

The Indian's Panacea.

FOR the cure of Rheumatism Scrofula or King's Evil, Gout, Sciatica, or Hip-Gout, Incipient Cancer, Salt Rheum, Syphilitic and Mercurial diseases, particularly Ulcers and painful affections of the bones. Ulcerated Throat and Nostrils; Ulcers of every description, Fever sores and Internal Abscesses; Fistulas, Piles, Scald-head, Scurvy, Biles, Chronic, Sore Eyes, Eye-respectables Bloches, and every variety of contagious Affection, Chronic Catarrh, Headache, proceeding from an acid humor; Pain in the Stomach and Dyspepsia, proceeding from vitiation; Affections of the Liver, Chronic Inflammation of the Kidneys, and general debility, caused by a torpid action of the vessels of the skin. It is singularly efficacious by renovating those constitutions which have been broken down by injudicious treatment, or juvenile irregularities. In general terms, it is recommended to all those diseases which arise from impurities in the blood, vitiation of the humors, of what ever name or kind.

Some of the above complaints may require some trifling assistant applications, which the circumstances of the case will dictate; but for a general remedy of Purification, to remove the cause, THE INDIAN'S PANACEA will generally be found sufficient.

To the Public.

How true it is, that modern Physicians—in their ambition to excel in their profession; to explore the vast fields of science by the aid of Chemistry, and seek out new remedial agents; in short to arrive at perfection in the practice by means of ART alone,—overlook and neglect, as beneath their notice the rich and bounteous stores of medicines, which the almighty has caused to spring out of the earth in every clime! And how much more true it is, that while the American Physician looks to foreign countries for many of his most common and necessary articles perpetually changing as they are the dictates of fashion or folly he is surrounded in his own country with an endless profusion.

The congeniality, efficiency and safety of vegetable remedies over mineral, may be estimated by contrasting the ancient practice with the modern; or, to bring it more immediately under our own observation, the Indian practice with that of the whites. Who, in America, has not known or heard of repeated instances wherein some decrepit, unpretending "male Indian by means of his simple remedies alone, has effected the most rapid and astonishing cures, after the whole Materia Medica of the common practice, directed in the most skillful manner has failed? And who has not been surprised at beholding the comparative ease and facility with which the Indian frees himself of any disease, and at the almost total absence of chronic diseases among them. Who has ever heard of an Indian whose constitution broken and ruined by ill-treatment? And can a doubt exist, that this happy exemption of the savage from most of the ills which the civilized man is heir to, is chiefly owing to the more genial and safe remedies which he employs. This astonishing difference in success, is a fair exemplification of the infinite superiority of the simple and safe means of cure which God has created for the benefit of his children, over those which the pride and the art of man have invented.

From a long residence among a portion of the aboriginal inhabitants of this country, and an intimate acquaintance with the methods of cures of some of their most successful practitioners, the proprietor of THE INDIAN'S PANACEA, acquired a knowledge of some of their most powerful and favorable remedies. From these he selected such as were most efficacious and appropriate, and after various experiments to test their principles and strength he has combined them in the form here presented, as the most perfect and beneficial for the purpose for which it is recommended.

The proprietor offers this preparation to the public, with the consciousness that he is placing within its reach, a remedy capable of relieving many of his afflicted fellow beings, who are suffering under the various chronic and obstinate complaints to which it is applicable. To such it will prove an incalculable value, as the means, and in many cases the only means of relieving their sufferings and restoring them once more to health and happiness. This is not offered as a common remedy, that may prove equally good with many others now in use, but as one which is capable of saving life in many extreme cases, when all the usual remedies fail. That it has done repeatedly; and this is the reputation it has obtained wherever it has been introduced.

It is only about three years since this preparation was first presented to the public; but in that short space of time, some hundreds of persons might be found, who would solemnly declare that they believed that their lives were saved by it, and in most cases after they had tried many perhaps all the common remedies in vain. Wherever it is known it is rapidly coming into use, and this affords the most substantial and convincing proof of its merits.

The value of the Panacea, is most conspicuous in those long standing and obstinate syphilitic and scrofulous affections which have defied all other remedies, and particularly in those cases where mercury has been so lavishly used as to cause distressing pains in the bones, nodes, mercurial suppers, derangement of the digestive organs, &c. These it completely removes and in all cases entirely eradicates the disease and the effects a mercury renovates the constitution, and leaves the patient sound and well. In Rheumatism and in ulcerated sore throat, its happy effects are not less apparent, giving almost immediate relief.

