#### From the Fairfield Herald.

Mr. Editor: Looking upon disunion as a "fixed fact"-that this rotten and corrupt concern cannot much longer hold together, I ven-

ture to predict that the following blessings will result to the South therefrom: A more extended, purer and rational liberty,

with greater harmony and good will among the members of the Southern Confederacy, than has ever existed between them under the present Union.

Free trade, with greater prosperity to all the various interests, agricultural, mechanical, commercial and manufacturing-cotton never less than 10 cents per pound, oftener 20,

Greater strength and greater security to our domestic institutions, with an entire stoppage or border thieving and kiduapping, on the part of the North.

Greater extension of education, religiou and morality.

More railroads, and internal improvements

generally. Negroes and land increased in value from 50 to 100 per cent.

Pauperism unknown in the land, and If these predictions do not prove true, it is

useless to attempt to reason from cause to ef-PROPHET.

HEAT AND COLD .- We find the body capable of resisting a temparature sufficient to decompose dead matter. Animals, as well as man, have been exposed to a degree of theat man, have been exposed to a degree of heat exceeding that of boiling water, and without injury; when at the same time a thermometer placed under the tongue has indicated an elevation of a few degrees only above the natural standard. The power of resistance is of short duration: for the nervous influence is exhausted by so extraordinary a demand. Chemical agents come into play, and matter is resolved into lifeless form. As regards cold, the same law prevails, the limits are the same. Howevlaw prevails, the limits are the same. However great the power may be of resisting it, as soon as the nervous energy is exhausted, the system is subject to injury.

I have witnessed the effect of cold too long endured upon the little postillions, who are barbarously exposed to it in the Winter season, at St. Petersburg. The lads bear it for a time, as they sit on their horses, clapping their hands, and singing to keep up their conrage; but this fails them by degrees, and finally benumbed, they fall from their saddles in a state of torpor, which nothing but rolling them in snow will overcome. There is seldom a fete given at St. Petersburg, in the extreme cold weather, that occurrences of this sort are not recorded in very cold nights the sentries are frequently frozen to death, if not relieved at short interval. As long as nervous excitement can be kept up, the resistance of cold is very great. Gen. Piroffsky informed me that in the expedition to Khiva, notwithstanding the intenseness of the cold, the soldiers marched along singing, with the breasts of their coats open, but only as long as they were flushed with the hope of success.

Where there is nothing to excite, and where exposure to the cold takes place only under the common routine of parade, its depressing effects are lamentably felt by those long exposed to it. In the time of the Grand Duke Constantine, a regiment of horse was marched from Stelna to St. Petersburg, a distance of twelve mile and upward. He marched at their head at a footpace all the way. He had well wadded himself, and smeared his face over with oil. It was the gratification of a whim to expose the soldiers to a great degree of cold. They arrived at the square before the palace, and were di-missed to their barracks. The following day one-third of the regiment was in hospital, attacked by a nervous fever, of which many died. There was no stimulus of necessity in this case but the moral feeling aggraved by the physical suffering .- Sir G. Lefevre's Apology for the

Hail Storm in Mississ ppi - By a g ntleman who reached the city yesterday, we 'e irn that there was a severe hail storm at Natchez on Thursday night last, which fell in such qu ntities as to whiten the ground. These hail storms are generally not of great extent, but still the present one has probably done more or less injury to the crop, and particularly as the weather was severe immediately after it. - N.O. Bull .

Without Bibles .- It is said that of 32,000 families in New York, recently visited by the New York Bible Society, more than 6,000 were found to be destitute of the Bible.

THE BLESSINGS OF THE UNION .- In every encroachment upon the rights of the Southern States, it has been the practice of our Northern brethren to soothe us into submission with lullabies all about the "blessings of the Union." The time for such foolery is now past; the people of the South are getting sick of the old song; they are waking up to a just appreciation of their condition, and are determined to maintain their rights at every hazard.

"The glorious Union must be preserved!" These words may continue to charm the ear of the craven submissionists; but upon the true hearted patriots of the South they have lost their power. The Union as it was intended to be, the South would have made any sacrifice to maintain; but a Union without liberty, without equality and fraternity, they will not hesitate to dissolve. -- Lincolnton (N. C.) Republican.

THE GIRLS IN MINNESOTA .- The St. Paul Chronicle, noticing the statement of a Western editor, that the girls of this distric occasionally ride a tame wolf to meeting, says: "That's nothing. Many of our bells of Northern Minnesota drive four of the 'varmints,' in band, attached to a train, making winter journeys of five hundred miles across the plains.
