The Indian's Panacea.

OR the cure of Rheumatism Scrofula or King's Evil, Gout, Sciatica, of Hip-Gout, Incapient Cancers, Salt Rheum, Syphilitic and Mer-curial diseases, particularly Ulcers and painful afsipelas, Bloches, and every variety of contageous Affection, Chronic Catarrh, Headache, proceeding from an aerid humor, Pain in the Stomach and Dyspepsia, proceeding from vitiation; Affections of the Liver, Chronic Inflamation of the Kidneys, and general debility, caused by a torpid action of the vessels of the skin. It is singularly efficacious by renovating those constitutions which have been broken down by injudicious treatment, or juvenile irregularities. In general terms, it is recommended to all those diseases which arises from imurrised in the blood, vitiation of the humors, of what ever name or kind.

Some of the above complaints may require some triding asistant applications, which the circumstances of the case will dictate; but for a general remedy or Purificator, to remove the cause, Tux Ix-DIAN'S PARACEA will generally be found sufficient.

To the Public,

How true it is, that modern Physicians-in their ambition to excel in their profession; to explore the vast fields of sience by the aid of Chimistry, and seek out new remedial agents; in short to arrive at perfection in the practice by means of AET alone,—overlook and neglect, as beneath their notice the rich and bounteous stores of medicine, which the almighty has caused to spring out of the earth in every clime! And how much more true it is, that while the American Physician looks to foreign countries for many of his most common and necessary articles perpetually changing as they are the dictates of fashion or folly he is surrounded in his own country with an endless profusion.
The congeniality, efficiency and savery of vege-

table remedies over mineral, may be estimated by contrasting the ancient practice with the modern or, tabring it more immediately under our own observation, the Indian practice with that of the whites. Who in America, has not known or heard of repealed instances wherein some decrepid, unremedies a one, has effected the most rapid and as-Onisiting cures, after the whole Materia Medica of the conmon practice, directed in the most skilful manner has failed? And who has not been surprised at beholding the comparative case and facility with which the Indian frees himself of any disease; and at the almost total absence of chronic disease among them. Who has ever heard of an Indian with a constitution broken and ruined by illtreatment? And can a doubt exist, that this happy exemption of the savage from most of the ills which the flesh of civilized man is heir to, is chiefly owing to the more genial and safe remedies which he employs. This astonishing difference in success, is a fair exemplification of the infinite sup-nority of the simple and safe means of cure which God has created for the benefit of his children, over those which the pride and the art of man have in-

From a long residence among a portion of the aboriginal inhabitants of this country, and an inti-snate acquaintance with the methods of cures of some of their most successful practioners, the proprietor of the " THE ISDIAN'S PANACEA," acquired a knowledge of some of their most powerful and favorable remedies. From these he selected such as were most efficacious and appropriate, and after various experiments to test their principles and hausted all their skill, to little or no purpose, trength he has combined them in the form here presented, as the moss perfect and beneficial for the purpose for which it is recommended. The proprietor offers this preparation to the pub-

lie, with the consciousness that he is placing within its reach, a remedy capable of relieving many of his afflicted fellow beings, who are suffering un-der the various chronic and obstinate complaints in calculable value, as the means, and in many catorpid condition, carrying off a large quantity of sea the only means of relieving their sufferings and, bile, through the influence of the excernent functioning them once more to health and happiness, tion, which it suffered to remain in the system. This is not offered as a common remedy, that may perchance be equally good with many others now in use, but as one which is capable of saving life in many extreme cases, when all the usual remedies feil. Thus it has done repeatedly; and this is the reputation it has obtained wherever it has been in-

of its merits.

The value of the Panacea, is most conspicuous in those long standing and obstinate syphilitie and scrofulous affections which have defided all other remedies, and particularly in those cases where mercury has been so lavishly used as to cause distreesing pains in the bones, nodes, mercurial ut cers, derangement of the digestive organs, &c These it completely removes and in all cases i entirely eradicates the disease and the effects o mercury renovates the constitution, and leave the patient sound and well. In Rheumatisms and in ulcerated sore throat, its happy effects are not less pparent, giving almost immediate relief.

Taken in proper doses, THE INDIAN'S PANACEA operates as an alternative, and detergent; a diarphoretic, digretic and laxative; an antipasmodic and anodyne, and in proper cases, as a stomachic ent functions; thus strengthening the patient, and emmenagogue. Generally expressed, it in while they remove obstructions Medicines which creases all the secretions and exertions, gives tone to the stomach, and excites action in the glands in a particular manner. From these principles its operation may be understood.

. This medicine has been found highly useful in many ambiguous diseases not here specified, and it en used with wonderful success as a Spring a d Fall purifier, by those who are subject to com-plaints of the chest, and whose constitutions re-quire new vigor. Such persons will do well to the two or three bottles in small doses. Wherever adict drink is considered necessary, the Panacea.

Bouth where diseases of the interest find the ter prevail, considers himself well qualified to ludge on the nature of diseases incident to warm climates.

Prepared and sold by Joseph Pricatly Peters, M D, at his Institution for the cure of obstinate distaken in a small dose, will answer all its purposes, in much less time, at less expense, and in a far more agreeable manner, than the common diet

The following certificates, out of hundreds similar which might be procured, are given to show the effect of THE INDIAN'S PANACEA, in the various complaints therein mentioned; and also to exhibit in the most satisfactory manner its superiority over the syrups in common use.

CASES OF RHEUMATISM.

