As an object of lively interest, the Drame will demand our best efforts. Without stint or mea-sure, but with candour and impartiality, we shall take cognisance of the novalties presented us at the three establishments so generously fostered by the bounty of this community. Occasional state-ments will be given of the condition of the Eag-lies Ages and the standing of the brightest cras-ments of the profession. With means adequate to the task, we shall bring to the undertaking an un-tiring conclution and an unbiased mind. Aspirants to histrionic distinction may always book to us with confidence for encouragement and support. We shall be foremost to give publicity to humble worth and neglected talent; and although we can never prostitute our columns to uphold the undeserving, we shall edgerly seize the opportuni-ty to extend a helping hand to the timed and un-known, and re-assure them with our might in their course " up Fame's proud summit." nd our best efforts.
