THE ANSON HARDY PAPER CUTTER IS by far the best machine which can be obtained for a less price than one hundred dollars. It is of great strength. Those machines have always taken the highest stand. It is the only machine to which is applied the Patent Movable Cutting Roard. This davice has a reputation of is applied the Patent Movable Cutting Board. This device has a reputation of itself: by it, the cutting board can be instantly and accurately moved, so that a perfect cut is insured. This is a very important point in the machine, and one that is possessed by no other. It greatly reduces the labor of preparation in working the paper backward and forward. We cannot too strongly recommend the advantages of this patent movable board. It is worth the price of this machine, and purchas ors should fully understand how highly it is to be valued."—Geo. P.
