A solid vein of coal has been found on the farm of a Mr. Clark, in Rockingham county, North Carolina.

The historically famous Old South Church in Boston has been converted into a historical museum.

Four Catholic priests died in Savannah of yellow fever contracted while they were nursing the sick, during the terrible scourge.

Tampa, Florida, shipped 63,912 oranges in one week, and the orange merchants still do a large business in the same direction.

The Georgia State Board of health intend to meet in Savannah on the 12th of December, to investigate the cause of the yellow fever.

Hon. Alex. H. Stephens has promptly gone on to Washington to take his seat. His general health is improving, though he has to walk on crutches owing to rheumatism.

The famous Ferris Mine in Mecklenburg county, North Carolina, has been sold lately to H. H. Crumlish, of Wilmington, Delaware.

The two bank robbers who confessed to having killed Heywood, the Northfield Bank Cashier, have been sentenced to imprisonment for life.

The epidemic of yellow fever in India, as is at last an end, and travelers need no longer fear to visit that city. All absentees have returned, and business is resumed.

By the late fearful cyclone in India, one hundred and twenty thousand people lost their lives, and an enormous amount of property was destroyed.

Four masked men robbed the mail coach ten miles north of Los Angeles, California, a short time since, stole the express and mail, and cut the telegraph wires.

Mr. Joseph Seymour, an employee of the Augusta, Georgia, factory, had one of his thumbs so severely cut by the machinery in the weaving room, that amputation was found necessary. One of the leaders of his arm was pulled out fully eight inches.

Anonymous posters have been put up in Putnam county, Florida, notifying colored Democrats that if they do not leave the county in ten days, they will be compelled to do so. Yet only white Democrats practise intimidation!

A revolution has broken out in lower California; Jose Moreno has collected a force, declared himself governor, and seized the custom house at Rio Juma. He has imprisoned Gov. Villagrana and his secretary, deposited the collector in office under Villagrana, and put in a favorite of his own.

The curious of Charlotte, North Carolina, have been gratified by the sight of two real live Turkeys, who breakfasted there, while on a journey from New Orleans to New York. Their singular appearance and their efforts to make the cook understand their wants afforded much amusement.

In Sacramento, Cal., during a performance at Moore's Opera House the floor gave way, killing seven and wounding about one hundred spectators. Many of the latter are in a critical condition.

A new invention, called the electric railroad signal, is attracting attention among railroad n.e.s, and it is not unlikely to supersede flags. The signals are placed along the

line about a mile apart, and operate by electricity. When the train passes the signal station, the danger signal is displayed until the train passes the next station, when it is reversed.

Several companies of United States soldiers have arrived at Washington, and others are expected. A good many sensational paragraphs about massing troops at the seat of government have arisen from this; but there are assurances that these troops are mostly on route, though it is not unlikely that the government will retain a few companies to police the District until the Presidential inauguration.

The Methodist Episcopal Church South, in the Virginia conference recently held in Richmond, have adopted resolutions to the effect that the adjustment effected by the commissioners of the M. E. Church South and the M. E. Church North, at their meeting at Cape May last August is fair and honorable to both parties, and that they regard the action of the commissioners as final and conclusive.

The son of a prominent colored Democrat in Danville, Virginia, having died, the father's colored friends held themselves aloof, and refused to have anything to do with the funeral. The white citizens of the place laid the remains out, bought a coffin for them, hired a hearse and carriage, and followed them to the grave. A colored preacher was present, but would have nothing to do with the burial; so a white minister read the service and white people committed the remains to the earth. Behold intimidation!

The New York Presidential Electors claim \$1500 pay, and mileage. It seems that when the pay of members of the General Assembly of that State was \$3 per diem, an act was passed giving the Electors the same pay as members of the General Assembly. Afterwards the pay of members was made \$1500, and mileage for the session, whether long or short, without a thought being given to the Electors. Now, therefore, they claim that under the law providing for their compensation, they are also entitled to \$1500 and mileage, for their session of two days.

"Boss" Tweed has at last reached New York, but too late to furnish a campaign canard for Zach Chandler. He landed in New York, at pier 4, North River, from the tug Catapa on the 23d inst., and appears intimidated. He has lost at least seventy pounds of flesh, and seems nervous and apprehensive, while his old defiant look has become of the things that were. In order to obtain his liberty he will be required to give bail in the amount of three million dollars, and that well nigh impossibility accomplished, could be immediately re-arrested and held to bail in the sum of seven million dollars in consequence of the judgment against him in the civil suit, the appeal from which is now pending in the Courts. There are twenty-six indictments hanging over him.

MASON & HAMLIN CABINET ORGANS Have been Unanimously assigned the "FIRST RANK" IN THE "Several Requisites" Of such Instruments, at the U. S. CENTENNIAL, 1876.

and are the only organs assigned this rank. Their superiority is thus declared not in one or two respects only, but in all the important qualities of an organ. A Medal and Diploma have also been awarded them, but medals of equal value were awarded all articles deemed worthy of recognition, so that many makers can advertise "first medals" or "highest awards."

Comparative rank in excellence, has been determined by the Judges' Reports alone, in which the MASON & HAMLIN ORGANS are unanimously assigned "The first rank in the several requisites" of such instruments, and are the only ones assigned this rank. See Judges' Reports. This result was not unexpected, for these organs have uniformly taken highest awards in such competitions, there being less than six exceptions in hundreds of comparisons. They were awarded first medals, and highest honors at Paris 1867, Vienna 1873, Santiago 1875, Philadelphia 1876; having thus been awarded highest honors at Every World's Exhibition at which they have competed, and being the only American organs which ever obtained any award in Europe.

New styles, with improvements exhibited at the Centennial; elegant new cases in great variety. Prices very lowest consistent with best material and workmanship. Organs sent low for cash or installments, or rented with rent paid. Every organ warranted to give entire satisfaction to every reasonable purchaser or the money returned. Illustrated Catalogues sent free.