Taken in proper doses, THE INDIAN'S PANACEA operates as an alternative, and detergent; a diaphoretic, diuretic and laxative; an antispasmodic and anodyne, and in proper cases, as a stomachic and emmenagogue. Generally expressed, it increases all the secretions and excretions, gives tone to the stomach, and exerts action in the glands in a particular manner. From these principles its operation may be understood.

This medicine has been found highly useful in many ambiguous diseases not here specified, and it has been used with wonderful success, as a Spring and Fall purgative by those who are subject to complaints of the chest, and whose constitutions require new vigor. Such persons will do well to use two or three bottles in small doses. Wherever ailed drink is considered necessary, the Panacea, taken in a small dose, will answer all its purposes, in much less time, at less expense, and in a far more agreeable manner, than the common diet drink.

The following certificates, out of hundreds similar which might be procured, are given to show the effect of THE INDIAN'S PANACEA, in the various complaints therein mentioned; and also to exhibit in the most satisfactory manner its superiority over the various in common use.

CASES OF RHEUMATISM.

CHARLESTON, Nov. 15, 1831.
During the last winter and spring, I was afflicted with a very severe and distressing Rheumatism occasioned by exposure in bad weather. I now take great pleasure in stating, that six bottles of the Indian's Panacea, restored me to perfect health, and I confidently recommend it to all similarly afflicted.

JOHN FERGUSON, King-st.

CHARLESTON, March 27, 1832.
I was seized about three years since with a distressing Rheumatism caused by taking a severe cold while under the influence of mercury, and which has disabled me from business nearly ever since. During this period I have been a patient in the Marine Hospital in this City, upwards of four months nearly, and the same length of time in the Baltimore Hospital, and tried almost every remedy, with little benefit. On the 10th of February last at that time scarcely able to move about upon crutches, I commenced the use of The Indian's Panacea. In one month I found myself entirely

cured from the pain, and am now happy to state that I feel myself perfectly well.

WM. TUCKER, 13 Market-st.

CURE FOR SCROFULOUS ULCERS

New York, Sept. 10, 1830.
This may certify, that in the fall of 1826, I was seized with a swelling in my neck and face, which afterwards ulcerated and became large ghastly ulcers in my neck. After trying several Physicians to no advantage, I went to Philadelphia, and placed myself under the care of Drs. Physic and Beach, when, after repeated salivation to no effect, I was pronounced totally incurable. Afterwards I took twenty bottles of Swain's Panacea and eight bottles of Potter's Catholicon, with no material benefit. Despairing of life, which had now become a burthen to me, I returned to my parents in New York in 1829, and gave myself up to a lingering death. Hearing of the great success of THE INDIAN'S PANACEA, however, in cases similar to my own, I was persuaded to try it, as a last resort. To my great surprise as well as satisfaction, I soon found myself rapidly recovering, and upon taking seven bottles, the ulcers healed and became perfectly well in the course of two months, and have remained so ever since. I make this statement and wish it published for the benefit of those who are suffering under similar scrofulous or syphilitic affections, that they may know what has cured one who has suffered every thing but death, and who considers his life saved by the above syrup. WM. HINMAN.

The above Medicine may be had at WILLIAM REYNOLDS' DRUG STORE, CAMDEN, S. C.

DYSPEPSIA AND LIVER COMPLAINTS.

DR. PETERS' VEGETABLE MEDICINE, STOMACHICÆ ET HEPATICÆ, formed by chymical analysis and synthesis of several proximate vegetable principles, are universally acknowledged to have totally eclipsed the pretensions of every other remedy, and superseded the necessity of every other mode of treatment, wherever the above disease are found to exist, as well as in the enlargement of the Spleen and Jaundice.

Among the symptoms of Dyspepsia and Liver-complaints, are flatulency, sourness or burning in the stomach, melancholy irritability, disagreeable taste in the mouth; great irregularity of appetite, which is sometimes voracious, and at other times greatly deficient, thirst, fetid breath, nausea, weakness of the stomach, acid eructations, palpitation, drowsiness, irregularity of the bowels, pressure on the stomach after meals, pain in the head, dizziness or vertigo; confusion of mind, attended with loss of memory; a gnawing in the stomach when empty, chilliness, affection of sight and hearing, pain and weakness in the back, languor, disturbed sleep, cold feet and hands, tremor, uneasiness in the throat, though pain in the side or breast, &c.

