FOR THE CAMDEN JOURNAL.

Mr. Editor.—We beg leave through the Journal to nominate Mr. J. C. DOBY, as a candidate for a seat in the House of Representatives, of South Carolina, at the next election.

THE JOURNAL:
CAMDEN, JUNE 11, 1836.

INDIAN AFFAIRS.—From the Indian country we have nothing affording the slightest interest. The Creeks have committed no recent depredations that we have heard of, and the whites at our last dates had not penetrated the nation, but were making preparations to do so. We understand that it is the intention of the government to withdraw no troops from the Creek nation, till the Indians have taken up the line of march, for the country west of the Mississippi. We hope that such may be the determination.

TEXAS.—Gen. SAMUEL HOUSTON has arrived at New Orleans, for the purpose of getting medical aid, in consequence of his wounds. He confirms in every particular the statements in relation to the defeat of the Mexicans and capture of SANTA ANNA.

AMERICAN ENTERPRISE.—The Island of Juan Fernandez has been obtained from Chili, by an American gentleman of fortune, who intends to make it a rendezvous for whaling vessels. His arrangements are upon a very extensive scale, and the whole island to be entirely under his own control. There is no doubt expressed as to the success of his project. He will therefore soon be able to say in the language of its first inhabitant, "I am monarch of all I survey."

SILK.—The Hon. DANIEL WEBSTER intends planting five thousand mulberry trees on his farm, with a view of hereafter cultivating silk.

EARLY CUCUMBERS.—This vegetable was in profusion in the New York market, on the 29th ult.—We have not seen one this season.

A STRIKE AMONG THE BUTCHERS.—The butchers of Cincinnati have refused to furnish the market with beef, &c. on account of the council's ordering the sale of the stalls. We wish the aggrieved party would take up their line of march for this market, provided they bring their provisions with them—they should soon be accommodated with stalls, and customers too.

The letters of FRANCIS L. KENNEDY, Esq. and Major JAMES E. REMBERT, were intended for last week's Journal, but came to hand too late for insertion. By some means, for which we are unable to account, our paper, containing the nomination of these gentlemen, (which was made without their knowledge or consent) did not reach them till the nomination had been published some weeks. It is but justice to these gentlemen to state that they took the earliest opportunity, after ascertaining their nomination, to decline being candidates for the stations which the partiality of their friends would have been pleased to see them occupy.

We have received, through the post office, a communication over the signature of "JESTER," complaining, and with some justice too, of the situation of the west end of De Kalk street, and touching up our honorable corporation, somewhat sharply on the subject. The author says, very properly, that he conceives "it not only a duty, but the design of a public Journalist, to record all circumstances which will in any way tend to advantage the public." We concur entirely in this sentiment, but we must ourselves, in every instance, be the judge of those circumstances, particularly when communications come to us anonymously. We do not believe that the publication of the article in question, would "tend to advantage the public," and the author will therefore pardon us for our apparent want of courtesy; at all events, we could not give it a place without a knowledge of the writer. We would, however, recommend the proper authorities to examine the west end of De Kalk street, as the late heavy rains have made it almost impassable.

BANK OF CAMDEN, S. C.

At a meeting of the stockholders of this institution, on Monday last, the following gentlemen were elected directors, viz:

- WM. M'WILLIE,
- JOHN M. DESSAUSURE,
- JOHN CHESNUT,
- JOHN WORKMAN,
- WILLIAM O. NIXON,
- PAUL F. VILLEPIQUE,
- WILLIAM H. BOWEN.

At a subsequent meeting of the directors, Wm. M'Willie, Esq. was elected president.

Generous and noble conduct in the Governor of Tennessee.—It ought to be recorded, to the lasting honor of Gov. Cannon, of Tennessee, that on receiving the late requisition of General Gaines for troops, he applied to the Union Bank of Nashville for funds to fit out the volunteers, and proposed to pledge the whole of his real and personal estate for the repayment of the loan. The bank, however, no less generous than himself, declined receiving the proffered security, and authorized him to check for whatever sum he might deem necessary.—Louis Journal.

Extract of a letter from a house in Natchez, to a merchant in Baltimore, dated 13th May.

A fleet of nine vessels leave here to-morrow, with a fine steamboat mounting 7 guns, and about 700 men, for Texas. Four out of the nine schooners are armed. Gen. Felix Houston, of Natchez, sold his plantation at auction in this city, for \$56,000. The proceeds he applied to equipping 500 mounted men, who left Natchez 5th inst. for Texas.

There is no doubt of their success, since they have Santa Anna. Persons who have seen him say he is very talkative, and makes many promises. He also says that Texas is too far from Mexico ever to be of use to her.

