Cow Poetry.—A Chicago poet, upon hearing that Mile. Nilsson was about to erect cow-sheds upon her Peoria lots, burst forth into the following verses: "Christine, Christine, thy milking do the morn and eve between, and not by the dim religious light of the fiftal kerosene. For the cow may plunge, and the lamp explode, and the fire fiend ride the gale, and shriek the krell of the burning town in the glow of the molten pail."

He leaned back gracefully against the fence, with his small dog between his feet. One foot was on a treacherous omnium rind, as he picked up the other to admire a crack in his boot, he sat down on his dog. What is the issue?

Upon what question will the next Presidential election be decided? This query appears to puzzle the brains, and be beyond the intellectual grasp, of parties far better qualified than we are, to decide the matter. At one time the financial problem loomed up in such proportions as apparently made it the issue. The capitalists of the Eastern and Northeastern States with their vast bundles of greenbacks clamored loudly for an immediate resumption of specie payments, but the South and West, heavily in debt, resisted immediate action, while advocating measures looking to the gradual resumption of specie payments. This appeared to be the pivot upon which the approaching elections would turn, but since then, other questions put in claims, for instance, the policy of the government towards the South not as applied heretofore, but as to the expediency of continuing it, assumes an importance from Gov. Morton's late speech that threatens to override all others, and place itself in a position by which, either party must stand or fall. To a small extent, the Cuban question obtrudes itself, to the majority of a nation, whose founders one hundred years ago, fought for what Cuba is now fighting, and for less provocation, the cause of Cuba appears only reasonable and just, yet there are some who hold to the inherent doctrine of America "non interference." Again "know nothingism" rears its miserable head, and the public are harassed with the pitiful question of "native" or "foreign" citizenship, this however we can scarcely record as one of the national issues.

What the real issue will be, time will develop, at no time in the history of our country has there been a period in which there was such an utter absence of some vital question, upon which the two opposing parties of America might go before the public.

The largest mirror in the world has just been put into the parlor of one of the Saratoga hotels. Two platform cars were required to transport it. It will be a great convenience to the Milwaukee belles at Saratoga, enabling them, for the first time in their lives, to get a complete view of their feet in a mirror.—Chicago Times.

Last Monday two little sons of Captain Currie, of Florence, aged four and six, obtained a pistol from the bureau drawer without being perceived. They had the weapon but a few seconds when it fired, the ball entering the forehead of the younger boy and penetrating the brain. When last heard from on Monday afternoon there was no hope of restoring the little sufferer.

The Cordial Balm of Syrium and Tonic Pills. NERVOUS DEBILITY. However obscure the cause may be which contribute to render nervous debility a disease so prevalent, affecting, as it does, nearly one-half of our adult population, it is a melancholy fact that day by day, and year by year, we witness a most frightful increase of nervous affections from the slightest neutralities to the more grave and extreme forms of NERVOUS PROSTRATION. It is characterized by a general languor or weakness of the whole organism, especially of the nervous system, obstructing and preventing the ordinary functions of nature; hence there is a disordered state of the secretions; constipation, scanty and high-colored urine, with an excess of earthy or limo sediment, indicative of waste of brain and nerve substance, frequent palpitations of the heart, loss of memory and marked irresolution of purpose, and inability to carry into action any well-defined business enterprise, or to fix the mind upon any one thing at a time. There is great sensitiveness to impress, though retained but a short time, with a flickering and fluttering condition of the mental faculties, rendering an individual what is commonly called a "whiffle-minded" or "fickle-minded" man. This condition of the individual, distressing as it is, may with a certainty be cured by THE CORDIAL BALM OF SYRIUM AND LOTHROP'S TONIC PILLS, Medicines unrivaled for their wonderful properties and remarkable cures of all Nervous Complaints. Their efficacy is equally great in the treatment and cure of Cancers, Nodes, Ulcers, Pustules, Pimples, Tetter, Fever, Sores, Kingworm, Erysipelas, Scald-head, Barbers' Itch, Scurvy, Salt Rheum, Copper-Colored Blisters, Glandular Swellings, Warts and Black Spots in the Flesh, Discolorations, Ulcers in the Throat, Mouth and Nose, Sore Lips, and Sores of every character, because these medicines are the very best BLOOD MEDICINE Ever placed before the people, and are warranted to be the most powerful and operative ever originated by man, removing Morbid Sensibility, Depression of Spirits, Dementia and Melancholia. Sold by all Druggists, and will be sent by express to all parts of the country, or addressed the proprietor, G. EDGAR LOTHROP, M. D., 143 Court Street, Boston, Mass., who may be consulted free of charge either personally or by mail. Send 25 cents and get a copy of his Book on Nervous Diseases. aug 14 1875 1y