These medicines have been found so effectual in removing the complaints for which they are recommended, that physicians frequently having exhausted all their skill, to little or no purpose.

DR. PETERS' Anti-Bilious Pills.

These pills are composed entirely of vegetable matter, and when taken according to the directions which accompany them, are highly beneficial in the cure and prevention of all Bilious complaints. They act especially upon the liver, when in a torpid condition, carrying off a large quantity of bile, through the influence of the excretory function, which it suffered to remain in the system, would produce either Jaundice, Liver Complaint, Bilious Fever, and Ague, or some other grievous bodily affliction. In all cases of torpor of the bowels, they act like a charm.

As an anti-dyspeptic and dinner pill they are invaluable. Many persons who were subject to violent attacks of sick headache have been perfectly cured in a few weeks by their use. Those who are subject to that distressing complaint, sea-sickness by taking a portion or two of them a few days previous to embarking on board the vessel, will be almost certain to escape it. Females can use them at all periods, without incurring any risk. Persons going to sea or to a southern climate, should by all means take some of these pills with them. Their virtues will remain unimpaired for years in any climate. No family should be without these pills, a portion of them, taken occasionally, would be the means of preventing much suffering in sickness. It is from neglect of keeping up a regular peristaltic action of the stomach and bowels, thus suffering to be absorbed and mingled with the blood, unassimilated fluids, that most diseases are produced. Dr. P. feels confident that no person who gives these pills a fair trial, will ever after feel willing to be without them.

They contain no particle of Mercury, or any ingredient that does not act in harmony with health and oppose disease.

Dr. P. wishes it particularly understood that those pills possess beneficial qualities independent of their purgative effects, they are both tonic and deobstruent, acting upon the secretory and excretory functions; thus strengthening the patient, while they remove obstructions. Medicines which produce no other, excepting cathartic qualities, debilitate the patient, and their repeated use lays the foundation of a long catalogue of Chronic diseases.

Dr. P. having been educated under the most eminent American and European medical professors, and practiced his profession many years in the South where diseases of the most obstinate character prevail, considers himself well qualified to judge on the nature of diseases incident to warm climates.

Prepared and sold by Joseph Priestly Peters, M.D. at his Institution for the cure of obstinate diseases, by means of vegetable remedies, No. 129 Liberty street, New York, inventor and sole proprietor. Each box contains 10 pills, price 50 cents.

The above valuable Medicines may be obtained at the Drug Store of YOUNG & M'KAIN, Camden, May 7, 1836.

BOOT & SHOE STORE.

The subscriber has now received a fresh and general assortment of Ladies and Gentlemen's Boots and Shoes, of the latest and most fashionable style, which were selected with much care by himself—which he believes will give general satisfaction to those who will favor him with their custom. Hagin's Hotel

BELLEVILLE, S. C.

20 1-2 miles south of Charlotte, A.C. on the Camden road.

When the subscriber continues his House of Entertainment, having built a new house, expressly for the accommodation of strangers. He hopes to be able to render his guests comfortable and happy, and solicits a continuance of former patronage.—No exertions shall be wanting on the part of the Subscriber.

DAVID HAGINS.

July 16-25-cm N. B. Mr. C. Winget, my agent for the house, will be in constant attendance. D. H.

SUMTER HOTEL.

The Subscriber informs his friends and the public, that he has taken the House formerly occupied by J. Goodman and more recently by J. J. Exum as a Hotel in the Town of Camden, and near the Court House, where he is prepared to receive company, and flatters himself that those who favor him with their company will be satisfied with their accommodations.

May 23.—20:—1f.

LANDS

FOR SALE

The subscriber offers for sale his valuable plantation, on the west side of the Wateree river, and on both sides of Sawney's Creek, about 10 miles above Camden, consisting of upwards of

3,000 acres of land.

There is about 400 acres of open land in the tract, and the balance well timbered with oak, hickory and pine. In the tract there is a large body of the best land, unenclosed. On the premises are all the necessary buildings, and in excellent repair for carrying on an extensive plantation,