The city of Louisville, (Ky.) was brilliantly illuminated in honor of the Texian triumph. The Journal says that in almost every street the tyrant Santa Anna might have been seen burning or hanging an effigy. One man suspended a tin reason, in a large wire trap before his door, and labeled the animal "Santa Anna." Thus afforded great amusement to the boys, who would pull his tail or poke him with sticks, indicative of the manner in which they would delight to tease the tyrant himself.

The streets were crowded with people, who were kept in a constant state of excitement by the brilliancy of the bon fires, the whizz of the rockets, the concussion of the fire balls, the shouts of the multitude, and the roaring of the cannon.

CHARLESTON, May 23.

A gentleman arrived in this city on Saturday evening last from St. Augustine, informs us that intelligence had been received at that place from Fort King, stating that the Indians were putting to death all their children under two years of age, meaning thereby to rid themselves of all incumbrances for a future desperate struggle; also that they were making corn in more than ordinary quantities, on which the negroes were made to work very hard under guard of sentinels placed over them.

This intelligence was received from a friendly Squaw taken prisoner, who had escaped from the hostile Indians.—Mercury.

A letter from the postmaster at Columbus, dated 5th inst. received in this city last evening, states that a man by the name of Philander R. Broad, has been arrested and confined in the jail of chambers county, Alabama, on the charge of being concerned in the attack on the stages, and robbing of the United States mail, on the 16th ult. The persons who arrested him found on him broken letters and envelopes of letters that furnish almost conclusive evidence of his guilt, although while in the act of arresting him, he succeeded in destroying, by throwing in the fire, a part of the contents of his pocket book.

The postmaster also says that he has a witness in Columbus, who is willing to testify that he saw him with the Indians when they fired on the stage August 1st.

CREEK WAR.

The only information of interest which we could find in the Columbus papers of last Friday, is, that active preparations are making by those in command to concentrate the men, arms and munitions of war at Columbus, for the purpose of passing into the nation as soon as all things are in readiness, which will be in a few days. In the mean time a considerable force had been sent down the river and stationed along the Chatahochee, for the purpose of protecting the frontier inhabitants on the river below Columbus. Besides the above, the Columbus Sentinel states, that a large number of troops had already arrived at Columbus, and that those that are not sent down the river are encamped on the Alabama side of the river, opposite Columbus.

In another column, we give the grounds assigned by the Hon. Waddy Thompson for his refusal to vote on Mr. Pinckney's resolution.

His reasons will not be satisfactory to the public. When the resolution was first introduced he voted for it, but he would not vote for it again, because "he saw his vote paraded by Mr. Pinckney as authority in favor of that resolution." If the resolution was right in itself, and Mr. Thompson could vote for it "because, as far as it went, he assented to it," was it wrong to vote for it, because Mr. Pinckney afterwards quoted Mr. Thompson's vote, to show that he did assent to it? This is precisely the reason why the constitution requires that members shall vote on the yeas and nays; it is that the country may know who assent to particular propositions when they are acting as representatives of the people. And would such a stickler as Mr. Thompson for strict adherence to the constitution violate it in that vital part which is meant to secure the responsibility of the representatives, merely because it afforded Mr. Pinckney the opportunity of quoting Mr. Thompson's vote in favor of a proposition which Mr. Thompson still admits to be true?

But Mr. Thompson further says, that by voting that Congress had no right to interfere with slavery in the States, he would have recognized the jurisdiction of Congress over the subject. This seems to be a strange interpretation. Congress declares by a resolution that it has nothing to do with a certain subject, and Mr. Thompson says this is taking jurisdiction of it! To ordinary minds, on the contrary, it is an absolute protest against taking jurisdiction of it. The resolution denies such right to exist in Congress; and because it did deny it, Mr. Adams and eight others voted against the resolution, when, for the opposite reason, the great body of the House voted for it. The question was not on the abolition of slavery in the States. It was whether Congress had jurisdiction over the subject—that is, a right to interfere with it in the States. The resolution was a flat and plump denial of all authority or jurisdiction over it in any shape or form. And yet Mr. Thompson could not vote that Congress has no jurisdiction over the subject, because by such a vote he would recognize that Congress had jurisdiction over it!!!

How is it, when a plea is put in against the jurisdiction of a court, and the court decides that it is not entitled to jurisdiction in this taking jurisdiction?

Duff Green once made some direful charge against Mr. Van Buren, if we recollect rightly. It was denied positively, and on authority. The proof was demanded. But Duff said the denial was an admission. This is a case in point of Mr. Thompson.—Globe.

Report of the Committee moved by Mr. Pinckney.

