

Still Neglected.

Sometime ago I busied myself so much as to express myself through the Pageland Journal in regard to the neglect of our \$8,000.00 school building. At this writing no steps have been taken towards repairing the building.

As I said in my first write-up I am game enough to say what I think. It is just simply shameful the way the building is being neglected.

Our body of trustees are all good men, but as I see it, these good men are certainly neglecting a very important matter. If the roof had been looked after and kept painted it would have lasted 25 years, but a new one will soon be required because of this neglect. The exposed woodwork should not be allowed to go longer without a coat of paint. Then the walls and ceiling are in bad condition because of neglect. I repeat that it is shameful to vote bonds and special levies for schools and then let a building like this go to ruin for lack of attention.

I am certainly in favor of schools alright, but I am also in favor of caring for our school building. Understand I am not electioneering for the job, for I don't feel competent of filling the place as it should be.

I am going to give my opinion, and it is this: I think it would be wise to stop the school now and take the money and repair the building and have it ready for another term.

Another matter is this: is it treating the poor people outside the town limits fair to run the school on after they are forced to stop their children to aid them in their work? They pay their proportional share of the school taxes. I say it is not right. We people in the town who want to send our little ones to school longer ought to go down in our pockets and pay the bill, and not rob the poor old farmer's child out of their rights. And then our schools ought to be, it seems at times.

Mr. Editor, you may print every word of this. Don't be at all backward. All who see these things as I do and who are willing to endorse what I have said about these things and especially the first, may let me know for only a 2-cent stamp—and then we will see further. We hope the good men will take action in regard to our fast decaying school building at once that it may be saved.

Peace be to all.
H. B. Sowell.

The Newspaper Law.

Few readers of newspapers fully and clearly understand the laws governing subscriptions. Below are decisions of the United States on the subject:

"Subscribers who do not give express notice to the contrary are considered as wishing to renew their subscriptions.

"If subscribers order a discontinuation of their periodicals the publisher may continue to send them until all dues are paid.

"If the subscriber refuses to take periodicals from the postoffice to which they are directed he is responsible until he settled his bill and ordered the paper discontinued.

"If subscribers move to other places without informing the publishers and the papers are sent to the former address, the subscriber is held responsible.

"The courts have held that refusing to take periodicals from the postoffice or removing them and leaving them uncalled for is prima facie evidence of intention to defraud.

"If subscribers pay in advance they are bound to give notice at the end of the time if they do not wish to continue taking it, otherwise the publisher is authorized to send it and the subscriber will be responsible of express notice with payment of all arrearage to the publisher."

Our University Letter

By Robt. Turner

The news that Professor W. H. Hand would remain in charge of the High School work as heretofore has been received with joy by all the students, every one of whom had felt the loss the University had sustained when he accepted the presidency of the Anderson Female College.

During the ensuing Summer the University of South Carolina is going to offer a course of studies exclusively for the High School teachers of the State. This is the first Summer School of its kind ever offered in South Carolina and should prove attractive to the many High School teachers of the State. Further announcements will be made at a later date.

Mr. Sullivan, who is in charge of the weather bureau here, has consented to deliver a series of lectures to the classes in Physiology. The first of these was delivered last Wednesday, and on each following Wednesday he will give a lecture on some feature of the study.

The University Track Team, in the first meet of the season, which was held in Spartanburg March 21, defeated Wofford college by a score of 79 to 36, allowing Wofford to win only two first places. The next meet will be held with Davidson at an early date.

The University lost the debate to Trinity College, and thereby the cup also, as the series result-

ed in two victories for Trinity to one for the University.

The regular baseball season opened March 23 with the game in which the University defeated Lafayette College of Pennsylvania. That night the University German Club gave in honor of the Lafayette players one of the best sessions.

Acting President A. C. Moore and Professors Wardlaw, Tate Hand, Smith and Baker attended the sessions of the State Teachers' Association held in Spartanburg March 19 21.

"Talents Necessary To Success in Banking" was the subject of the eighth of the series of Life Work Lectures given under the auspices of the University Y. M. C. A. Wednesday night in Flinn Hall. Joseph Norwood, president of the Union National Bank, was the speaker of the occasion and he gave the audience an insight into present day banking methods that will not soon be forgotten.

Notice Of Court.

The Court of Common Pleas, Spring term, will convene on Monday, April 13. Petit Jurors and witnesses take notice. The Grand Jurors need not attend.

I. P. Mangum,
Clerk of Court.
March 25, 1914.