CHARLESTON, Nov. 15, 1831. During the last winter and spring, I was afflicted with a very severe and distressing Rheumatism occasioned by exposure in bad weather. I now take great pleasure in stating, that six bottles of the Indian's l'anacea, restored me to perfect health, and I confidently recommend it to all similarly afflicted.

JOHN FERGUSON, King-st.

CHARLESTON, March 27, 1832. I was seized about three years since with a distressing Rheumstism caused by taking a severe cold while under the influence of mercury, and which has disabled me from business nearly ever since. During this period I have been a patient in the Marine Hospital in this City, upwards of four months nearly, and the same length of time in the Biltimore Hospital, and tried almost every remedy, with hitle benefit. On the 16th of February and at that time scarcely able to move about upon stutches, I commenced the use of The Indian's l'anacea. In one month I found myself entirely

cured from the pain, and am now happy to state that I feel myself perfectly well.
WM. TUCKER, 13 Market-in:
CURE FOR SCROFULOUS ULCERS

NEW YORK, Sept 10, 1830
This may certify, that in the fall of 1825, I was seized with a swelling in my neck and face, which flictions of the bones. Ulcerated Throat and Nos-trils; Ulcers of every description, Fever sores's and Internal Abscesses; Fistulus, Piles, Scald-to no advantage, I went to Philadelphia, and placed head, Scurvey, Biles, Caronic, Sore Eyes, Eye re- myself under the care of Drs. Physic and Beach, when, after repeated salivation to no effect, I was pronounced totally incurable. Afterwards I took wenty bottles of Swain's Panacea and eight bottles of Potter's Catholicon, with no material benefit. Desparing of life, which had now become a burthen to me, I returned to my parents in New York in 1829, and gave myself up to a lingering death. Hearing of the great success of THE INDIAN'S "A-SACEA, however, in cases similar to my own, I was persuaded to try it, as a last resort. To my great surprise as well as satisfaction, I soon found mysell rapidly recovering, and upon taking seven bettles, the ulcers healed and became perfectly well in the course of two months, and have remained so ever since. I make this statement and wish it published for the benefit of those who are suffering under similar erofulous or syphilitic affecttions, that they may know what has cured one who has suffered every thing but death, and who considers his life saved by the above syrup. WM. HINHAN:

The above Medicine may be had at WILLIAM REYNOLDS DRUG STORE, CAMDEN, S C.

Dyspepsia

LIVER COMPLAINTS.

R. PETERS' VEGETABLE MEDICINE STOMACHICE ET HEPATICE, formi ed by chymical analysis and synthesis of severaproximate vegetable principles, are universally acknowledged to have totally eclipsed the pretensions of every other remedy, and surperceded the every other mode of treatment, wherever the above disease are found to exist as well as in the enlargement of the Spicen and in Jaundice

Among the symptoms of Dyspepsia and Livercomplaints, are Flatulency, sources or burning in the atomach melancholy irratibility, disagreeable taste in the mouth; great irregularity of appetite. which is sometimes voracious, and at other times greatly deficient, thirst, fetid breath, nausea, weakness of the stomach, gold eructations, palpitation, drowsiness, irregularity of the bowels, pressure on the stomach after meals, pain in the head, dizziness or vertigo; confusion of mind, attended with loss of memory, a gnawing in the stomach when empty, chillness, affection of sight and hearing pain and weakness in the back, langour, dised sleep, cold feet and hands, tremor, uneasiness in the throat, chough pain in the side or breast, &c.

These medecines have been found so effectual in removing the complaints for which they are recom mended, that physicians frequently having ex-

DR.PETERS Anti Billious Pills.

These pills are composed entirely of vegetable matter, and when taken according to the directions which accompany them, are highly beneficial in Large Eng. Savoy do the cure and prevention of all Bilious complaints Early Lond Caulifower, They act especially unpon the liver, when in a would produce either Jaundice, Liver Complaint, Billions Fever Fever and Ague, or some other grievous bodily affliction. In all cases of torpor of the bowels, they act like a charm.

As an anti dyspeptie and dinner pill they are in valuable. Many persons who were subject to vio-lent attacks of sick headache have been perfect! It is only about three years since this preparation was first presented to the public: but in that short space of time, some hundreds of persons by taking a portion of two of them a few days premight be found, who would solemnly declare that they believed that their lives were saved by it, and in most cases after they had tried many persons in most cases after they had tried many persons all the common remedies in vain. Wherever the same to a southern climate, should be all.

Large Holland White Onion, White English Mustard, Brown do Large Flanders Spiniage, at all periods, without incurring any risk. Persons at all periods, without incurring any risk. Persons at all the common remedies in vain. Wherever haps all the common remedies in vain. Wherever going to sea or to a southern climate, should by all Prickly it is known it is rapidly coming into use, and this means take some of these pills with them. Their New Zealand affords the most substantial and convincing proof virtues will remain unimpaired for years in any climate. No family should be without these pills, a portion of them, taken occasionally, would be the means of preventing much suffering from siekness | Long blood It is from neglect of keeping up a regular peristaltic | Mangle Wortzel or action of the stomach and towels, thus suffering to Early Searcity be absorbed and mingled with the blood; unassimilated fluids, that most diseases are produced Dr P. feels confident that no person who gives these pills a fair trial, will ever after feel willing to be

without them. They contain no particle of Mercury, or any ingredient that does not act in harmony with health

and oppose disease.

Dr. P. wishes it particularly understood that those pills possess beneficial qualities independent of their purgative effects; they are both tonic and deobstruent, acting upon the secreting and exhalpossess no other, excepting cathartic qualities, de-bilitate the patient, and their repeated use lays that foundation of a long catalogue of Chronic disea-