We give in this day's paper, the report presented by the chairman, who moved the reference of the incendiary petitions to a committee with instructions. The instructions voted by the House, are most ably sustained by the argument of the report. No one who will peruse this paper attentively, will be at a loss for the motive

of the agitators in the House, who would delay and defeat, as far as possible, its circulation among the people of both sections of the Union, upon whom the two bitter ends of faction would work through the slave question. It is a conclusive appeal to the heart and head of every patriot of all parties, and cannot fail to make every honest man in the country feel that the agitation of the subject in Congress, in any way, to any extent, or for any purpose, can only be productive of unmixed mischief.—Globe.

The Baltimore Patriot states, that Gen. Clinch has resigned his commission, but that the President has declined to accept it. The loss of so far and experienced an officer as Gen. Clinch at this moment, would be a serious loss to the public service. We sincerely hope that he will reconsider it. No officer in the country had ever a finer opportunity of distinguishing himself, possessing, as he does, the qualifications so admirably adapted to the present state of things.

The Cincinnati Gazette says:—High prices for the necessities of life are generally on the decline in every section of the Union. We note at Wheeling, flour is set at \$4 50 per barrel, and we question if any quantity could be sold in this city for a higher price.

Effects of Leap Year.—Encouragement to unmarried ladies.—Joined in the "holy bonds" of matrimony on Thursday evening last in this city, by the Rev. Mr. La haw, the Rev. Asker Gilbert of Troy, aged 83 years, to Mrs. Mary Comstock of Putnam county, aged 75 years, late widow of Dan. Comstock, deceased, making the fourth time Mrs. Comstock has been led to the hymeneal altar. [Barnstable Journal.]

An affair of Honor, a sovereign cure for the Dropsy.—An intelligent traveller informs us, says the Alabama Republican, that some time since, a Dr. B. of Alexandria, on Red River, challenged Mr. M. an attorney, on some trivial account, who, at the time, was laboring under an abdominal dropsy. They met in the province of Texas, and M. was shot through the stomach. The dropsical matter was discharged, and the bowels, from the inflammation excited by the wound, adhering to the peritonaeum, a permanent cure was accomplished. The parties became friends, and the Attorney remains grateful to the Doctor for this gratuitous surgical operation. We know of no law against shedding water, though there is one against blood. If our medical colleges approve of this mode, it is to be hoped the candidates for M. D. will be carefully examined as to their skill in this novel mode of operation.

DIED.—On Monday morning, at the residence of John A. Colclough, Esq. 16th st. near Bradford Springs, Sumter Dist. Mrs. MARY DAVIS, consort of Mr. John C. Davis of Pee Dee. Mrs. D. has left behind her an affectionate husband and three small children to mourn their irreparable loss.

HISTORY OF South-Carolina.

D. J. DOWLING, 83 Broad-Street, has commenced the re-publication promised some time back, of Dr. DAVID RAMSAY'S HISTORY OF SOUTH-CAROLINA.

The Citizens of the City and State, will be waited on previous to the issue for subscribers. In order to place it within the reach of all, it will be printed in numbers of from 80 to 100 pages each, price 50 cents per number. The cost of the 2 vols., in this manner will not exceed \$5. To those who wish it, they will be furnished, bound in sheep, gilt and lettered, at \$3 per volume, of 500 pages more or less. The first volume will be embellished with a correct VIEW OF THE CITY AND HARBOR OF CHARLESTON, Engraved expressly for this Work, which will be drawn from the most favorable situation. The second volume will contain a MAP OF THE STATE OF SOUTH-CAROLINA.

The Work will be printed on the finest quality of paper, in new and neat type, with stitched covers to each No. As the expense will be considerable, a list of 1000 names is required to warrant the undertaking. The first specimen number is expected to be ready about the 1st August, and the whole will be completed previous to 1st January, 1837. It is hoped in the mean time, and respectfully solicited, that the citizens will patronize this truly Southern Publication in preference to the numerous Works of a foreign nature, which annually receive their support, and generally contain animadversions on their Institutions.

Should further encouragement warrant it, the history will be continued up to the present time, by a competent Editor. As an instance of the scarcity of this Work, the Publisher would state that he could find but one complete copy in the City—this copy belonged to the Charleston Library Society.

Persons being near any post office in the State where there is no agent, by forwarding a \$5 bill, at our expense, or a responsible City reference, will have the work regularly forwarded to them in Nos. by mail, the postage of which will scarcely ever exceed 6 1-4 cents per No.

In addition to the Editors of the different papers, the following persons are our authorized agents:
James Smith, Charleston,
J. R. & W. Cunningham, Columbia,
A. Young, Camden,
John Ryan, Bernwell Dist.
P. O'Sullivan, Sumter Dist.
