight dissatisfaction in the Administration ranks, proceeding from the late caucus nom nation of Sponker by that party. It had been urged by the New York and soveral of the Pennsylvania members, that some token of gratitude (if one may so cail it) was due to the State Right's men, for coming forward to their assistance at the time the Sub-Treasury Bill was brought before Congress. For this reason if you will refer to your files. you will find that most of the leading Democratic Journals have, for the past an mouths brought forward the claims of Mr. Pickens, in a very strong light, and it seemed to be s general understanding among the mass of the Representatives, that he should be
