July 8, 1914

"Mexican Situation at a Standstill," tells the whole story.

What about a watermelon? It seems to us they are mighty blamed slow in coming.

We don't give a rap how many men run for office. The more the merrier, so long as the three bucks come promptly.

We would hate to have to all that hot air about "beautiful Chesterfield" we see in the Advertiser.

The announcements are coming right rapidly now, but there were not enough for us to make the trip to Chick Springs this week to be with the other fellows.

Mr. W. J. Tiller, the demonstration agent for this county, has been in rather poor health this spring and has had much sickness in his family. As a result he has been unable to do as much work among the farmers as he would have done under more favorable circumstance. He draws his pay for the time he actually devotes to the work and not for the time he is sick or kept at home by sickness in his family.

This is July 8th and the people are beginning, as usual, to think about laying-by the crops. The agricultural writers and those who have tried it tell us that it is no time to quit the crops. They say that August 1st is early enough to quit, but that it is best to cultivate very shallow. It is probably better to quit a little early than to plow up and destroy all the feed roots on the corn and cotton. So then we suppose that the advice they would give would be to cultivate long, often and shallow.

CHURCH NOTES

Methodist Protestant

By. Jno. W. Quick, Pastor

Our protracted meeting will begin the second Sunday in August at 11 o'clock. Set about creating a soul-winning atmosphere. It is just as necessary to have the right kind of spiritual atmosphere as it is to have the right kind of atmosphere to breathe, which we all know is so vital to our physical well-being. We must pray to God and bring down His presence and power. No church can be a soul-winning church unless at least a portion of it has power with God.

We must have love for souls. If we do not love men's souls, no matter how much our words may indicate such love, we can not reach them. We must have love. "Faith, hope, love."

Our appointment for next Sunday, Pageland at 4:30 p. m.

Baptist

J. M. Sullivan, Pastor.

It was a great joy to be with our people again after being kept out of our work for over two weeks.

Good congregation at White Plains last Sunday morning and we enjoyed the effort of trying to preach. Some of those who heard had the courage to say that they enjoyed the discourse very much. We regret very much that it was impossible for us to be with these good folks Saturday afternoon; we have the confidence in these people to believe they under the circumstances excuse us. Regret also to miss the Center Grove appointment in the afternoon.

Some have said that Dr. Langston preached a fine sermon Sunday morning and we are glad to know that they appreciated his work.

Truly hope it will not be many more days before we can get out and see our people in their homes. If you need our service we will try to do your bidding as best we can under the circumstance.

It is with pleasure that we are to have with us on next Sunday morning at Pageland Bro. B. C. Ashcraft, of Monroe, N. C., to lecture to us on some religious topic of the day.

We are glad to have this good layman from our sister association come over and help us in the Lord's work.

Brethren let us begin now praying for a great spiritual awakening in our town and community, that christians may be made stronger in the faith, backsliders healed, indifferences removed, fellowship restored, and the unsaved brought into the Kingdom.

Next Sunday, Pageland 11 a. m., 8:30 p. m.

Revival services conducted by Rev. J. E. McManaway, Home Board Evangelist, will begin fifth Sunday in August.

Nearly 37 Million Acres In Cotton

Washington, July 1.—A total area of 36,960,000 acres of cotton is in cultivation in the United States, according to the preliminary estimate of the department of agriculture announced today. This compares with 37,458,000 acres, the revised estimate of acreage in cultivation a year ago, 37,089,000 acres picked last year, 34,283,000 in 1912 and 36,045,000 acres in 1911.

The condition of the growing crop on June 25 was 79.6 per cent of a normal, as compared with 74.3 per cent on May 25, this year, 81.8 per cent, on June 25 last year, and 80.7 per cent the ten-year average on June 25.

The month began with one of the severest droughts ever known in the eastern portions of the cotton belt. It greatly retarded growth of early planted cotton and delayed the germination of late planted. In the western portions of the belt the first

week of the month was excessively wet. This prevented any improvement in the plants and made cultivation and planting difficult.

Better conditions prevailed during the second week, a good number from plant making good progress in the eastern and central portions of the belt, while the western portion had the most favorable weather for several weeks.

During the third week local showers in the central and eastern portions of the belt greatly improved the outlook and early planted cotton generally was reported in good condition but later planted was backward and needed rain. Highly favorable weather continued in the western part of the belt.

The final week of the month was reported as the most favorable thus far this season, good rains having fallen over much of the central and eastern portions and the plant having made excellent growth. Over the western portions warmth, occasional showers, permitted rapid growth and the outlook greatly improved. Boll weevil were reported as numerous in Louisiana, Mississippi and Alabama.

Route 1 Items

Those who are interested in a day at Salem some August are requested to attend next Sunday.

A good number from the union service was held at Mt. Morrie last Saturday. Some home wet Saturday and others came home.

Union service was held at Mt. Morrie last Saturday. Some home wet Saturday and others came home.

Safe Stanley, colored, lost his cow last week from poisoning caused by eating a little cane.

Miss Mills, of Columbia, has been visiting relatives in this section for some time.

Too busy to write much now.

Pollock & Pegues
