Base Ball.

The Red Stockings, of Camden, went down to Sumter and played a match game with the Palmettoes of of that town on Monday last. The victory was awarded to the Red Stockings, they having made a score of 20 to 17 for the Palmettoes.

Just Arrived.

We were pleased to meet Mr. J. T. Cottrel in town vesterday morning. He has just arrived from Ten nessee with several fine head of sad dle and harness horses He is look ing as happy and jevial as ever, and is ready to make any one else happy who wants to buy a fine horse very cheap.

Graduated With Honors.

We are pleased to see that Mr. Thomas F. Davis, who has been at ten ling the University at Sewanee, Tenu., graduated from that institu- burg tion recently with high honors, the degree of A. M. being conferred upon him. Mr. D. is the son of the late Rev. T. F. Davis, of Camden, and a grandson of the late Bishop Davis, store of Major McLaughlin, on a turof South Carolina.

That Problem.

other partner.

The "caten was in the fact that moved to be the man who furnished three loaves no telling what their next step may ate all of it up but 1 of a loaf, while be: the one who furnished the five loaves

From the Department of Agriculture. The following is the summary from the August monthly report of the Department of Agriculture:

The present outlook is more unpromising than at last report. Cotton has only a short time in which to grow fruit that will mature before frost, and without favorable seasons and a late fall it will tall short of a three quarter crop. Corn cannot be ma-terially benefited by the most favorable seasons, and will probably not yield much above the present estimates—a fraction over a half-crop. Rice, in some sections. has still time for improvement, and the yield may be above the present estimates. Pens may yet be planted for forage, and this course is urgently recommended. Our State has been visited by the severest drought known in many years, and our farmers feel discouraged, but we have room for hope, and favorable seasons for the next few weeks will make the prospects brighter than at present anticipated.

Our Roads.

What kind of a report will the had a better opportunity for putting enough seed to plant next year. them in good repair than they have Not many peas will be gathere had during the late dry spell. Good Corn Crops.

We are told that many of the farmers who plant in the bottom lands along Lynches river will make gathered in any one season for ten years past if the freshets do not come and drown out the corn that is now about to mature. It is a risky piece of tusiness to plant in those bottoms, but if the farmer can save one crop it will pay for the loss of about four. We are pleased to hear eter ranging way up in the nineties. this good news, and we trust that the fondest hopes of the planter may be realized.

Horse Thief Caught.

On Saturday morning last a negro boy calling himself Jim Reed, about Mr. B. at once concluded that the animal was stolen and called the attention of the Chief of Police to the fact. The Chief, after asking the thief a few questions, was satisfied that Mr. B's suspicions were correct, and arrested the boy. In a short outlawed moonshiner, will be tried time Mr. Jackson, from whom the at the coming term of the United mare was stolen, arrived in town in States Court in Greenville. search of her. He immediately identified the animal as his own, and got out a wairant for the arrest of the thief. The thief is now in jail awaiting the arrival of the Sheriff of Sumter county. The crime was committed in that county near States

A High Handed Piece of Business. During the early part of last week about fifty negro men went to the pentine farm near Kelly's Bridge. over Lynches Creek, and told the thieving vagabonds. The Fence Question.

MR. EDITOR: Just at this time the question of fencing in the stock and turning out the crops seems to be giving the people of this section more conall the farmers throughout this neighbor-hood who own land are in favor of the law, there are a great many persons who own stock and no land who are opposed to it. The argument of the non property holders appears to be very absurd to me, and has not the least savor of justice or equity in it.

They lift up their hands in horror at the very idea of depriving the "poor widow," who may own a cow but no land, of the privilege of pasturing her cow upon the land of another. If these self-styled advocates of the "poor widow" can show me any justice in a law that forces me to keep up fences around my crop at an enormous cost in order that the widow's cow may be pastured upon my unfenced land when the said widow does not pay me one cent for the privilage of said pasture, and does not pay electricity more rapid, the repulsive a cept of the tax that I have to pay upon said land, then I can consent to listen to his argument; but as it stands pletely evaporated. Then the comet now it appears to me to be an unjust has no tail. and iniquitous law that compels me to fence my crops to protect them from dated the 14th inst., says that news has the cattle of a person who does not own just reached the city that the Apaches a foot of land, but allows them to run had swooped down on a small Mexican at large and feed upon his neighbor's village eighteen miles from Rio Puero, property. No one can feel more syma a point on the Atlantic and Pacific pathy for the "poor widow" and the Railroad, and murdered twenty seven orphan than I do, and I am willing to out of twenty-nine inhabitants. The do everything that a charitable and two Mexicans who made good their eskindly spirit can expect of me to help cape were nearly exhausted when they them.
